Goldwater Suggests Stevenson Be Fired

State To Request Indictment in Officer's Death

Bullet Fragments Match With Pistol

Condon, Ore. — (UPI) — The state was to ask the grand jury here today to return a first degree murder indictment against Edward W. Sheckler in the slaying of a young Oregon state policeman.

Gilliam County Dist. Atty. Gale Powell announced Monday he would seek the murder indictment. He said bullet fragments taken from the body of rookie policeman Ralph Bates matched up with a .22 caliber pistol carried by Sheckler.

Sheckler, 27, Portland, has denied any involvement in the Bates killing. His record includes minor convictions and a state hospital commitment.

Reached for Gun
Bates, a native of Medford completing his probationary period at Arlington, was slain on Highway 30 near Arlington Thursday night. Sheckler was arrested near Condon a few hours later. He was booked on an assault charge after officers said he reached for a gun at the time of his arrest.

Sheckler, in recent days, has refused to talk either to his family or to his court-appointed attorney.

Powell said even though he was seeking an indictment against Sheckler, other possible suspects would still be questioned.

Guantanamo Stand Backed by Mikoyan

Miami, Fla. — (UPI) — Soviet trouble-shooter Anastas Mikoyan said Monday night Premier Fidel Castro's call for American evacuation of the Guantanamo Naval Base is part of "a program of peace for the Caribbean" which the Soviet Union supports.

In an address at the government-directed University of Havana, the Soviet first deputy premier praised Castro's so-called "five points," which include American withdrawal from the huge naval base in southeastern Cuba.

"The five points of Fidel Castro are a banner," he said.

"They are a program of peace for the Caribbean and the Soviet Union is supporting that program."

County Receives Check As Part of Racing Fee

Jackson county has received its portion of state racing fees, a check for \$10,500. The money goes to the 4-H and FFA fair.

The money represents the year's final remittance of racing funds and represents the county's share of all funds available from Aug. 1 through the end of the racing season.

The treasurer's office received a check for \$10,000 in August.

NEWS BRIEFS

ITEMS FROM AROUND THE GLOBE

CHINESE MASS ON 'ENTIRE INDIAN BORDER'
New Delhi — (UPI) — A government spokesman said today Chinese Communist armies are massed along "the entire frontier."

Home Minister Lal Bahadur Shastri told the upper house that the "preparations of the Chinese are along the entire frontier with India — the whole of this area is flooded with Chinese armies."

RED CROSS OFFICIALS HEAD FOR GUAM
Tokyo — (UPI) — American Red Cross officials headed for storm-battered Guam today to set up disaster relief headquarters on the tiny United States territory.

Six persons were killed when Typhoon Karen battered the island late Sunday and early Monday and hundreds were injured.

SPY SAID CAPTURED IN CUBA
Havana, Cuba — (UPI) — Premier Fidel Castro's government claimed today it captured a Cuban it described as the U. S. Central Intelligence Agency's "principal agent" in Cuba before he could sabotage the country's copper and nickel mining industry.

OFFICIAL GREETING — Prince Phillip of Great Britain is shown on arrival at San Francisco International Airport where he was greeted by Mayor George Christopher, right. The prince, who was greeted by about 300 persons, plans to be in the area for a week. His visit coincides with "London Week" in San Francisco. (UPI)

Stevenson Calls For Accuracy by Sen. Goldwater

United Nations, N.Y. — (UPI) — U.S. Ambassador Adlai E. Stevenson today rebuffed criticism of his disarmament stand by Sen. Barry Goldwater but said nothing about the Arizona Republican's demand for his ouster.

Goldwater, in a New York speech Monday night, called for the removal of Stevenson, Arthur Schlesinger Jr., Chester Bowles and Richard Goodwin from President Kennedy's administration.

Stevenson, in a letter to Goldwater today, said the senator did not quote him in full.

Saturn To Dump Water Into Space

Cape Canaveral, Fla. — (UPI) — The United States plans to dump 95 tons of water into space this week on the longest and most ambitious flight ever attempted by its new Saturn super rocket.

The shot, set for Friday, could set a U.S. space record. The water, if released at the proper moment, should form the highest and most expensive ice cloud in the history of man.

The previous record for carrying tap water into space, 85 miles, was set by another Saturn rocket April 25. Scientists are shooting for a manned cloud 104 miles up this time around.

