

Placement Tests For Peace Corps Scheduled at MHS

Peace Corps placement tests will be given in room 13 of Medford High school on South Oakdale ave. Saturday, Jan. 26, at 8:30 a.m.

More than 20 applications for the examination had been received at the Medford post office Thursday, indicating that at least that many candidates would be taking the tests.

Persons who take the tests will be considered for new Peace Corps projects in Latin America, Africa, the Far East and in the Near East and South Asia.

Anyone in the Medford area interested in taking the tests is advised to contact Leonard Nelson, Civil Service Examiner in charge, at the Medford post office.

Conducted at Centers
The tests will be conducted at 823 civil service commission testing centers through-

out the nation, which doubles the testing facilities previously used, according to Douglas Kiker, chief of the public information service.

Most of the jobs to be filled at this time fall into the major fields of education, agriculture, health, construction and community development.

Applicants must be American citizens who are at least 18 years old. There is no upper age limit. Married couples without dependent children may apply providing both qualify for Peace Corps service.

Interested persons who have not previously filled out a Peace Corps questionnaire may take the tests on a space-available basis and complete the questionnaire after the tests.

Two Types of Tests
Two types of placement tests will be given. One is for men and women who would like to teach in the Peace Corps at the secondary school and college levels. For this, a bachelor's degree is usually required, although the applicant need not be an accredited teacher.

The general examination is for all other Peace Corps assignments. However, an applicant who chooses the test for teachers may take an additional test in the afternoon in order to be

considered for other positions as well.

While many of the projects require technical skills, some do not. Liberal arts graduates, for example, are often assigned to community development work after they receive special training, or to teach English at the elementary school level. The people with general farm backgrounds might be assigned to agricultural projects without being highly skilled in any of the many agricultural specialties.

Glenn Kennedy, local manager for Pacific Northwest Bell, explained that numbers will still be dialed in the same way, differing only in the way they are written or spoken. A typical Grants Pass telephone number, for instance, will now read 479-2090 rather than GR 9-2090.

New directories are now arriving by mail, and delivery is expected to be completed in about a week, Kennedy said.

Grants Pass - Grants Pass and Rogue River telephone users switched to all number calling (ANC) last week, but it was a change "in name only."

Glenn Kennedy, local manager for Pacific Northwest Bell, explained that numbers will still be dialed in the same way, differing only in the way they are written or spoken. A typical Grants Pass telephone number, for instance, will now read 479-2090 rather than GR 9-2090.

New directories are now arriving by mail, and delivery is expected to be completed in about a week, Kennedy said.

Try and Stop Me

By BENNETT CERF

A HUSBAND who was not exactly smiling when his wife was around came home at about 4:00 a.m. one time to receive the tongue-lashing he expected. "Fine hour to sneak in," shrilled his wife. "I suppose you're going to give me that old routine about being out somewhere holding a sick friend's hand."

"My dear," said the husband sadly, "if I had been holding his hand, we'd be considerably wealthier today."

At the Hillcrest Country Club in Beverly Hills, the afternoon bridge games are taken very seriously.

George Burns tells of one hand where he and his partner bid seven spades, vulnerable. One of their opponents had recently recovered from a heart attack.

After some deliberation, he took out a nitroglycerin tablet, placed it under his tongue, looked at his cards again, and said with a deep sigh, "I double."

In Miami Beach, Hotel Impresario Ben Swack asked an 8-year-old visitor whether he planned to swim in the pool or the ocean. "The pool," said the boy firmly. "The ocean's too tall for me."

Former Cuban Prisoner Tells Of Atrocities

Miami, Fla.—UPI—An American who spent 39 months in Cuban jails said Wednesday "atrocities that would make your hair stand on end" are being carried out against anti-Castro prisoners who resist Communist brainwashing.

The former prisoner, John Martino, 59, came here to testify before a special meeting of the Inter-American Commission of Human Rights which is winding up a three-day investigation on Cuban prison conditions. He denounced the State Department to reporters, saying it had "failed to help" the 23 Americans still in Cuban jails.

"Is there any reason for James B. Donovan to pay millions of dollars to Castro for the Bay of Pigs invaders without specifically including the Americans in the deal?" Martino asked. "These Americans have become the forgotten men in the ransom negotiations."

