A Surprise Birdseed Garden

By Evelyn Pickering

This sort of birdseed garden is definitely not for the birds!

Place a medium-size sponge in a saucer and fill with water. Sprinkle birdseed on top of the sponge. Set the saucer in a warm sunny place, remembering to keep it well-watered. After several days, tiny green plants will pop up all over the sponge. You will be surprised at the number of different kinds of plants that sprout. This is because bird food contains a variety of seeds.

Enjoy this tiny garden yourself or maybe give it to a friend who's sick in bed and will have fun watching it grow.

SARAKA SOLVES THE PROBLEM OF "AFTER 45" IRREGULARITY

Doctor-approved bulk stimulant helps keep you comfortably on schedule as no ordinary laxative can!

As we grow older, our systems may often need outside aid to help maintain a normal regularity pattern. Continued use of strong drug laxatives can be irritating, even dangerous. That's why many doctors recommend SARAKA, the pure, all-vegetable bulk stimulant laxative for middle age and over. SARAKA supplies the moist, bland bulk that is so essential to healthy bowel function. And only SARAKA has a gentle stimulant action to help ease this bulk through your system plus Vitamin B₁.

Special note to weight watchers: Lack of sufficient bulk in 900 calorie liquids can lead to constipation. If this occurs, supplement your daily diet with all-vegetable SARAKA.
