### Reds Say Rockets To Be Returned If Cuba Attacked

China Included in Premier's Warning

Moscow—(UPI)—Soviet Premier Nikita Khrushchev warned today that Russian rockets and bombers would return to Cuba to wage thermonuclear war if the island were attacked by "imperialists."

In a major speech that lasted 1 hour and 27 minutes, Khrushchev also said the Soviets would rush to the aid of any Communist nation that might be attacked, including Communist China.

He said the Soviet Union had agreed to pull its rockets and bombers out of Cuba, but he added: "It doesn't mean we left Cuba to be eaten by the sharks of imperialism. We will come to the aid of the Cuban people."

#### Policy Statement

The Russian premier turned a local election speech for his home district into a wide-ranging policy statement on international affairs.

"We warn that if there is an imperialist attack against Cuba or China — which is threatened from Taiwan-Formosa by Chiang Kai-shek — or against Viet Nam or the German Democratic Republic or any other socialist state, the Soviet Union will come to the aid of its socialist brothers against any aggression," Khrushchev said.

His comment on other major war issues included:

—Berlin: There will be "no peace in Europe or the world" as long as there is no peace treaty with Germany, West Berlin would go on living after a peace treaty, he said, and no frontiers would have to be changed.

—Nuclear test ban: The West can expect no further concessions from the Soviet Union beyond its previous offer of two or three on site nuclear test ban inspections.

### Defense To Present Its Side in Suit

The case of Roy Picard, Medford jeweler, who is seeking combined damages of \$100,000 and costs in a suit against two Medford officials, was completed in the Jackson county circuit court of Judge James M. Main this morning.

Picard, who testified Tuesday afternoon, was on the witness stand until completion of his case. The court recessed upon request of defense attorneys and attorneys for defense and the plaintiff were understood to be arguing a motion, which would be presented to the court, before opening of the defense.

Medford Building Safety Director O. R. McNeal and former City Attorney Joel Reeder are defendants in the case. Picard testified that he announced he would quit carrying electrical appliances, basis of the suit, when told he would have to buy a license and that he had removed the items from his store when he was served a citation to appear in municipal court last Dec. 1.

### Witnesses Appear In Grenfell Trial

Portland—(UPI)—The state called more witnesses today in the trial of former State Sen. William Grenfell Jr. on a charge of failing to remain at the scene of an accident last October.

Fifteen witnesses were called Tuesday and Deputy Dist. Atty. Robert Christ said he expected to call a total of 44.

### QUAKE FELT

Portland—(UPI)—Some residents in the Portland area felt a light earthquake at 5:23 p.m. Tuesday. No damage was reported.

## Angry Hunters Say State Deer Herds Vanishing; Probe Likely

### State Game Group Has No Objection To Investigation

About 300 Attend Committee Hearing

Salem—(UPI)—Oregon's deer herds are vanishing, angry hunters told a legislative committee here Tuesday night. An investigation of the State Game commission appeared a certainty.

Both the hunters and Commission Chairman Rollin Bowles said they would welcome an impartial legislative committee to look into the commission's activities. "We have no objection to it whatsoever," Bowles said. "This committee could do a considerable service to the people of Oregon."

Bowles reluctantly agreed that if the state can't pony up \$35,000 for the two-year interim study, it could come out of the commission's \$10.5 million budget.

Some 300 sportsmen attended the Senate State and Federal Affairs committee hearing.

#### Border Herds Eyed

The hunters, many from Southeast Oregon, expressed particular concern about dwindling deer herds that used to migrate in large numbers across the Oregon-California border.

"Through my fields, a few years ago, some five to six thousand deer migrated," said former game commissioner Ralph Renner of Lakeview. "Last year I saw one doe."

Renner said he resigned from the commission because it refused to heed his warnings.

C. E. Milhorn of Klamath county said he found 12 sets of deer tracks in a survey of snowy area last year where a few years ago there would have been 300 to 400.

Erin Forrest of Alturas, Calif., said the California game agency "shocked the state" earlier this month when it admitted its management policies weren't working.

Alan Kelly, president of the Isaac Walton League of Oregon, said a study would be acceptable but the money should not come from the commission's budget.

### Public Meeting Set To Discuss Signs

A public meeting to discuss the billboard situation along the freeway in downtown Medford will be held Monday, March 4, at 7:30 p.m. in the city council chambers.

### New Trial Ordered For Two Doctors

Salem—(UPI)—The Supreme Court ordered a new trial today for two Roseburg doctors who were assessed \$40,000 in damages in a malpractice suit in Douglas county.

The case involved a small infant, Daniel Willard who was the victim of hemophilia. Drs. J. M. Hutson and A. B. Monroe were accused of negligence in treating the baby and in failing to use proper means to stop the bleeding.

The Supreme Court, in a decision by Justice Hall Lusk, said the question of whether a specialist should have been called in the case was a medical question.

The high court said it was an error to submit such a medical question to the jury without accompanying medical testimony.

### WEATHER

FORECAST: Variable amounts of high cloudiness tonight and Thursday. Low tonight 30-33. High Thursday 43-46.

