

Brazil Furnishes Universal Theme

By JOSEPH E. BRANT
Sao Paulo, Brazil—(UPI)—British writer Richard Llewellyn, author of "How Green Is My Valley," chose Brazil to illustrate a book he is now writing because of the "elements of primitive Christianity" here.

The book's title will be "Sweet Morn of Judas' Day." It's theme: "The sheer affliction of being a human being without the possibility of faith, either in one's self, one's work, one's social order, in politics or in God."

"This," Llewellyn said, "leads to a passive infatuation which shows itself in aggressive conduct in the family and outside, as well as in drunkenness, drugs or womanizing."

In the past 12 years Llewellyn (pronounced Loolyn) has written 11 novels and four plays.

The theme for "Sweet Morn of Judas' Day" is a universal one, he said.

"Brazil is a universal country," he said. "You have everything here, and everything is at the beginning. More than in any other Latin American country."

Judas' Day to the primitive Christian was the day after Judas Iscariot hanged himself, when all misfortune, all the black horror of existence, the mistakes, the negative idiocies, filled the air and made day unbearable. Every man went to his own house and shut the door."

Llewellyn said he hopes to finish the book by the end of this year. It will be published by Doubleday.

Aero Kinetic Lift Now Being Developed

Bryan, Tex. (UPI)—A new aerial crane called the aero kinetic lift is being developed by Astro Kinetics corp. here. The model uses a 6-cylinder outboard engine to draw air from the atmosphere with a centrifugal impeller and expel it over an umbrella-shaped canopy.

Theory is this reduces air pressure and makes the crane rise. It is intended to lift loads of 50 tons with an umbrella 100 feet in diameter. But it hasn't flown yet.

Specialists Claim Slurps Necessary

Washington (UPI)—Etiquette experts may frown on those who slurp their coffee, but in the U. S. department of agriculture, coffee slurping is encouraged.

Specialists in the fruit and vegetable division of the agricultural marketing service say there's no better way to really taste coffee. And since it's the taste that determines the quality rating, the slurps are necessary.
