Duncan Seeks Aid For 3 Counties

Robert Duncan, Democratic candidate for Congress, Fourth district, made a letter public today, with permission of the writer.

Steve Neal, Bandon, president of the Bandon Very Young Republicans, wrote candidate Duncan requesting campaign material to distribute.

Although young Steve labels himself a "Progressive Republican" he is distributing material on all candidates for whom he writes "I want the voters to make up their minds—informed."

Duncan sent a letter to President John F. Kennedy this week requesting that Josephine, Coos and Douglas counties be considered for aid under the emergency public works bill which has recently been passed by Congress.

In a speech at the candidates fair in Roseburg Wednesday night Duncan further explained his request. He stated that he asked that project considered be "ones that will not only furnish jobs immediately but ones that will contribute to the wealth and productive capacity of the area in years to come; ones that will produce jobs for years to come."

Supervisor W. A. Barr, who has been watching the whole project locally, stated he was most pleased with the results of the meeting, which was arranged by Assemblywoman Pauline Davis (D-2nd District).

Another meeting was set for Dec. 1 after the Supervisors heard details on the financing possibilities from legislative counsels and other particulars on the whole project from water resources officials present.

Warne is due to issue a report in the near future on his department's plans and asked that further dealings be put off until it is released.

Last Thursday night, the Associated Chambers of Commerce of Siskiyou county voted to give their full support to the county's application for a federal area redevelopment administration loan of approximately \$1 million to be used for the project.

The body of Margaret Rose Odehman, 43, Portland, was recovered from about three feet of water near the east bank of the river between the Burnside and Steel bridges. Deputy Coroner Ross Woodward said she had suffered injuries to her nose and head.

Harbor patrolmen said it was unlikely the woman had fallen or jumped from either of the two bridges because of river currents and the position of the body. It was estimated she had been dead between 8 and 12 hours when the body was recovered.

The children had been playing on the river bank when they spotted the woman's coat just beneath the surface.

Oregon Veterans' Foreclosure Rate Is Below Average

The Oregon veterans' farm and home loan program has a foreclosure rate of only 6.7 percent for every 1,000 loans, against a rate of 40 per 1,000 under the nationwide FHA program.

This comparison was made Saturday at a meeting in Medford of the advisory committee to the Oregon Department of Veterans' Affairs, by Edward Branchfield, Medford, chairman.

"Such a low record of foreclosures speaks highly of Oregon's veterans in meeting their home purchasing obligations," Branchfield said.

Attending the quarterly meeting, besides seven of the eight members of the advisory committee, were H. C. Saalfeld, Salem, state Director of Veterans' Affairs, members of his staff, officials of local veterans' organizations, and Elmer Donahoe, Medford, Jackson County service officer. The advisory committee, by law, counsels the state veterans' department director on matters of policy.

Bonds Authorized
The committee authorized Saalfeld to issue \$25 million in bonds to provide more funds for farm and home loans. Saalfeld indicated the bonds would be sold before the end of this year. He said issuance of the bonds would carry the loan program through March, 1964.

Samuel M. Bowe, Grants Pass, senior member of the committee in years of service, received a certificate of appreciation from the department and the advisory members for his aid to veterans.

Siskiyou National Forest Gets Grant

Yreka—A federal grant of nearly \$300,000 to be used for recreation in Siskiyou county national forests has been announced by President John F. Kennedy.

The announcement indicated that \$130,000 has been earmarked for use in the Klamath National Forest and \$150,000 in the Shasta-Trinity National Forest.

Since Siskiyou county has been designated a redevelopment area, it was eligible to receive funds under the newly accelerated public works program.

The money must be used in projects which will produce increased employment in the area.

There was no immediate indication of exactly what the money will be used for in Siskiyou county, however.
