

In the Day's News

By FRANK JENKINS

The U.S. has declared a blockade of Cuba. Communist ships — and, presumably neutral ships — are plowing westward in the Atlantic. A U.S. fleet is plowing eastward through the Atlantic. It has orders to stop and/or turn back ships carrying offensive arms to Cuba.

Our defense officials in Washington say the blockade line will be extremely flexible. The plan is to spot ships by plane as soon as there is reason to suspect that they are heading for Cuba. If tracking indicates that Cuba is their destination, they will be intercepted at sea. First, they will be required to submit to search.

THE ORDER to stop will of course be transmitted by radio. If a ship refuses to stop, a shot will be fired across its bow. If it still fails to stop, our ships will be free to SINK IT if they can.

Presumably, they can if they try.

WHAT will happen when the ships meet? We'll have to wait and see. What will happen is on the knees of the gods.

WE HAVE declared a blockade of Cuba. What is a blockade? In recent centuries, a blockade has had to be established by FORCES ON THE SPOT. "Paper" blockades have not been respected. In other words, we can't just say THERE IS A BLOCKADE and expect foreign ships to turn around and go home.

We must be ready to SHOOT if the challenged ship fails to stop.

HOW ABOUT air cargoes? Well, it is questionable. The Russians weren't able to STOP US from supplying Berlin by air when they "blockaded" Berlin.

Our supply planes went through and the Russians didn't shoot.

ARE THERE efforts to mediate the crisis?

Well, the situation has been placed before the Security Council of United Nations.

There are 11 members of the Security Council. It will take seven votes to CENSURE Russia. Whether the seven votes can be mustered remains to be seen.

BUT — What the Security Council does isn't TOO important. WHATEVER it does, Russia will veto it. It will take seven votes to OVERRIDE the Russian veto.

It seems improbable that seven votes to override can be mustered.

Record Peacetime Appropriations Measures Signed

Washington — (UPI) — President Kennedy today signed the last two money bills passed by the 87th Congress, completing enactment of a record peacetime total of \$102,262,154,659 in appropriations.

The measures were among 11 signed into law by the President. This cleared his desk of legislation approved by the Congress before it left the capital.

The other measures included legislation cutting taxes immediately for all persons over 65 who have big retirement incomes.

Total funds voted by Congress to operate the government this year has been exceeded only twice before — both times during World War II.

Subject of Wrangles — The measures signed today provided \$5,487,029,500 for the Agriculture Department and \$5,069,134,000 for public works projects and the Atomic Energy Commission. Both were the subject of bitter wrangles in the hectic last days of Congress.

The public works bill included \$1,077,526,800 for the Army Corps of Engineers, \$394,203,600 for the Bureau of Reclamation, and \$400 million for acceleration of all types of public works under Kennedy's standby anti-recession program.

The tax relief, in effect, boosts to about \$6,000 the amount of retirement income a couple over 65 can receive without paying income taxes. For couples who receive all their retirement income from stock dividends, the tax cut-off point will be \$7,000 a year.

STAGES SIT-IN — New York — (UPI) — Zionist youths, protesting reputed German aid to missile development in Egypt, staged a "sit-in" demonstration Wednesday at the office of West Germany's observer to the United Nations. About a dozen members of the group, Brita Trumpeldor, took part in the sit-in.
