

Letters Opposing Sunday Closing Law Flood State Capitol

Shouting, Gavel-Pounding Mark Hearing on Race Bill

By ANN H. PEARSON
Salem—A hearing on a racing bill that generated shouting and gavel-pounding Monday will continue next week despite elimination of its chief target, Rep. Edward Whelan (D-Portland) said today.

The chairman of the House Planning and Development Committee spoke shortly after the State Racing Commission denied David Funk's application to build a dog track at Wilsonville in Clackamas county.

The committee is holding hearings on a bill to limit horse and dog racing tracks in Oregon. The bill had been directed specifically at stop-

ping the Wilsonville plan. Six of the committee members are among 35 sponsors of the bill.

"I am convinced the committee still wants to push this bill through to bar any future efforts like this," Whelan said.

The shouts and accusations broke out Monday while Archie Weinstein of Eugene was testifying before the committee.

Weinstein at first identified himself as "just a citizen," but later admitted he was associated with Funk.

Weinstein said the bill was aimed at "perpetuating a monopoly" on horse and dog racing in Multnomah county. He scoffed at the fact the

Barton, Musa Believe Job Not For Legislature

Salem—Thousands of letters opposing the proposed Sunday closing law flooded over legislators' desks here today.

House Speaker Clarence Barton and Senate President Ben Musa both said today they did not feel it was the legislature's job to enact such laws.

Barton said he received "15 or 20 letters" on the plan Monday from Seventh-Day Adventists who oppose the idea.

Musa said his wife, Rep. Katherine Musa (D-The Dalles) received a "whole bunch" of mail, and he had been visited by three Seventh-Day Adventist students who opposed the measure.

"When we start making laws to restrict people, it's the wrong approach. It's whitening away some more of our freedoms," Musa said.

Not Legislative Job

Barton said "I don't think this is a legislative job. Groups can work these things out among themselves." He cited instances where banks voluntarily joined to close on Saturdays.

Barton said the Sunday closing bill, proposed by the "save a day for the family committee" would be sent to the House Planning and Development committee.

"I think there'll be some amendments made," he added. "This is economic, pure and simple. It's a cleverly drawn bill. I wonder why they (the sponsors) overlooked some of the other segments of the economy. What about a day off for food store workers, bartenders, waitresses? They have some rights, too."

Fair Hearing Assured

Barton assured "the bill will get a fair hearing."

While commenting on reports that more than 5,000 letters against the bill had hit the capitol, Barton said, "Now, when the green stamp bill comes in... well..."

He said he understood the anti-trading stamp bill would be introduced shortly.

In other matters, Barton said he was not concerned now over delays surrounding the Boardman project. He said he did not expect any major development of the space age park until the John Day dam was completed and deep water was available at the site.

Lison Said Needed

Musa, who served as governor Sunday and Monday, said there should be some liaison between the governor and the senate president. He said his only official act while governor was to recall the National Guard units from the Baker flood area Sunday night.

"I realize this thing (Hatfield's out of state trip) came up quickly," Musa said, "Maybe next time there will be time for a briefing."

New Way Found To Stop Hair Loss, Grow More Hair

HOUSTON, Texas—For years they said it couldn't be done. But now a Texas firm of laboratory consultants has developed a treatment that is not only stopping hair loss... but is really growing hair!

They don't even ask you to take their word for it. If they believe that the treatment will help you, they invite you to try it for 32 days, at their risk, and see for yourself!

Naturally, they would not offer this no-risk trial unless the treatment worked. However, it is impossible to satisfy everyone.

The great majority of cases of excessive hair fall and baldness are the beginning and more fully developed stages of male pattern baldness and cannot be helped.

But how can any man or woman be sure what is actually causing their hair loss? Even if baldness may seem to "run in your family," this is certainly no proof of the cause of YOUR hair loss.

Actually, there are at least 18 scalp conditions that can cause hair loss. No matter which one is the cause of your hair loss, if you wait until you are slick bald and your hair roots are dead, you are beyond help. So, if you still have hair for at least some fuzz) on top of your head, and would like to stop your hair loss and grow more hair... now is the time to act.

Loesch Laboratory Consultants, Inc., will supply you with treatment for 32 days, at their risk, if they believe the treatment will help you. Just send them the information listed below. Adv.

Don't Let the Machine Catch You!

Some months ago, the government opened a new data processing center in West Virginia—the first of a series of such centers to be located across the nation. With them, the government will be able to check every federal income tax return in the country automatically.

If anything looks fishy, the giant computers will toss out a return for additional checking.

All of which means that your tax return had better be accurate—right down to such things as drug deductions.

It can be, when you purchase from us, because all of our customers receive absolutely free of charge our special DrugTax service.

When you buy from us, all of your purchases are recorded on "memory" tapes, which are later fed into giant electronic computers. At the end of the year, we send you a DrugTax statement which tells you how much you spent for drugs of a deductible nature.

No guesswork. No cost to you. You may actually save money—because you get the benefit of every single drug deduction to which you are entitled.

(You might be surprised at how many things are of a deductible nature—and you might be surprised, too, at how many millions of dollars the American taxpayer loses each year because he doesn't claim them).

Come in today and take advantage of our free DrugTax service. It's our way of saying "thank you" for your patronage.
