

# Fidel Castro Urges Latin Americans To 'Hurl Masses Into Combat'

## Jury Indicts Four Over Enrollment of Meredith

Oxford, Miss.—UPI—A federal grand jury Tuesday night indicted four men on charges of obstructing the enrollment of Negro James H. Meredith at the University of Mississippi. The men, arrested during the 14 hours of bloody rioting

that followed Meredith's admission to the campus last Sept. 30, were from out of state.

They were listed as Melvin Bruce of Decatur, Ga., and Phillip Lloyd Myles, Richard H. Hinton and Kline Lamar May, all of the Mobile, Ala., area.

All four were included in each of two indictments. The first indictment, a felony carrying a maximum penalty of a \$5,000 fine or three years imprisonment or both, charged the men with willfully interfering with U.S. deputy marshals in the performance of their duties. The second indictment accused the men of trying to prevent the marshals from carrying out a court order, a misdemeanor punishable with a \$1,000 fine and one year imprisonment or both.

Bruce had a high-powered rifle when marshals arrested him on the campus. During the rioting a sniper armed with a rifle shot at marshals surrounding the university administration building.

U.S. Attorney H. M. Ray said the indictments were included in an interim report by the grand jury, composed of 14 men and two women, which began its session early last week.

A final report is not expected until next week. The jury decided not to indict two other persons in the case but authorities would not say whether one of those was former Maj. Gen. Edwin A. Walker, who faced a variety of charges, including rebellion. Federal authorities arrested 11 persons during the rioting that claimed two lives.

## Bearded Leader Says Cuban Crisis Not Yet Ended

Miami—UPI—Cuban Prime Minister Fidel Castro fell into step with Red China's hard line today and urged revolutionaries throughout Latin America to "hurl the masses into combat."

"That is the duty of revolutionary leaders . . ." he said. "That is what they did in Algeria and what the Communist patriots are doing in South Viet Nam . . . That is what we did too."

The bearded Cuban leader, in a speech broadcast by Havana radio, said that as far as he is concerned the Caribbean crisis has not ended.

Although Castro did not name the Soviet Union or Premier Nikita S. Khrushchev, he assailed unidentified "critics" in a way that described Moscow and its policy of "peaceful coexistence."

Attacks Theoreticians In particular, Castro assailed "false interpretations of history."

"Some Johnny-come-lately theoreticians have said that in Cuba there was a peaceful changeover from capitalism to socialism," he said. "If there had not been an armed fight by our people, we still would have seen (ex-President Fulbright) 'Made in the U.S.A.' Batsia with us."

Castro lashed out at persons who criticized the ORI—his "poliburo"—for his refusal to live up to Khrushchev's promise to allow inspectors to verify the withdrawal of Soviet offensive weapons from Cuba.

"There was no lack of isolated voices of criticism against the national leadership of the ORI on Cuba's attitude toward territorial inspection and the pirate U.S. inspection flights," he said.

Never Submit "For them apparently we should have allowed ourselves to be inspected in order to consecrate the right of the imperialists to declare what arms we can or cannot have . . . We shall never accept those demands . . ."

"Those who cast doubt on the correctness of the leadership of the Cuban revolution are making a mistake . . . Those who foment division are committing a lamentable treason."

Castro's speech contained the customary denunciations of President Kennedy and the United States, which he described as "the most aggressive nation in the world."

"For us, the Caribbean crisis has not been resolved . . ." he said. "A war was avoided but the peace was not won."

## Legislators Briefed at Orientation Conclave

Salem—UPI—A legislature's "image" was a topic of serious concern here Tuesday at an all-day orientation conference for the 1963 Oregon assembly. Old and new lawmakers were briefed on the intricacies of the legislative process . . . and on the difficulties of communicating them to the people back home.

The lawmakers were told the "image" problem will be particularly difficult this session because Oregon faces two unpopular alternatives — an increase in taxes or a cut in services.

The panelists also noted that newspapers and television and radio stations are limited by time and space in publicizing the views and activities of each of the 90 legislators.

