NOTICE OF PARTNERSHIP DISSOLUTION
Notice is hereby given that we the undersigned, have dissolved the partnership heretofore conducted under the name of STAMPER & CLOUGHIN since August 1, 1962; and that each of us will conduct separate businesses after said date. HENRY STAMPER, 104 Kings Way, Central Point, Oregon. CHARLES CLOUGHIN, 121 Genesee, Medford, Oregon.

NATIONAL FOREST TIMBER FOR SALE
Oral auction bids will be received by the Forest Supervisor, or his authorized representative at the office of the Forest Supervisor, Post Office Building, Medford, Oregon, beginning at 10:30 a.m., September 17, 1962, for all merchantable timber marked or designated for cutting on an area embracing 383 acres, more or less, within sections 2 and 3, T. 34 S., R. 4 E., and sections 27, 28 and 35, T. 33 S., R. 4 E. W.M., surveyed in the Rogue National Forest, Jackson County, Oregon. The estimated volumes are: 1,050 M board feet of Douglas-fir; 1,430 M board feet of ponderosa pine; 1,430 M board feet of western white pine; 1,430 M board feet of white fir and other species. The minimum acceptable bid per M board feet is as follows: Douglas-fir \$9.20; ponderosa pine, Jeffrey pine, sugar pine, and western white pine \$6.75; white fir and other species \$5.30. This includes the following rates, per M board feet for stumpage, including disposal for sale area betterment: Douglas-fir \$2.50; ponderosa pine, Jeffrey pine, sugar pine, and western white pine \$1.00; white fir and other species \$2.30. The prices bid for stumpage shall be considered as tentative rates subject to quarterly calendar adjustment upward or downward by 0.5 of the difference between the average of the monthly Douglas-fir Region Index, as calculated by the Forest Service, or the Western Pine Association Lumber Price Index for the three previous months, and the following base indices: Douglas-fir 103.15 (C); ponderosa pine, sugar pine, Jeffrey pine and western white pine 63.67; white fir and other species 92.98 (A). Such adjustments in the price for stumpage shall be applicable to timber sealed during the three-month period following the quarter for which the adjustment is computed. In no event, however, shall the payment rates for each quarter be less than the base rates as stated above. When the adjusted rates by species are lower than base rates, the difference between the total dollar value of the timber cut at adjusted rates and at base rates will be recorded for each species. The stumpage rate for any species will not be increased above the base rate until the subsequent adjusted rates above the base rate for all species develop an accumulated total dollar value in excess of the recorded total accumulated difference for all species. Sealed bids will be publicly opened and posted at the office of the Forest Supervisor at 10:30 a.m. on September 17, 1962. All those who submitted a satisfactory sealed bid will be permitted immediately to continue auction bidding. A money order, bank draft, cashier's or certified check in the sum of \$2,000.00 must accompany each bid, to be applied to the purchase price, refunded or retained for application to any claim for damages according to the conditions of sale. If requested by the purchaser, contract terms will permit felling of timber in advance of payment up to the value of the performance bond. If an oral bid is declared to be high at the closing of the auction, the bidder must immediately confirm the oral bid by submitting it in writing on a Forest Service bid form. The right to reject any and all bids is reserved. Forest Service bid forms for use in submitting sealed bids and full information concerning the timber, the conditions of sale and the submission of bids should be obtained from the District Ranger, Butte Falls, Oregon, or the Forest Supervisor, Medford, Oregon, before bids are submitted.

The Medical Roundup

by
Walter Alvarez

Boy Who Wants To Grow Taller

As I have to say here every so often, many parents write to ask what can be done to make a small boy grow tall or to make an abnormally tall daughter stop growing. And sadly I have to say that though I see a lot of the medical journals and go to many big medical conferences, I cannot find a good answer to either of these questions. I was just re-reading an excellent article on the subject in "Spectrum" for March-April 1961. There the author says what I have often said before, in this column — that years ago my good friend

LEGAL NOTICES

NOTICE TO CREDITORS
No. 1462
IN THE CIRCUIT COURT OF THE STATE OF OREGON FOR JACKSON COUNTY
In the Matter of the Estate of JAMES F. PULVER, Deceased.
Notice is hereby given that the undersigned has been appointed Administrator with the Will Annexed of the estate of James F. Pulver, deceased, by the Circuit Court of the State of Oregon for Jackson County, and has qualified. All persons having claims against said estate are hereby notified to present the same, duly verified as by law required, to the undersigned at No. 10, The Mall, 1005 East Main, Medford, Oregon, within six months from the date hereof.

