DESENEX!

compounded with
undecylenic acid,
a standard
Athlete's Foot
Treatment
used by the
U.S. ARMY!

MEDICAL SCIENTISTS REPORT:

"amazing results" "dramatic improvement"

Probably nowhere is the control of athlete's foot more important than in the Army, Navy and Air Force, with millions of men in service. Thanks to a remarkable preparation, it no longer is the problem it once was.

The treatment (undecylenic acid) is so simple and dependable, it is now a standard Athlete's Foot Treatment used by the U.S. Armed Forces!

This Desenex treatment is also most often prescribed and recommended by physicians, for it works where others often fail. It promises new freedom from athlete's foot itching, pain and danger of spreading, as evidenced by clinical studies involving over 6200 men and women.

What Desenex does

Desenex seeks out, attacks and kills not only common athlete's foot fungi, but also checks bacteria that often cause more stubborn cases. Maddening itch is relieved, healing rapidly promoted. Simply use Desenex Ointment at night; Powder during day. It's guaranteed to work or money back! Desenex—at all drug counters.

Clinical results were described professionally as "dramatic," "immediate," even "amazing." Key facts from these studies by leading hospitals, medical schools and clinics are available to your physician or your foot specialist.