The legislators were advised of ways to facilitate news coverage. They included issuing press releases, contacting members of the legislative press corps, and keeping in touch with newspapers and radio and television stations in the lawmakers' own district.

As one sample of an unfortunate image, a panelist cited the case of a highly

qualified legislator some years ago who drew sudden unwanted publicity over a whim — a bill to ban popcorn in movies.

Portland newsman Tom McCall said legislators could face unwarranted criticism over raising their own salaries and increasing taxes at the same session. He said the public must be made to understand that Oregon's legislative pay now ranks near the bottom nationally, and that the voters okayed a change.

Two non-injury vehicle accidents in the city were investigated by Medford police Tuesday.

Gerald Heriford, 33, of 1696 Minear rd., was cited for failure to yield the right of way after the vehicle he was driving collided with a car operated by Steven James Wyatt, 18, Jacksonville, about 11:54 a.m. at Fourth and First.

City police also checked a two-car collision about 2:45 p.m. at Sixth and Bartlett sts. Drivers involved in the accident were Billy Max Dean, 33, of 909 Beatty st., and Leslie Eugene Boss, 19, of 543 King st. No citation was issued, officers said.

## Common Market Nations Support Bid by Britain

Brussels—UPI—Britain gained support today from Common Market nations in its attempt to enter the European community over French opposition.

There were definite signs of cracks in the front which the French have managed to maintain so far in the 15-month-old negotiations on Britain's application for Common Market membership.

The split was centered on the feeling that Europe will survive French President Charles de Gaulle.

Many European diplomats made it clear they felt De Gaulle was out of step in stating at a news conference Monday that Britain must enter the trade group without any special considerations. Newspapers in Britain and on the Continent also disagreed with De Gaulle's objections.

Negotiators from the six market countries and Britain continued talks on tariffs for specific products today, while behind-the-scenes efforts were made to get France to ease its stand on Britain's application.

The negotiators agreed to tackle the tariff problem and defer until Thursday talks on the controversial question of British agricultural subsidies.

Representatives of West Germany, Belgium, The Netherlands and Italy expressed support for the British position. Luxembourg also was believed to take the same view against De Gaulle's stand.

Britain has been seeking means to protect its farmers and Commonwealth trade in the event it should join the European market.

## Concerts Slated By Local Band

The Medford High school orchestra will leave here Thursday for a two-day tour, which will include a concert at Madison High school in Portland and a concert at the University of Oregon.

The 75-piece orchestra includes eight string players from the Hedrick Junior High school orchestra and five from the McLoughlin Junior high school orchestra.

John Drysdale, director, said the orchestra would play at Madison High school Thursday evening. The following day a concert will be presented at Erb Memorial Student Union ball room on the University of Oregon campus at 4:30 p.m.

The concert is being given on the campus in response to the invitation of the school of music which is holding its 12th annual conference on music education. The concert is to be presented in connection with the conference program.

Drysdale said the students would be housed in Portland Thursday night by members of the Medison High school orchestra and will return to Medford Friday night.

## Leaders of House Split on Merger of Education Boards

Salem—UPI—The party leaders of the Oregon House split Tuesday night on Gov. Mark Hatfield's proposal to merge the boards of education and higher education.

Resistance to the idea came from House Majority Leader Richard Eymann (D-Marcloca). Eymann said he had "some doubts" about combining the two boards into a single agency.

House Minority Leader F. F. Montgomery (R - Eugene) took an opposite view. He said he was "delighted" with the proposal and termed it a "step in the right direction."

Montgomery took issue with William Walsh, president of the Board of Higher Education, who opposed a merger. Montgomery said Walsh "probably feels higher education is doing a better job than public education."

He said Superintendent of Public Instruction Leon Minear may feel the same way. "I don't think we can, at the risk of the education of our youngsters and the tremendous sums of money that are necessary, do an adequate job" while a "competitive atmosphere exists," Montgomery said.
