Library Service Increases by 73% in Three Years

Service of the Public Library of Medford and Jackson County has increased 73.56 per cent in the past three years, according to Omar Bacon, librarian. Branch library service has shown an increase of 229.65 per cent, he said. For the first time, the supply of books is large enough to provide at least one volume for each person in its area of jurisdiction. The number of registered book borrowers in the past year has increased from 16,315 to 19,520.

The goals of the library continue to be to serve as a major adult education and cultural agency in the community; to give supplementary service to the school population in their school needs and to serve students in non-school subject fields; and to provide recreational reading matter for persons of all ages. Bacon noted. The library strives to implement these goals by selection of books, magazines, and other materials, and by the promotion of programs to encourage reading.

Several new services have been initiated during the past fiscal year, he said. Among these have been the courier service of the county school superintendent's office, making deliveries to and from the headquarters library and the community libraries; telephones in the branch libraries; and new lights in the adult reading rooms of the Medford library.

Other actions served to improve library service. Centralized purchasing and cataloging for Josephine and Jackson county libraries was inaugurated. Materials of the Jackson County Curriculum Materials center are cataloged and a union catalog system has been started, whereby residents can know the location of books in valley libraries, Bacon noted. Overcrowded library conditions and desirability of maintaining a balance between the service to adult and student patrons are problems which face the library in the future, Bacon said.

In the past fiscal year home use of books has increased by 15.56 per cent, while the gain in registered borrowers has been 3,205. New equipment has been purchased for both the local and the branch libraries, and the net total of books acquired during the year was 8,701. Juvenile home use of books, magazines, and other materials has increased in the local library by 18.49 per cent, while the adult use has increased 4.93 per cent. Total increase in the branch libraries was 32.59 per cent. Cash allocations to the library for the year totaled \$117,572.97, while expenditures were \$117,159.90. This left a budget balance of \$413.07 on June 30, 1962. Non-budget funds included assets of \$34.59, receipts of \$498.01 and disbursements of \$221.50. The result was a non-budget balance of \$276.51. Payment of overdue charges on books resulted in receipts of \$4,658.89, while receipts from miscellaneous items such as rental books, sales, refunds on orders, and other items totaled \$3,203.81. This left a total of \$7,862.70.

Employee Wages Report Must Be Made by July 31

Report of employee wages for social security purposes for April through June must be made to Internal Revenue Service by July 31, Edward B. Jacobson, district manager of the Medford social security office, has reminded employers.

That correct reporting of earnings is important since future social security benefits to the worker and his family are based on earnings credited to the worker's social security account. He pointed out that some employers, especially new ones, mistakenly feel they do not have to submit a report when they have only one employee or if the amount of wages paid is small. This misunderstanding may cause the employer to pay a penalty and interest later. The law specifies that the wages of all workers in jobs under social security must be reported regardless of how small the amount and even if only one person is employed, Jacobson noted. This law applies to employers of household help, as well as to business employers, Jacobson emphasized.

In general, if a person—including a maid, handyman, cleaning woman, or baby sitter—has been paid as much as \$50 in cash wages during the three-month period, April through June, a report of these earnings should be made to the Internal Revenue Service by July 31. In addition, earnings reports should be made on farm workers who received less than \$50 in cash wages. More details on reporting the earnings of a farm worker can be obtained from either Internal Revenue or the social security office. Jacobson reminded both employers and employees

Marine Band Sets Medford Concert

The 163-year-old United States Marine Band, the oldest military symphonic musical organization in the country, will visit Medford Oct. 18, under the auspices of the Medford High school band, as part of the presidentially approved tour, covering the Pacific Coast states and 11 states en route—the first such tour since 1959.

Irv Mirick, supervisor of instrumental music in Medford schools, announced that matinee and evening concerts will be presented Thursday, Oct. 18, at Hedrick Junior High school. It will include musical works by the world's finest composers and marches which have brought the Marine band acclaim from visiting dignitaries of almost every country in the world.

Under the leadership of Lt. Col. Albert Schoepper, the Marine band is known to millions of Americans through its annual tours, its radio broadcasts and television appearances, and its concert series in the Nation's Capitol. The annual tours originated under the direction of John Philip Sousa in 1891.

The Marine band has played for every inauguration since Thomas Jefferson's. Founded in 1798 by an act of Congress, the band has played for all official functions in the Nation's Capitol.