There is no indication the Soviet Union has put that much water that high up in space. For that matter, there is no record of their having shot water anywhere with a rocket.

FAILURE NOTED

Salem — (UPI) — Sprague H. Carter, Oregon selective service director, said today that many young men fail to register for military duty within five days of their 18th birthday.

Vatican Orders Change in Mass

Vatican City — (UPI) — The Vatican today ordered the first change in the mass since the 7th century.

A communique issued after today's session of the Ecumenical council said the name of St. Joseph, spouse of the Virgin Mary, will be added to the canon — or heart — of the Latin rite mass.

The announcement said Pope John XXIII ordered the change to become effective on Dec. 8, feast of the Immaculate Conception of Mary.

Council experts said this will be the first change in the Latin rite canon in 13 centuries.

Meanwhile the council completed debate on the first of 70 subjects that may come before it and prepared to move on to its second topic.

Senator Names Three Others 'Who Should Go'

'Civilian Thinkers' Declared Wrong

New York — (UPI) — Sen. Barry Goldwater (R-Ariz.) bluntly suggested Monday night that President Kennedy fire UN Ambassador Adlai Stevenson and other "civilian thinkers" who he said have been wrong from start to finish in cold war recommendations.

In addition to Stevenson, Goldwater specifically named Chester Bowles, Arthur Schlesinger Jr. and Richard Goodwin.

Would Be Reassuring
"I suggest that it would be reassuring to the American people, now that President Kennedy has demonstrated the worth of a policy of action based on American strength, to rid his administration of those who have consistently urged a soft policy toward communism, both in Cuba and elsewhere throughout the world. The men responsible for convincing the President that he could withhold air support from the Cuban invasion can no longer serve any useful purpose in our government."

Bowles is the President's special adviser on Asian, African and Latin American affairs; Schlesinger is a special presidential assistant, and Goodwin is deputy assistant secretary of state for inter-American affairs.

Charges Guilt Complex
Goldwater, in addressing the Wings Club here, said Kennedy "should dispense with the advice of men who have developed a guilt complex over America's military superiority."

Goldwater, leader of the GOP's conservative wing, is a military jet pilot and a major general in the Air Force reserve.

At a news conference prior to the address, Goldwater explained that "this is no reflection on Stevenson's loyalty or patriotism. These people have shown their inability to understand the modern world."

Goldwater also set out verbally after "the civilian who yearns for the power he observes so fearfully in the hands of the military."

The senator said that only a few weeks ago there was disturbing talk about the military establishment growing so powerful that it constituted a threat which could be turned against this country.

"Our apprehensions and our worry should be directed at the civilian in our government who does not understand military problems but who seeks to 'command' at all times, in war as well as in peace," Goldwater said, adding:

