SARAKA SOLVES THE PROBLEM OF "AFTER 45" IRREGULARITY

Doctor-approved bulk stimulant helps keep you comfortably on schedule as no ordinary laxative can!

As we grow older, our systems may often need outside aid to help maintain a normal regularity pattern. Continued use of strong drug laxatives can be irritating, even dangerous. That's why many doctors recommend SARAKA, the pure, all-vegetable bulk stimulant laxative for middle age and over. SARAKA supplies the moist, bland bulk that is so essential to healthy bowel function. And only SARAKA has a gentle stimulant action to help ease this bulk through your system plus Vitamin B₁.

Special note to weight watchers: Lack of sufficient bulk in 900 calorie liquids can lead to constipation. If this occurs, supplement your daily diet with all-vegetable SARAKA.

How to Be a Better Hunter on Opening Day

Don't sit around dreaming of your first shot—
now's the time to make sure it finds its mark!

By ERWIN A. BAUER

LAST FALL, Tom Mahaffey, usually the hard-luck sportsman of our town, had the greatest hunting season of his life. How did he fill his frozen-food locker with venison, pheasant, and fat mallards?

It was simple—he practiced. He conditioned himself with long hikes. He field-checked all his rifles at various ranges on stationary targets. When he couldn't use his regular weapons, he practiced with an air rifle, weighted down with strips of lead to give the "feel" of a heavier piece. He scouted likely game land and made friends with farmers by offering to shoot varmints in exchange for future hunting privileges—which, not incidentally, also sharpened his shooting eye.

These photos give you other ideas on how to be ready for the first bounding cottontail or covey of fluttering quail. All you need are clay pigeons (100 for \$2.50), a two-dollar hand trap, some balloons, an old automobile tire, and some tin cans and disks, and you'll bring home your limit this autumn. What's more, you'll find that hunting practice is fun in itself.

For deer or big-game quarry: roll on

For rabbit prey, try this: plink at balloons wind-blown across a field. Like cottontails, they move erratically.

For simulated flush and flight of birds, use clay pigeons thrown by hand trap (above). Hunter, left, scores.

Two simple exercises that can add years to your life

PUSH

This afternoon, get into your car and push your brake pedal. Have someone in your family make sure both your stop lights are working. If one is out, replace it tomorrow. You'll make it easier for the other driver—safer for yourself.

PULL

Then pull the light switch. Make sure all your headlamps (don't forget the upper beam) and your rear lights are working. And while you're at it, check your turn signals. These Push-Pull exercises will do you good—especially if you find a burnout. It's very possible you will—because one out of six cars needs a new bulb.

When you find a burnout, replace it with a dependable General Electric lamp. It's the brand most people prefer. Miniature Lamp Department, Nela Park, Cleveland 12, Ohio
