

# Registration for New Rogue River Students Set This Week

Rogue River — All high school students and all new elementary students enrolling in the Rogue River schools will register for classes Wednesday through Friday.

First grade students are asked to enroll Wednesday and Thursday in the Primary Building. All first grade students must bring a birth certificate or other evidence of age showing that they are six years old, or will be, on or before Nov. 15. Board policy allows no exceptions to this state regulation.

First graders are also asked to bring a doctor's certificate of health at this time. Those who missed the pre-school roundup conducted earlier in the year by the PTA may obtain the necessary blanks at the Jackson County Health Department in the basement of the Court House in Medford, and have the examinations made by their personal physician.

Registration hours will be as follows:

Wednesday: 9 a.m. to 12 noon and 1 p.m. to 4 p.m.

Thursday: 1 p.m. to 5 p.m. and 6 p.m. to 9 p.m.

Friday: 9 a.m. to 12 noon only.

All other elementary students who did not attend in the Rogue River at the close of school are especially urged to register in the grade school office in the primary building.

All high school students who do not register at this time in the high school office will be signed for the classes which they selected in pre-registration held last spring.

Since state law forbids purchase of high school textbooks by the district, certain fees will be collected at the time of registration. These fees are not compulsory, but each provides certain privileges which cannot otherwise be granted the individual student.

A book rental fee of \$8 is for the entire year or any portion thereof, and provides the regular textbooks, not workbooks, which would probably cost from \$20 to \$25 per student, school officials said.

A \$1.75 towel fee applies to those taking physical education.

The \$4 student body card gives the student free admission to all home games, permits admission to away-from-home games for student rates, and provides free admission to the assembly programs financed by student body funds.

A \$10 fee is being charged for metal shop to cover the cost of oxygen, acetylene and metal.

The schedule for the start of school is as follows:

Thursday, August 30, all teachers report to the Cafeteria for an organization meeting at 10 a.m.

Friday, August 31, a work day for the teachers.

Tuesday, Sept. 4, classes will be held all day with the cafeteria and buses running on regular schedules.

# Talent Residents Urged To Attend Hearing Tuesday

Talent — Another public meeting concerning the Aug. 30 water improvement bond election in the city of Talent will be held tomorrow night.

The meeting, which all residents of Talent are urged to attend, will start at 8 p.m. in the Talent city hall.

At the Aug. 30 election, voters will be asked to authorize bonded indebtedness of up to \$185,000 to construct facilities to take water out of Wagner creek, purify it and deliver it to users.

The city's water supply at present comes entirely from wells. Because of the city's growth in population and increasing use of water by present users, these wells have become inadequate to meet the city's water needs, city officials state.

Present population of Talent is 941. If the city continues to grow at the rate it has grown from 1920 to 1960, it will have 1,200 people by 1980.

**Treatment Plant**

The water development project would include erection of a treatment plant, pipelines and other facilities.

Councilmen are considering several means of raising funds to pay back the bonds. These include a raise in water rates, a raise in taxes or a combination of both.

City officials urge residents to attend Tuesday night's hearing to indicate their feelings about the project and how it should be financed.

# Regional Roundup

by Cleve Twitchell  
Mail Tribune Regional Editor

The November election in Jackson and Josephine counties appears to be shaping up as a lively one, particularly in the realm of local issues. Fluoridation of drinking water, always a subject of heated argument, has already been put on the ballot in Medford and may make the ballot in Ashland if a group of petitioners can come up with enough signatures by Aug. 28.

Over in Grants Pass, another group of petitioners is busy working against the Aug. 28 deadline to get a proposal before the voters to create a People Utility District in Josephine county for the purpose of reducing electric rates. The proponents of the PUD have to get 408 valid signatures, but for them the job shouldn't be too difficult, because in order to get the PUD possibility to be studied by the state engineer last spring they had to circulate petitions and get at least 408 signatures. So they could, if necessary, go back and get those same 408 signatures all over again.

