### Conference System Of Reporting in CP

Central Point — The parent-teacher conference system of reporting is being used for the first time at Jewett school this fall.

After a great deal of study and planning a completely new system of reporting to parents has been evolved. Report periods have been lengthened from six weeks to nine

### Pen Found Intact In Throat of Fish

Fort Madison, Ia. — "Although it's a 'fish story,'" this anecdote from George Schenck, a Bradenton, Fla., motor court operator, sounded good to a local pen manufacturer.

Lodged in the throat of a 13-pound black grouper he caught on a recent fishing trip, Schenck reported, was a Sheaffer fountain pen. When wiped off and uncapped, it proved to have a full supply of ink and wrote perfectly, he said.

weeks each. This allows for four reporting periods of nine weeks each during the school year.

At the end of the first nine week period and again at the end of the third nine week period, an individual conference is scheduled with the parents of each child.

Conferences are scheduled after school each day and last about 25 minutes each. About nine days are needed for teachers to complete conferences with all parents.

Conferences at Jewett school are being held on week days from Nov. 5 through 16.

### New Communications System Aids Police

New York — (UPI) — Because of a special communications setup, anybody telephoning Chicago police for help is answered within 10 seconds and a squad car often is at the scene in five to 10 minutes, compared with as much as 45 minutes in the past.

The system was described to a recent meeting of the American Institute of Electrical Engineers by C. M. McLaughlin, of the Illinois Bell Telephone company. He said some days as many as 8,000 calls are made through the special number, PO 5-1311.

The pocket gopher is named for its remarkable furlined pockets, one on each side of the head and neck and extending as far as the shoulders.