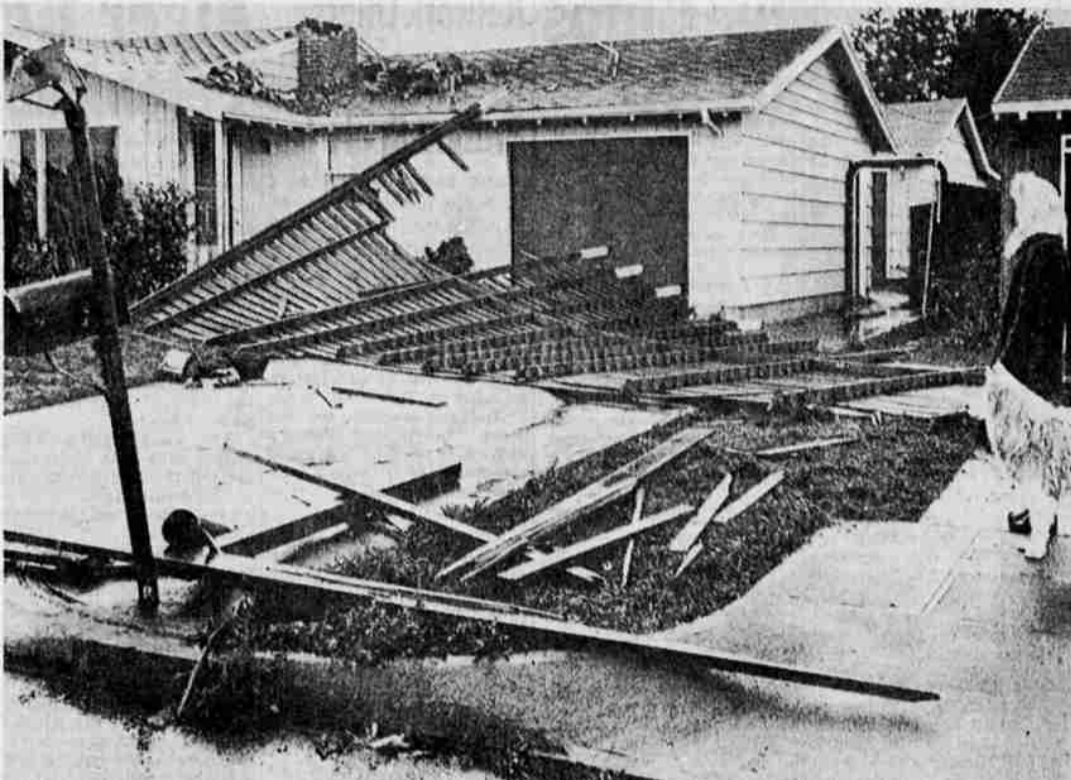

"I am more concerned over civilian meddlers who decide that an invasion of Cuba doesn't need air support than I am over military men who recommended use of enough strength to assure the success of our venture in the Bay of Pigs . . ."

"We are in far greater danger from the civilian theorist, with his punch-card answers to our pressing defense problems, than we are from the military man with his proven knowledge and concern for our American institutions."

Barton Lukewarm On Tax Election
Salem — (UPI) — A key figure in the upcoming 1963 legislative session today indicated he is lukewarm to the idea of a special statewide tax election during the session.

State Rep. Clarence Barton (D-Coquille), prospective new house speaker, said he looks upon such a proposal as "a last resort."

Gov. Mark Hatfield said last week he is considering the possibility of asking the 1963 session to call a tax election — to let the voters decide on tax changes that might be necessary to pay for the 1963-65 state budget.

STORM DAMAGE — Leaving a scene reminiscent of the Oct. 12 storm in Portland, a freak gust of wind Monday blew a patio roof from the backyard of this home, to the front yard, catching a chimney en route. The wind was part of a Pacific storm which brought wet weather to the area. (UPI)

Gale Warnings Fly Along Coast Following Squall

By United Press International
Gale warnings flew on the Washington coast again today after squalls hit Western Oregon Monday, disrupting a parade, and causing scattered power outages and minor damage.

The Monday rains and winds were part of a Pacific front that caused wet weather most of the day. It hit hardest around midday.

The weather threatened to break up Albany's 3 1/2 mile Veterans Day parade, but sunshine graced the festivities during the actual parade which was completed. A rain struck afterwards and people ran for cover.

Power Outages
Eugene clocked steady winds of 35 miles an hour with gusts to 48 miles. Scattered power outages were reported. One pole was toppled in Springfield.

In Portland, a freak gust lifted a trellis-like patio roof, swept it over a house, chipped the chimney, and dropped it in the front lawn.

There were scattered power outages in the Gresham area.

Butte Falls Posts Still Undecided

Butte Falls — The election of two members of the Butte Falls city council still is not settled. Two write-in vote winners have not yet made up their minds whether they will accept another term.

Elsa Abbott, Butte Falls' incumbent mayor, has agreed to serve another term, however. He did not run for reelection, but he received the most votes in a write-in contest.

There were no candidates for mayor on the Nov. 6 ballot and only four for the six openings on the city council.

The four candidates on the ballot, Charles Capello, Raymond Chambers, Donald Dillard and C. L. Stratton, were reelected. Two other incumbent councilmen whose names were not on the ballot, Bruce Pingle Sr. and Shirley Hatcher, received the highest totals of write-in votes, Pingle 21 and Hatcher 15.

Pingle and Hatcher are reported still undecided on whether to accept the positions. Next in line would be Bill Harris with 8 votes and three men tied with 7.

CHARGE DISMISSED

Portland — (UPI) — A first degree murder charge against Wesley M. Foughtly, 37, in connection with the January, 1961, slaying of a county health officer, was dismissed today.