**A Freeway Takes Shape**

The drive from Medford to Grants Pass seems to be getting shorter every week. Almost every time we make a proposal before the voters to create a People's Utility trip we are amazed to see the progress that has been made on construction of the stretch between the Rock Point area and the Seven Oaks junction west of Central Point. Only two or three months ago that stretch was all two or three lane road. Now most of it has been widened to four lanes, resurfaced, and opened to traffic—without causing much delay to passing cars. We can only remember having to stop once because of the construction work.

**How Well Do You Take Care of Your Lawn?**

Have you ever wondered who in town takes good care of his lawn and who doesn't? There's nothing like a view from the air, provided you aren't too high, to answer that question. We flew in about Yreka the other day in a plane piloted by Warner Stewart, husband of one of our two Yreka correspondents, Dorothy Stewart. It was a bright, clear day and we could see rows of subdivision homes with tiny little plots of green in front and in back of most of them—kind of a cute sight.

The flight also included a sweep over part of the Shasta Valley, which is a fascinating area to view from the air with its vast expanse of fields forming a patchwork of green, gold and brown. The Stewarts inform us that when flying from Siskiyou county to southern California it is interesting to see how the terrain gradually gets browner as one flies south. Sacramento seems to form a border between two worlds, they say. North of Sacramento the ground has many green areas, while south of there it gets extremely dry and brown.

# Robert and Helen Bottel To Leave Illinois Valley

O'Brien — Robert Bottel, senior plant quarantine inspector at Redwood Highway Inspection station, has been promoted to assistant public information officer of the California State department of agriculture.

Inspector Bottel has been with the California State Bureau of Plant Quarantine for 26 years and a senior inspector at the Redwood station for 14 years.

Bottel will transfer to Sacramento in September to start the new assignment which consists of movie making, press releases, TV and radio publicity, magazine editing and writing and speech presentation.

The Bottel family will move from O'Brien and Illinois Valley where they have spent most of the last 24 years, leaving several times but always returning to the valley and the Redwood station.

In 1948, when Bottel received his discharge from the army they settled in this area. Dennis and Roger Bottel, the couple's two sons started the school here and graduated from Illinois Valley High school.

They will both attend Oregon State university in Corvallis this fall. Daughters Suzie and Kathy started school in O'Brien and at Evgreen school in Cave Junction and on to Kerby grade school. They will continue in Sacramento.

The Bottels have been active in PTA and most of the valley's social and civic groups. Bob is at present a member of the high school ad-

# Attorney General Candidate Coakley Speaks at Yreka

Yreka — Judge Tom Coakley, Republican candidate for California state attorney general, visited Yreka for a luncheon last week and gave his opponent, incumbent Stanley Mosk, a going over.

"I'm not actually charging him (Mosk) with being a subversive," Coakley said, "but he and the organization he has honored with his presence on good law enforcement and in the forefront of efforts to break down our traditions and values."

**Disagrees**

Coakley made it clear that he disagrees almost entirely with Mosk's philosophy. "It appears that Mr. Mosk wants not the job of attorney general but has his eye on the state Supreme court bench job," he said, adding that "the crime totals in California alone equal that of the combined states of New York, Pennsylvania and New Jersey."

The judge said he opposes capital punishment.

"It is only common sense that tells one that it is a deterrent to crime," and wants wire-tapping made a legal tool for law enforcement officers to use in tracking down narcotics users and purveyors.

In the field of stricter law enforcement on narcotics, he believes that there should be stiffer penalties for peddlers and pushers, with users taken off the street and put in jail until such time they can come back to a useful life.

**Attacks ACLU**

The candidate asked the public to take a good look at his record. He said that he is proud of the fact that he is "Daily Worker" in its California edition after his win in the primary election came out against him. He said the paper had frequently praised Mosk.

Coakley issued an attack upon the American Civil Liberties union and its efforts to challenge religious activity in public schools. He said he feared such efforts might eventually lead to the abolition of any mention of God in any public place.

Mosk, on the other hand, has been a strong backer of the ACLU. Coakley charged.

Coakley is a judge in the Mariposa County Superior court. He was accompanied to Yreka by his wife and one of his four children.

**Regional Calendar**

Talent — Tuesday, 8 p.m., public meeting on water improvement bond election, city hall.

Central Point — Thursday, 8 p.m., Junior chamber of commerce meets at Jaycee hall.
