

Talks To Break Newspaper Strike Deadlock Resume

New York — (AP) — Striking printers and newspaper publishers today resume negotiations aimed at breaking the contract deadlock which closed nine big New York dailies nearly two weeks ago.

But prospects appeared dim for settling the strike quickly, despite marathon bargaining sessions and the efforts of federal mediators. Secretary of Labor W. Willard Wirtz has said it might go on all winter.

After joint talks broke off on Wednesday, Stephen I. Schlossberg of the Federal Mediation and Conciliation Service said the two sides are "very far apart."

Representatives for Local 6 of the International Typographical Union and the New York Publishers Association, the management group, met separately following the face-to-face talks in the morning.

The printers called the strike Dec. 18 against four of the nine papers involved. By prior agreement, the five others also closed down.

Bertram A. Powers, president of Local 6, said he would send his men back to work on five newspapers "with no strings attached while negotiations continue."

Offer Refused

Powers said the publishers refused the offer.

The newspapers, which have a combined circulation of 5.7 million, have said they could survive a long strike but not the union demands.

The association has offered the printers a boost of \$9.20 weekly in wages and fring benefits to be spread over two years. The union wants a wage-benefit package estimated at \$38.

Pushinka Stays At White House

Washington (AP) — Caroline Kennedy's fluffy white mongrel, Pushinka, seems destined to spend a lonely Christmas at the White House, probably under a veterinarian's orders.

Pushinka was left behind last week when Mrs. Jacqueline Kennedy, Caroline and John Jr. flew to Palm Beach, Fla., for the holidays. It was taken as another indication that Pushinka was expecting and was advised not to make the trip.

The White House has confirmed the possibility that Pushinka, a gift from Soviet Premier Nikita Khrushchev, may be pregnant. After showing signs of motherhood, she was sent to Walter Reed Army hospital for a check up. No results of that examination have been disclosed.

If Pushinka does become a mother, it should take place early next year. The father would appear to be Charlie, Caroline's Welsh terrier. Both share the same kennel at the White House.

Pushinka is the daughter of Streika, the first Russian dog to orbit the earth.

Driving Student Denied Insurance

Stockport, England — (AP) — Miss Margaret Hunter, 65, the driving student whose errors behind the wheel of an automobile have become legend, complained today she cannot get insurance.

Miss Hunter, a Stockport school-teacher, hit the headlines 10 weeks ago, when her terrified driving instructor jumped out of her car shouting, "I've had enough!"

Two days later she pulled out of an alley into the path of a truck. Her car was almost destroyed.

She borrowed a car two weeks later and took her driving test. The inspector flunked her for seven false starts, running a red light, and parking three feet away from the curb.

Miss Hunter said today her wrecked car has been repaired, but her former company has refused to insure her.

"It makes me angry," she said. "I expected to get in some intensive practice and take my test again within a few days."

Arrestment Again Delayed at Klamath

Klamath Falls — (AP) — Arrestment of Jerry Richard Haines, 24, on a first degree murder charge was continued again Wednesday in district court here.

Haines asked the court to appoint an attorney to defend him. No date was set for his next appearance.

Haines is accused of shooting his ex-girlfriend, Christine, at their home here Monday. He was arrested Tuesday, but asked for time to arrange for an attorney.
