

FAST CAR COMING—One of the world's fastest cars will be on display Feb. 9-10 as a feature entry in the Medford Roadster Show, an exhibition of custom cars, rods, and dragsters, at the Medford Armory. The sleek aluminum-bodied racer, "Redhead," owned by the trio of Hammon, Whipp and McGrath of Redding, Calif. sped over 300

miles per hour on the Bonneville Salt Flats last August. The car holds several international records and is powered by a Chrysler engine rated at some 700 horsepower. Some 30 other top entries from Seattle to San Francisco will be featured at the exhibition of style and speed.

Roadster Show Next Week End

The 1963 Medford Roadster Show opens Saturday, Feb. 9, for a two day stand at the Medford Armory. The exhibition of style and speed features some of the finest custom-built autos on the west coast.

Many of the entries have been specially crafted by their owners for show competition and represent investments of thousands of dollars and years of modification work. Others are race machines of various types, one of which has whizzed across the salt flats of Utah at more than 300 miles per hour.

Sponsors of the show say interest in this year's presentation has been much higher than in any previous effort and many entries have been turned down because of the space limitations of the armory. Officials were confident in saying the Medford show will be one of the finest presented in the Northwest this winter.

Marty Queen

Miss Marty Wyatt, Miss Oregon, and one of 10 semifinalists in the Miss America contest in Atlantic City last September, will be official Queen of the Show. Miss Wyatt, from Jacksonville, is a student at Southern Oregon college.

FLEXIBILITY!

The Daily Newspaper
Is the Flexible Medium
for Pinning Down Sales

Newspapers don't tie up the advertiser with rigid time schedules or space limitations that weaken the impact and effectiveness of his message. Newspapers offer creative and physical flexibility. An advertiser can use a two-page spread to tell a detailed story or he can use a smaller space to say what he wants in fewer words, depending on his budget and his strategy. The physical flexibility of newspapers means ads can be scheduled quickly to take care of sudden selling opportunities. The daily newspaper is flexible enough to fit any advertising strategy.
