Pear orchardists here and in Washington received aid from the Oregon State Grange as a result of a letter written by Allen P. Wheeler, State Master, to S. Kent Christensen...

The cold, frosty nights, with the frozen ground, are working a hardship on the song birds, especially the meadow larks, Oregon's State bird.

California, Washington Taxes Higher

The following from a Californian, seems to let the cat out of the bag as to taxes: "You lucky people who live in Oregon, you are fortunate you don't live in Washington or California, where they really have high taxes..."

Mr. and Mrs. C. W. Duggan of Sams Valley were among the grangers who left Wednesday on the Pan-Am Jet for Hawaii for a week's vacation and sight seeing in Aloha Land.

Miss Barbara Wheeler, journalism student at Crater high, tells us she checked out last week's Tablets and found some mistakes, so we will have to be careful in the future.

The story about the young man about to marry his sister brings to mind a similar case here in Jackson County. When the young man was told the facts as to why he couldn't marry his sweetheart, he left the country and never returned until the death of his father many years later.

The Smiling Dummy

We wonder sometimes if our eyes are playing tricks on us. One day during the Christmas rush in Medford we were passing the J. C. Penney store and noticed several nice-looking dummies (we mean the stationary ones) wearing ladies' clothes. As we passed one, we were positive it smiled at us. We went on, but looked back and saw two fellows come along and stop. When they saw this smiling dummy, one tipped his hat, saying, "We have seen an elephant do the twist in the Shriners' circus, and a smiling dummy in J. C. Penney's store."

VISIT FIRE STATION—Don Milligan, assistant fire chief of Central Point, shows equipment to members of Cub Scouts Den 9.

Assistant Fire Chief Explains Equipment To Central Point Scouts

Central Point - Den 9 Cub Scouts of Central Point with their den mother, Mrs. Kenneth Brown, visited the Central Point fire department on a recent field trip.

Don Milligan, assistant fire chief, conducted the tour, explaining to the boys as they toured the various departments the necessity of the three fire trucks as well as the important role the rescue unit has played in the service to the city, and why all the equipment must be kept in good condition at all times.

The rescue unit is equipped with two scuba diving outfits, a 1500 power generator, stretcher, Scott air pack, inhalator, aspirator, first aid equipment, cutting supplies, porta-power hydraulic unit, chemical fire extinguishers, grappling hook, two way radio, portable spot lights, salvage covers and miscellaneous hand tools.

The Resuscitator, explained Milligan, is the most useful and valuable instrument of the entire unit. In fact, it actually is an iron lung, he said.

All Prospect Area Residents Urged To Attend Jan. 24 Meet

Prospect—The annual meeting of the Prospect Community club, which had been scheduled for Thursday, Jan. 24, the purpose of the meeting is to elect new officers and to talk over business.

Only 10 persons showed up for the Jan. 10 meeting, noted club officials, who urged every resident of Prospect to attend next Thursday night. The club is a community affair, it was pointed out, and every resident is a "member" whether he knows it or not.

"What would Prospect do for a meeting place if we didn't have the community hall?" commented one member. "We couldn't hold get-togethers in the churches or school, and certainly not in the stores."

Work has begun, it was noted, on the access road to the place where the new water filtration plant will be constructed.

Announcement was made of the beginning of the fire school to be held at the city building, Tuesday, Jan. 22, at 7 p.m. The next session will be Wednesday, Jan. 30. The following sessions will alternate on Tuesdays and Wednesdays.