WEATHER

FORECAST: Considerable high cloudiness and valley fog and a m.o.s.t. through Wednesday noon. Partial clearing Wednesday afternoon. Low tonight near 35. High Wednesday near 50.

Highest Yesterday — 52
Lowest This Morning — 31
Precip. to 10 a.m. Today — 0.2

Our Skies Tonight

Sunset today — 4:52 p.m.
Sunrise tomorrow — 7:01 a.m.
Moonrise tonight — 6:47 p.m.
Last Quarter — Nov. 18

U. S. Steps Up Demand For Removal of Planes

Washington — (UPI) — The United States began pressing more sharply today its demand that the Russians remove their IL28 bombers from Cuba to complete the Khrushchev-Kennedy withdrawal agreement.

There was a report that President Kennedy would refuse to give assurances against invasion of the Caribbean as long as the bombers remain in Cuba.

Forty-two Soviet rockets capable of striking U.S. targets have been taken out of Cuba but the bombers, which the administration considers "offensive weapons," still are available to the Fidel Castro regime.

No Change in Position
Acting White House Press Secretary Andrew Hatcher told newsmen today that there has been no change in the U.S. position that Russian offensive weapons must be removed from Cuba.

Asked if the arms quarantine of Cuba would continue indefinitely, Hatcher again said there had been no change in the U.S. position.

Hatcher said he had no information on a report that the International Red Cross has rejected a suggestion that it inspect shipping bound for Cuba.

The White House aide also said it still was doubtful that Kennedy would hold a news conference this week, particularly since West German Chancellor Konrad Adenauer will be meeting with the president.

Freeway Section May Open Nov. 21

Work on the freeway from the Seven Oaks interchange to the Crater Lake highway interchange virtually is completed with the tentative opening date set for Nov. 21, according to Oregon highway department officials.

The construction work is in the clean up stages and the opening will depend on placing directional signs. Opening the section had tentatively been set for Nov. 15.

The section between Barnett rd. and Crater Lake highway still is under full construction and the tentative opening date for that section is Dec. 20, the department said.

By late fall next year it is expected that the 7.14-mile bypass route near Ashland will be completed. Two interchanges will be constructed, the northerly one to be a part of the adjoining section now under paving contract to south Medford.

82 Per Cent of Goal Reached by Crusade

Eighty-two per cent of the goal of the United Crusade of Jackson county has been pledged or collected, according to Crusade Chairman Robert Heffernan.

A total of \$137,495 of the Crusade's \$167,683 goal had been reported at the noon luncheon meeting of Crusade workers yesterday.

Two special events are planned this week with proceeds going to the United Crusade. They are a dance sponsored by the local Arthur Murray Dance Studio tonight, and proceeds from dinners served at North's Chuck Waggon tomorrow night.

COMMITTEE TO MEET

Salem — (UPI) — The Oregon Inter-agency Committee on Migration Labor will meet here Wednesday. One item to be discussed is a bill to extend the committee's existence to 1967.

Rogue Basin Group Directors Clarify Position on Letter

The board of directors of the Rogue Basin Flood Control and Water Resources association last night clarified its position on use of a thank-you letter to Sen. Wayne Morse (D-Ore.) in a recent political advertisement.

The directors voted unanimously to send letters to all organizations represented in the association informing them:

1. The letter used by the Morse supporters was authorized by the directors.

2. That the senator's services in getting the basin project bill passed were "extensive and effective."

3. The names of all the association's member organizations were on the letterhead.

4. It is hoped that all differences which existed now are settled and the association can work toward obtaining the \$100,000 in planning money for the project in January and construction funds in 1964.

12 City Officials To Attend Event

A delegation of 12 city employees and elected officials from Medford will attend the 37th annual meeting of the League of Oregon cities in Portland Nov. 14-16.

Included in the group from Medford are Mayor-elect Jimmy Dunlevy, Councilman-elect Richard Travis and Councilmen William Singler, Robert Bacaus and R. L. Van Sickle.

City officials attending the meeting include City Manager Robert Duff, Police Chief Charles Champlin, Fire Chief Gordon Barker, Purchasing Agent Norman Croy, Building Safety Director O. R. McNeel, Municipal Judge Joseph Fliegel Jr., and Parks and Recreation Director Robert Harworth.

The three-day work session will feature a special orientation program dealing with the responsibilities of elected officials and basic functions of city government.

