Musicians Honored at Reception

William Warfield, noted bass-baritone, and his accompanist, Willard Straight, were honored at a reception given Monday night at the home of Dr. and Mrs. Fred Lorish, 830 Minnesota avenue. The event followed a concert which the two had presented at Medford High school for Jackson County Civic Music association members.

About 70 guests attended. Pouring were Miss Mary Lorish, the couple's daughter, and Miss Kako Kondo, Japanese student at Southern Oregon college who is making her home with the Lorish family this year.

The refreshment table was centered with an arrangement of yellow daffodils and acacia. Mrs. Oscar Heyerman and Mrs. Gordon Hudson assisted Mrs. Lorish.

Among those attending the event was Kenji Kondo, brother of Miss Kondo, who is a guest in the Lorish home for a month. Mr. Kondo was recently graduated from Northland college, Ashland, Wis., and is en route to his home in Kobe. He will be accompanied by Dr. and Mrs. Lorish's son, Fred, sophomore at Stanford university, Palo Alto, Calif., who has been granted a scholarship to study at Keio university in Tokyo.

Another member of the Kondo family, Don, lived a year with the Lorishes while he attended Medford High school as an American Field service student.

WORK SMARTER — NOT HARDER

By BERNICE STRAWN
Oregon State University

Are you still the gal your husband married — full of vim for all that's fun? Or does homemaking leave you "bushed" with most of the old "you" gone?

Americans, including women, are woefully lacking in physical stamina, we're told. That's why our government has instigated a tremendous drive for physical fitness.

We asked Jessalee Malla-lieu, OSU recreation specialist, for a few ideas on getting back some of that old pep. She says that for one thing, we don't exercise enough to keep fit. Did you know that if you sit slumped over it actually affects your outlook? Everything seems to tower over you. It's depressing! When you sit and stand erect you feel more on top of the world.

Choose recreation to help keep you and the family in good shape. She suggests hiking, bowling, bicycling, boating (if you do some of the rowing), and folk dancing.

Working wives — exercise while at your desk. Place the waste basket so you'll have to twist your body to reach it. This is good for your midriff. How about walking to work? Or park the car for enough away to give you a little exercise.

Young mothers — don't carry the baby or your grocery sack on one hip. This throws your body out of balance. Housework is a good toner-upper too, if you stand tall, sit tall and do a bit of the twist when you dust.

How to clean steam irons? That question comes to us. The best cleaning job you can get is by an authorized service man, but it may be expensive. Get an estimate first.

Do-it-yourself cleaning is best done three or four times a year before clogging comes too serious. Fill the iron with clear white vinegar and steam for two minutes. Let stand overnight, then rinse several times. Expect an unpleasant odor the next time you use the iron, but it will disappear eventually.

Special iron cleaners for home use are also available at hardware stores.

Water spots on furniture are often a problem after holiday company and winter parties. Try applying a warm iron over a damp blotter off and on.

for a few seconds at a time. The heat and moisture will help remove the stain. If this doesn't work, rub lightly with 4/0 steel wool and a liquid wax.

Wide, High Shoulders Pose Fashion Question

By ALINE MOSSBY
United Press International
Paris — (AP) — Paris designers have launched wider, higher shoulders and sleeves, but today's question is — will women wear them? The parade of spring fashions has ended with Yves St. Laurent, 26, the youngest and most off-beat of the designers, and Cristobal Balenciaga, 68, considered one of the best, both displaying a wider shoulder.

During spring fashion week, shoulders and sleeves ranged from the puffed sleeve of Marc Bohan at Christian Dior to the padded shoulder and bell-shaped sleeve of Jacques Heim.

Store buyers from various countries were reported to have bought dresses with the new shoulders. But whether they will be modified back home or reproduced as is for department stores could not be determined.

Last winter several designers dropped skirt lengths. But women apparently still want to show their legs, so skirt hems were raised again this spring.

In addition to expanded shoulders, the other main trend in the spring collections was the suit that did not look

like a suit. Balenciaga, Pierre Balmain and Jacques Griffe made elegant suits as of yore with collars, jackets to the hip and gentle fitting.

But St. Laurent, Guy Laroche and J. F. Carhay at the House of Nina Ricci offered suit jackets as casual as men's shirts and peasant blouses. Jean Desses eliminated collars and lapels and had suit jackets buttoning onto blouses with a wide expanse of blouse between the buttons. Bohan used "wide open" low-cut suit necklines that showed a "dicky" or crisp blouse front.

Some buyers predict the non-suit suits will show up in budget stores within three

months, particularly in the United States where many women like a casual, sporty look.
