Board Reviews Trip To East; Plans One To California Soon

The Medford school board last night reviewed its visitation trip to schools in the east and mid-west and reviewed plans for visiting schools in the bay area Dec. 2 through 8.

The trips are being made under a Ford Foundation grant from the Fund for the Advancement of Education. The grant, totalling $3.5 million, was given to the state to develop a plan to improve education in a project in which the state department of education, colleges and universities and public school districts are cooperating.

Board members and administrators returned earlier this month after visiting schools in Kansas, Massachusetts and Connecticut. Administrators and school personnel also visited schools in the Chicago area.

To Leave Dec. 2

The second visitation group will leave Medford Dec. 2 and spend a week in the San Francisco area visiting schools, most of them high schools.

Findings of the trip may be considered for adoption in the Medford district, although the district is under no obligation to do so, school officials pointed out.

The board last night authorized Chairman Keith Hockersmith to sign a petition requesting that district property, along with adjoining property, on Murphy rd. be annexed into the city.

James Rodgers, housing developer, asked the board for its approval of the annexation request since he plans to develop property in the area. He pointed out that he will not develop the area unless city sewer service is available because the land in that area is not suitable for septic tanks.

The board also authorized the chairman's signature on a petition requesting extension of sewer service into an area in the Jefferson school vicinity. The district owns half the land adjoining the street where the sewer line will be located.

Elliott Becken, assistant superintendent, reviewed Education-Business Day, noting that it was the best experienced so far The program of local business and professional men visiting schools is about four years old. Teachers from the district previously visiting local businesses and industries on Business-Education Day.

Guam Plywood Order Completed

Eugene – (UPI) – Delivery of an emergency order of two million square feet of plywood for the typhoon-stricken island of Guam was completed Tuesday, U.S. Plywood announced here.

Harry Ryback, manager of the West Coast purchasing division, said it may be the largest single order ever assembled in less than three days.

The order was received Saturday night. The plywood was drawn from five U.S. Plywood mills in Oregon and Northern California. Special arrangements were made with six other mills to round out the order.