Principal speakers at the meeting include Congressman-elect Robert Duncan, Seattle Mayor Gordon S. Clinton, and Dr. Roy Lieuallen, chancellor of the Oregon State system of higher education.

A total of 800 mayors, councilmen and other city officials are expected to attend the meeting, according to League President Terry Schrank.

Federal Budget Said \$7 Billion in Red

Washington — (UPI) — A new review of the federal budget shows it is running more than \$7 billion in the red, informed sources said today.

This would be the second largest peacetime budget deficit on record. The largest, \$12.4 billion, was posted in fiscal 1959 under former President Eisenhower.

Cuba Continues To Be Problem, Kennedy Says

Albany, Ore. — (UPI) — Atty. Gen. Robert F. Kennedy described Cuba as a continuing problem in a telephone address delivered here Monday night to more than 600 guests at a Veterans Day banquet.

He said the administration intends to see that Russia's agreement for removal of offensive weapons from Cuba is carried out.

"Our efforts to require the withdrawal of offensive weapons from Cuba appear to be succeeding," he said.

Kennedy's telephone speech from Washington, D.C., was broadcast over loudspeakers to the gathering after he was forced at the last minute to cancel his planned trip to Oregon. The banquet marked the end of Albany's three-day Veterans Day celebration, one of the nation's largest.

Kennedy said although Russia is removing missiles from Cuba, "obviously this doesn't mean that we can relax our vigilance. We intend to see that the agreement for removal of the weapons is carried out."

"Even so, Cuba will continue to be a problem," the President's brother said.

"The President's success in Cuba, demonstrating a firm readiness to use our strength, illustrates the importance of our military buildup," Kennedy said. "It also shows how initiative, imagination and patience can resolve a difficult situation without actual fighting."

Bombers Remain Available To Cuban Premier

Washington — (UPI) — The United States began pressing more sharply today its demand that the Russians remove their IL28 bombers from Cuba to complete the Khrushchev-Kennedy withdrawal agreement.

There was a report that President Kennedy would refuse to give assurances against invasion of the Caribbean as long as the bombers remain in Cuba.

Forty-two Soviet rockets capable of striking U.S. targets have been taken out of Cuba but the bombers, which the administration considers "offensive weapons," still are available to the Fidel Castro regime.

Asked if the arms quarantine of Cuba would continue indefinitely, Hatcher again said there had been no change in the U.S. position.

Hatcher said he had no information on a report that the International Red Cross has rejected a suggestion that it inspect shipping bound for Cuba.

The White House aide also said it still was doubtful that Kennedy would hold a news conference this week, particularly since West German Chancellor Konrad Adenauer will be meeting with the president.

Suit Against City Continues Today

Frank Kanehl, sub-contractor for Heintz construction company, testified this morning in the Jackson county circuit court jury trial in which the Portland company is suing the city of Medford.

The company is seeking \$94,462.74 plus 6 per cent interest for money they claim is due them for a sanitary sewer the company installed in the Kenwood-Grandview and north Laurelhurst area in 1959.

Kanehl said he was not able to schedule the job as anticipated because of changes made in the sewer installation plans by the city.

Kanehl also outlined parts of the project on a map and explained the difference between a gravity flow sewer system and one requiring pumping stations.

Approximately 80 per cent of the original sewer construction plans were changed, he said.

Jack Budd, Heintz construction company general superintendent, is expected to testify later today. The trial entered its fifth day today.

82 Per Cent of Goal Reached by Crusade

Eighty-two per cent of the goal of the United Crusade of Jackson county has been pledged or collected, according to Crusade Chairman Robert Heffernan.

A total of \$137,495 of the Crusade's \$167,683 goal had been reported at the noon luncheon meeting of Crusade workers yesterday.

COMMITTEE TO MEET

Salem — (UPI) — The Oregon Inter-agency Committee on Migration Labor will meet here Wednesday. One item to be discussed is a bill to extend the committee's existence to 1967.

By late fall next year it is expected that the 7.14-mile bypass route near Ashland will be completed. Two interchanges will be constructed, the northerly one to be a part of the adjoining section now under paving contract to south Medford.

The section between Barnett rd. and Crater Lake highway still is under full construction and the tentative opening date for that section is Dec. 20, the department said.
