Flight o' Time Medford and Jackson County History from the files of The Mail Tribune 10, 20, 30, 40 and 50 years ago.

10 YEARS AGO Oct. 30, 1952 (Thursday) Gerald T. Macomber, 29, today was back in Oregon State penitentiary from which he escaped Sept. 15.

20 YEARS AGO Oct. 30, 1942 (Friday) Building permits valued at \$33,025 issued in Medford during October; war priority regulations blamed for sharp decline from October, 1941.

30 YEARS AGO Oct. 30, 1932 (Sunday) Between 65 and 70 per cent of the eligible voters expected to cast ballots in 1932 general election; turnout of about 13,000 seen.

40 YEARS AGO Oct. 30, 1922 (Monday) Fire of undetermined origin causes \$8,000 damages to Liberty building in Medford.

50 YEARS AGO Oct. 30, 1912 (Wednesday) Oregon Gov. Oswald West endorsed Frank L. Touvelle's candidacy for election as Jackson county judge.

What's Your I.Q.? Nine or ten correct is superior; seven or eight is excellent; five or six is good.

- 1. What type of U.S. coins were withdrawn from circulation in 1933? 2. Which two countries fought the Punic Wars? 3. Is "gerrymander" a term used in boxing, naval warfare, politics or tennis?

BEYOND SALVAGE - Brest, France - (AP) - Shipping authorities said today a Panamanian cargo ship which ran aground near here over the weekend could not be salvaged.

As Simple As That

For some reason we do not comprehend, Daylight Savings Time, to be voted on a week from today, has not turned into the violent issue almost everyone expected it to.

WE HAVE a hunch that the DST measure may pass this time, for the simple reason that it is the only way in which Oregon can get time uniformity - not only uniformity with Washington and California, but uniformity within the state.

THE history of the situation is too well known to need repeating; suffice it to say that the combined reluctance of the people of Oregon as a whole to go for DST, and the desire of the metropolitan area for DST, caused the legislature to pass the ill-advised split time bill.

So now the issue is simply this: We vote for DST if we want uniform time; we vote against it if we are content with the present situation, or if we trust the legislature to straighten things out.

WE DON'T much care what time it is so long as it is the same time throughout the time zone, so we'll vote for DST. It's as simple as that. -E.A.

Infamous No. 24

Despite the fact that a certain percentage of the Mail Tribune's circulation is in the state of California, thus far we have not commented, except in passing, on the many candidates and issues to be decided by our California neighbors next Tuesday.

Proposition 24 would, in the words of the New York Times, ask "the voters of our fastest growing state to abrogate their own constitutional guarantees on the excuse that special powers are needed to fight the internal Communist menace."

THE MEASURE, ostensibly to strengthen anti-Communist activities in the state, is a long step backward to the star chamber, to the faceless accuser, to trial without jury and without appeal—all the things the U. S. Constitution was designed to thwart.

YET THERE is a danger that it might pass, unless enough voters are alerted to its dangers. With too many people the mere tag "anti-Communist" is enough to be convincing, no matter what it concerns or from whom it comes.

On Communications, Again

With the election only one week from today, there remain five more issues of the Mail Tribune in which political communications can be published. It appears that a restatement of policy regarding letters to the editor during this last week is needed.

More space than usual will be devoted to "Communications" this week, but we cannot promise to print all received at the last minute. -E.A.

"What? ... Huh? ... Oh!—heh, heh, heh ... Have fun, kids ..."

COMMUNICATIONS

Letters to the Editor must bear the name and address of the writer, although under certain circumstances the use of a pen name or initial for publication is permissible.

DST Issue To the Editor: It is only a few days until we are to go to vote for both state and congressional candidates as well as a number of measures on the state ballot.

Against No. 9 To the Editor: The members of the Metropolitan Civic Club of Eugene-Springfield, Oregon, at their Oct. 26, 1962 meeting, unanimously agreed to recommend to voters a "no" vote on Ballot Measure No. 9.

All Go Down and Vote To the Editor: Tuesday, November 6, all members of the House of Representatives will have to be re-elected if they are to continue on their jobs.

Dear Gripe To the Editor: But mainly to the people who dump garbage in the country!

Endorsement Meaningless To the Editor: Just recently by news release on television and in the press the Railroad Brotherhood's Legislative League of Oregon endorsed Hatfield's bid for reelection as governor.

Tax Base To the Editor: Your editorial of Oct. 19 and the pro arguments in the Voters' pamphlet both contend that the proposed changes in the constitutional tax limitation (Measure No. 7) will prevent taxing units from continuing the levy of unnecessary taxes.

A Man To the Editor: My hat is off to Carl Fisher, Republican candidate for Congress. In answer to some extremely pointed questions from our conservative group he took the following, uncompromising, beautifully conservative stand.