DATED and first published August 17, 1962.
JOHN H. CHANEY
Administrator with the Will Annexed

NATIONAL FOREST TIMBER FOR SALE
Schoonover Partial Cut
Oral auction bids will be received by the Forest Supervisor, or his authorized representative at the office of the Forest Supervisor, Post Office Building, Medford, Oregon, beginning at 2:00 p.m., September 20, 1962, for all merchantable timber marked or designated for cutting on an area embracing 94 acres, more or less, within sections 19 and 20, T. 32 S., R. 3 E., W.M., surveyed in the Rogue National Forest, Jackson County, Oregon. The estimated volumes are: 169 M board feet of Douglas-fir; 213 M board feet of ponderosa pine; 80 M board feet of white fir and other species. The minimum acceptable bid per M board feet is as follows: Douglas-fir \$23.50; ponderosa pine \$27.50; sugar pine \$27.50; white fir and other species \$19.00. This includes the following rates, per M board feet for stumpage, including disposal for sale area betterment: Douglas-fir \$2.50; ponderosa pine, sugar pine, and white fir \$1.00; white fir and other species \$2.30. The prices bid for stumpage shall be considered as tentative rates subject to quarterly calendar adjustment upward or downward by 0.5 of the difference between the average of the monthly Douglas-fir Region Index, as calculated by the Forest Service, or the Western Pine Association Lumber Price Index for the three previous months, and the following base indices: Douglas-fir 99.06 (B); ponderosa pine 62.67; sugar pine 105.59; white fir and other species 92.98 (A). Such adjustments in the price for stumpage shall be applicable to timber sealed during the three-month period following the quarter for which the adjustment is computed. In no event, however, shall the payment rates for each quarter be less than the base rates as stated above. When the adjusted rates by species are lower than base rates, the difference between the total dollar value of the timber cut at adjusted rates and at base rates will be recorded for each species. The stumpage rate for any species will not be increased above the base rate until the subsequent adjusted rates above the base rate for all species develop an accumulated total dollar value in excess of the recorded total accumulated difference for all species. Sealed bids will be publicly opened and posted at the office of the Forest Supervisor at 10:30 a.m. on September 17, 1962. All those who submitted a satisfactory sealed bid will be permitted immediately to continue auction bidding. A money order, bank draft, cashier's or certified check in the sum of \$2,000.00 must accompany each bid, to be applied to the purchase price, refunded or retained for application to any claim for damages according to the conditions of sale. If requested by the purchaser, contract terms will permit felling of timber in advance of payment up to the value of the performance bond. If an oral bid is declared to be high at the closing of the auction, the bidder must immediately confirm the oral bid by submitting it in writing on a Forest Service bid form. The right to reject any and all bids is reserved. Forest Service bid forms for use in submitting sealed bids and full information concerning the timber, the conditions of sale and the submission of bids should be obtained from the District Ranger, Butte Falls, Oregon, or the Forest Supervisor, Medford, Oregon, before bids are submitted.

Emeritus Consultant in Medicine
Mayo Clinic

1962

Professor Herbert Evans and his associates obtained from the pituitary glands (just under the brain), a "growth hormone" which, when injected into little dachshunds, caused them to grow into big hounds. Unfortunately, it was found recently that growth hormone made from the pituitary glands of CATTLE cannot be counted on to help boys — the substance is chemically so different.

Efforts now are being made by chemists to modify the bovine hormone so that it will work on boys, but so far only moderate success has been attained.

We would like to be giving to boys growth hormone of human or monkey origin, but it is very difficult to get permission from the relatives of many men and women to remove their pituitary glands right after death, and one human gland will supply only enough hormone for one day's treatment of a dwarfed boy. Hormone from monkeys also is hard to get because monkeys — most of which come from India — are expensive.

Doctors have tried giving thyroid hormone, but I now read that it cannot be counted on to help. Some physicians have tried male and female hormones, but the experts fear to use these drugs on youngsters. Especially when dealing with teenage girls, one does not want to get their monthly cycle all jumbled up.

Fortunately, many a short boy suddenly will shoot up after he is 15, and many a tall girl will stop growing — without any medicine.

What Causes Gas?
I am sorry that I cannot send a brief, logical answer to those hundreds of people who write asking me what is good for gas. It might be hard enough to help them if I knew exactly what was causing their tendency to flatulence. Some people develop flatulence early in life, and the cause is not always apparent.

In some cases it is definitely due to the eating of some one food to which the person is allergic. The best way I know of to find this food is to keep a record of the UNUSUAL foods eaten just before a bad attack of gas. Often, then, after the person has had four or five spells, a glance at the record will show that always before each spell some particular food was eaten. Then the person should leave that food alone, and if he or she is lucky, that is the end of the tendency to gas.

Many persons get very gassy when they are constipated, and they get immediate relief with a bowel movement obtained perhaps with an enema of warm water with a tablespoonful of salt in the bag. All of the water should be run in at one time and then allowed to run right out again. Many doctors say, "Never take an enema," but I don't know why they should say this. I have never been able to get a logical answer out of the men who say this, and in my long medical life I have never seen anyone who was injured by an enema.

Trouble With Gas
People with gallstones often have a good deal of trouble with gas, also people with a tendency to diarrhea often have gas. Any person whose gas doesn't seem to be due to the eating of any particular food would do well to have an x-ray study of the digestive tract including the gall-bladder. It would be well to have a study of the stools to make sure he hasn't any amebae or other parasites.
People who are having trouble with their heart or their liver sometimes have a good deal of gas.
Many people get much gas if they eat foods hard to digest such as salads, some vegetables and some fruits. When

PLANS CHOCOLATE CAKE
Moscow — UPI — A Moscow confectionery planned to bake a chocolate cake 18 inches across for the Soviet Union's two newest cosmonauts, according to Radio Moscow. A broadcast Thursday said chocolate space ships will circle a globe about the 18-inch base of the cake.

Cook's Favorite

9127
by Marian Martin
