## Woman Treated For Injuries In Saturday Accident

Fog was considered a contributing factor in two vehicle accidents which occurred Friday, a mile west of Agate rd. on East Gregory rd. A pickup truck, driven by Marsden Paul Case, 18, of Little Butte Star route, box 85, Eagle Point, went into a ditch at a curve.

The truck was extensively damaged. A car and pickup truck collided at the intersection of Alta Vista rd. and Crater Lake highway Saturday morning, state police said.

Mrs. Donna Mae Keesler, 36, of Eagle Point, had stopped for a stop sign before entering Crater Lake highway, when her car was hit by a truck driven by Loyd Herbert Striplin, 48, of 54 Oak dr., Medford. Striplin told police he had passed a logging truck and in the fog thought Mrs. Keesler's car was in his lane of traffic.

Mrs. Keesler was being treated at Sacred Heart hospital for a cut over her left ear and for knee bruises. Striplin received bruises on both knees, but was not treated at the hospital, police said.

## Children May Find Difficulty When Moving to New Location

By DAVID NYDICK  
UPI Education Specialist  
The United States has been called a nation of transients. Perhaps this is an exaggeration. Nevertheless, relocations continue to occur. Moving presents an adjustment problem with which children may have difficulty. How can parents help their children cope with a new situation?

Caused by apprehension of the unknown. Although a new home has many unknowns, you can reduce the tension. Discuss your plans with your child. Help him understand why the move is taking place. Include his opinion in the choice of new homes. Take him with you on some of your house hunting trips. He then can become familiar with the new area. A trip to the new school and a chance to meet members of the school staff is very helpful. Every possible opportunity to meet people in the new neighborhood is valuable.

Once you have arrived in your new home, you and your child have passed the first hurdle. The next problem is a social one. How should your child make new friends? A few words of advice can both reassure and set him in the right direction.

Your child's first day in the new school is a big occasion. What is proper dress? A dress suit or party dress is not in order. Dungarees are not right either. Boys might wear a simple sport shirt and slacks, while girls might wear a skirt and blouse. The appropriate clothes are neat and conservative.

**First Impressions**  
What is a good approach to new friends? Your child should be neither aggressive nor timid. First impressions are lasting ones. A smile goes a long way. He shouldn't brag and shouldn't be afraid to ask questions. Your child should be willing to stay in the background for awhile. His abilities and talents will be recognized in due time.

New friends will be interested in his old home. Advise your child to tell about it, but not to keep on referring to it. Students are proud of their schools. Complimenting the new school may help begin friendships.

A new school and program may create some learning problems. If this occurs, the teacher should be consulted at an early date. She will be able to assist the child. She will be able to give him the extra help to understand the work he is expected to know. If the problem is extensive, a tutor may be valuable for a few weeks. Help should be sought.

**Pleasant Experience**  
A new home and school can be a pleasant experience for all. A parent's approach will help develop such an atmosphere. Discuss the situation with your child and help him recognize the way he can become a part of the new community. Children should learn the important aspects of social adjustment. Patience and time will soon make your child an old timer instead of a newcomer.