Conform With Us To the Editor: It has been stated several times in the editorials that our only alternative regarding time in Oregon is to conform with California and Washington and vote for Daylight time.

From Mrs. Fisher To the Editor: As time is running out and election day is almost here, I would like to share my thoughts with you and offer a word of thanks to several residents of Jackson county.

From Mrs. Fisher To the Editor: As time is running out and election day is almost here, I would like to share my thoughts with you and offer a word of thanks to several residents of Jackson county.

Khrushchev's Tongue-Lash Diplomacy Reached Height in 1960; Future Uneasy

By PHIL NEWSOM UPI Foreign News Analyst

At a Moscow diplomatic reception a little more than a year ago, First Deputy Anastas Mikoyan remarked that the Soviet Union's greatest secret weapon was Nikita Khrushchev's tongue.

peaceful coexistence, his call for immediate freedom for all colonial peoples and for immediate disarmament, he sought to picture himself as a champion of peace standing against Western aggressors.

Using Soviet missile and nuclear successes as his propaganda springboard, he sought at the same time to spread fear of Soviet power among small or wavering nations and the neutrals.

In 1960 he reached a peak. In that year, at the abortive summit conference in Paris, he tongue-lashed the President, separate peace with East Germany.

He demanded the resignation of United Nations Secretary General Dag Hammarskjold for policies frustrating to the Soviet Union in the Congo.

He declared Nationalist China a "corpse" which should be thrown out of the U.N.

More important to the present, in that year he had his emotional meeting with Fidel Castro at the United Nations and in that year declared:

"We consider that the Monroe Doctrine has outlived its time ... has died ..."

In July 1960 he warned that the Soviet Union would use rockets against the United States if this nation intervened militarily in Cuba.

He repeated the threat in April, 1961, when he said that weapons to the United Nations, America now faces the acute, and simply staggering, danger of having this plan put into operation through the Disarmament Bill enacted by Congress in September, 1961.

Mr. Fisher closed his letter by saying, "I do not side with the fuzzy thinkers who refuse to recognize the very serious threats this country faces. We are in a struggle for our existence against a tenacious, dangerous enemy."

Folks, it looks like we've got ourselves a MAN - one who knows what the score is, and who will fight to preserve our country, our sovereignty, and our Declaration of Independence. Let's not lose him. Let's get out to the polls Nov. 6 and vote for him.

L. C. Powell, 316 S.E. Eighth st., Grants Pass, Ore.

Robot Egg-Head To the Editor: Our political big-wigs seem really concerned with the apathetic reactions of the voting potential to problems of the day, reportedly at a minus 70 per cent.

Lacking brain capacity to come up with a possible reason, we can only suggest that all allowed candidates for public office have their names fed into our latest robot egg-head and let the thing decide the all-important issue that seems too much to us for ordinary humans to cope with.

Also, may we suggest, to have an egg-head or two of dry-ice in case the robot egg-head gets all hot and bothered when alleged candidates' qualifications are fed into it. Remembering the genius we wildly applaud today, is often the "fool" we ridiculed yesterday.

F. J. Clifford, Route 2, Box 200F, Central Point, Ore.

Endorsement Meaningless To the Editor: Just recently by news release on television and in the press the Railroad Brotherhood's Legislative League of Oregon endorsed Hatfield's bid for reelection as governor.

Something should be done about this! It only costs 50 cents to dump a load of garbage. And the dump is just as close to town as we are!

If I knew who was dumping on our property, I would be tempted to take a load from the slaughter house and dump it on their front lawn!

We were very unfortunate this year in the fact that our two deer were wormy. My husband took time off from work so he could take the meat to the city dump to be disposed of properly. Why can't other people have the same consideration?

Thank you for letting me air my gripe. Ella L. Fitzsimmons, Route 4, Box 400, Medford.

A Man To the Editor: My hat is off to Carl Fisher, Republican candidate for Congress. In answer to some extremely pointed questions from our conservative group he took the following, uncompromising, beautifully conservative stand.

"I firmly oppose the repeal of the Connally Amendment." (Repeal of this Amendment would repeal our Declaration of Independence, and surrender our sovereignty).

Answer to question No. 2 - "I have been, and intend to remain, firmly opposed to admission of Red China to the United Nations." (Admission of the murderous Red Chinese criminals to the UN would be stabbing Chiang Kai-shek and Nationalist China, and the entire free world in the back.)

Answer to question No. 3 - "I do not agree with the proposals to be found in the State Department Document 7277. I was, in fact, quite shocked that any thinking person could subscribe to such a theory."

God bless Carl Fisher for his stand on this red hot question which vitally concerns our survival as a sovereign nation. In its Document 7277 the State Department has set forth a plan for the gradual and complete disarmament of the United States and surrender of our Army, Navy, Air Force, and all our nuclear