Martino said one of the worst Castro atrocities took place April 23, 1962, in La Cabana Prison when more than 1,600 inmates rioted in protest against attempts to force them to attend Communist indoctrination classes. "Guards rounded up the 200 ringleaders and forced them

to run a gauntlet with 40 vicious beat them with bayonets, rifle butts and chains and threw them into an outdoor pit without any medical attention," Martino said, adding that one of the ringleaders, a one-legged man, subsequently was shot.

Martino was arrested July 23, 1959, 20 minutes after he arrived in Havana to do business for an electronics engineering firm. He said he never learned why he was arrested and the U.S. Embassy "only gave me promises of help but nothing else." The embassy later was closed.

STUDY OF STUDIES

Hartford, Conn.—UPI—House Speaker J. Tyler Patterson has called for establishing a legislative study commission to study studies made by other study groups.

You'll make the wisest choice no matter which Chevrolet you choose!

These four different cars are alike in one important way. Each is a product of Chevrolet Division of General Motors. That means any one will give you more for your money in performance, beauty and comfort... plus more good news come trade-in time. However, each of these fine cars has its own way of being distinctive too, because each is tailored to the interest of a certain kind of buyer. Our big Chevrolet, for example, with its Jet-smooth ride, luxury and styling you'd expect in cars carrying a much higher price tag. Chevy II with its parkable size, sparkling perform-

ance and outstanding fuel economy. Corvair with rear engine maneuverability and the instincts of a sports car. And the dramatic new Corvette Sting Ray, America's most exciting car becomes America's most advanced car, now available as a two-seater coupe or convertible. In all, the Chevrolet line presents 33 handsome new models to choose from... a variety designed to suit the needs of just about everyone. So it comes down to a question of which one suits you best. Whichever your choice, you can be sure it's a wise one... and one you'll be happy with every day that you drive it.

Shown above (top to bottom), '63 Chevy II Nova 400 Station Wagon, Chevrolet Impala Sport Sedan, Corvair Sting Ray Sport Coupe and Corvair Monza Club Coupe

See four entirely different kinds of cars at your Chevrolet dealer's Showroom.

In the Day's News

By FRANK JENKINS

From Salem: Senator John D. Hare (Republican, from Hillsboro) says he will introduce a bill reducing the Oregon personal income tax by 10 per cent. Announcing his intention to the reporters (possibly with his tongue in his cheek) he said: "President Kennedy has proposed a federal tax cut of \$13.5 billion to bolster the national economy, and any tax cut in Oregon should IMPROVE the state's economy. If it's good enough for President Kennedy, it's good enough for me."

THIS suggestion, sir: Add to your bill a clause requiring that for each dollar of tax reduction there must be a reduction of a dollar in public SPENDING. That would make sense.

Now one from Denver: The Republican-dominated Colorado legislature completed passage of a bill cutting state income taxes by 15 per cent on money earned in 1962. The bill is expected to reduce state revenues by around eight million dollars.

WATCH it. If the new law reduces revenue by \$8 million and the legislature sees to it that total Colorado spending is reduced by \$8 million, the economy of Colorado will be strengthened to that extent.

BUT—If the Colorado legislature, after piously reducing revenues by eight million dollars, turns around and spends TEN million dollars for something it could have got along without, it will be a horse of another color. Shenanigans of that sort merely get the taxpayer deeper into the hole.

HOPEFUL sign of a possible return to normalcy: Four Salem police officers were rushed to Doney Hall on the Willamette University campus at an early hour the other morning when a noisy group of male students staged a PANTY RAID on a women's dormitory.

The crowd scattered as the officers arrived. No arrests were made, but one student was turned over to the university dean of men after throwing a lighted firecracker—as he should have been. Lighted firecrackers have no place in a panty raid.

MRS. MILDRED MEAD HALL, house mother at Doney Hall, told the police: "There was no property damage, and there were no injuries." (She admitted that "some women's underthings" were missing.)

The officers, feeling that all's well along the Willamette, left the campus at 12:30 a.m.

Carolina Pacific Buys FS Timber

Yreka-Carolina Pacific Plywood, Medford, was the high bidder for 12,500,000 board feet of Klamath National forest timber.

Harry Hopkins of the Klamath National forest said the total advertised sale value was \$103,120 and total bid sale value was \$106,112. The purchaser, who has a mill in Happy Camp, plans to start road construction into the timber sale area as soon as possible. The sale, which is located near the Klamath river near Ti Bar, is composed of 18 blocks of timber totaling 313 acres which are to be cleared out. On 128 acres of this total, cable or high lead logging will be required in order to prevent soil erosion.