Highest Yesterday Temp. 52  
Lowest This Morning 23

PROMINENT CONSTELLATION Orion, in southwest at moonset.  
VISIBLE PLANETS  
Mars, high in south- 9:00 p.m.  
Saturn, rises 5:03 a.m.

## Strong Plea for Long-Range Plans Is Made to Court

The plea for long-range planning was voiced by a committee which included Dr. Elmo Stevenson, president of Southern Oregon college; Realtor John Weisbrod, who has long advocated a large, multi-purpose stadium; Engineer Bob Phelps, and Architect William Seibert.

County Judge Earl Miller indicated he viewed the suggestion sympathetically, but declined to commit himself on the proposal.

The court also indicated its determination to proceed with the construction of a "mediocre" and "stop-gap" baseball field and bleachers at the fairgrounds, at a cost estimated to be about \$80,000. Some of this may be done immediately, but the bulk of it will be included in the 1963-64 fiscal year budget, the court indicated.

## Railway Union To Fight Restraining Order in Court

San Francisco—(UPI)—The Brotherhood of Railway and Clerks was expected to go to court today to fight a restraining order which prevents a scheduled strike by the union against Southern Pacific, the West's largest railroad.

The walkout in seven western states was set to begin at 6 p.m. PST Tuesday, but SP attorneys obtained a 10-day restraining order from Superior Court Judge James O'Keefe in suburban Redwood City.

James Weaver, chairman of the union's 11,000-member SP unit, said attorneys for the brotherhood believe the surprise action was invalid "in toto" and would be vacated.

"It's a good idea for people to stay off the rails if they don't want to get hurt," Weaver added. "The minute we get out of court we'll be gone."

The railroad apparently felt certain the order would stand. It lifted the freight embargo which was ordered Tuesday when the union announced the strike deadline.

The union official also ruled out further negotiations with Federal Mediator Frank O'Neill, who has been conferring with both sides since Feb. 6 in an attempt to avert the off-postponed walkout.

### Anti-HUAC Measure Killed by Group

Washington—(UPI)—The House Rules committee Tuesday killed proposals aimed at abolishing the Committee on Un-American Activities and turning its subversive activity investigations over to the judiciary subcommittee.

The Rules committee acted behind closed doors, after an open session at which key members of the un-American activities group said the transfer would play into hands of the Communists.

The shift was proposed in separate resolutions by Reps. James Roosevelt (D-Calif.), John Lindsay (R-N.Y.), and Leonard Farberstein (D-N.Y.). All agreed that continued investigation of subversive activities was needed but said the work could be carried on more effectively and with less controversy by the Judiciary committee.

### Hatfield to Address Manufacturers Group

Salem—(UPI)—Gov. Mark Hatfield will fly to California Monday to address the Peninsula Manufacturers association at Millbrae, near San Francisco.

The governor's office said Hatfield would leave Oregon after Monday's scheduled press conference, and return late Monday night.

The governor earlier this month made a speaking tour through the Los Angeles area.

## Subdivision Near Ashland Favored By County Group

The Green Springs subdivision in the Oak Knoll development near Ashland was approved late Tuesday in a special meeting of the Jackson county planning commission.

The preliminary plan included the first unit of a larger development by the Northwest Development Corporation. It will include less than 100 lots.

The irregular shaped area fronts on Highway 66 1,500 feet west of the Highway 66 interchange on Interstate 5. The area extends south and west adjoining the freeway right-of-way and the golf course. It will eventually extend to Crowson rd. on the south, developers stated.

### Recommended Change

The only recommended change to the preliminary plat was for a change in the entrance road from Highway 66. It was explained that this road will include a curve on a downhill grade, and the state highway department required that the road be widened at the turn off for some 240 feet.

The city of Ashland has contracted with the corporation, headed by William Dawkins, to extend the city's sewer line to the north line of the property and to provide water for the development.

The subdivision, essentially for retirement homes, will include a small service center in the next phase of the plan, Dawkins said.

### Temporary Sidewalks Being Installed

The Medford street department is constructing temporary sidewalks east from Bear creek to the intersection of Fourth and Jackson sts., the city engineering department said today.

The sidewalks will be of granite until plans for landscaping of the area are formulated, then the sidewalks will be hard surfaced.

## County Officials Attend Hearing on O & C Monies

Jackson County Judge Earl Miller and Robert J. Carstensen, county engineer, are in Salem today to testify at the public hearing on HB 1294, which is concerned with county school funds.

### New Courthouse Gets Consideration

Serious consideration is being given to the eventual construction — and perhaps relocation — of a new courthouse, two members of the county court revealed yesterday.

Commissioners Don Faber and Edwin Taylor both complained of "overcrowding" in the present courthouse and annex. The former was completed about 1923, and the latter about five years ago.

Faber indicated a new courthouse, if and when constructed, might be situated at the fairgrounds, where two of the county's offices have been or will soon be moved, the county agent's office and the health department.

No plans are under active consideration for a new courthouse, but the two commissioners made it plain that one may become necessary within the foreseeable future.

### Registration Cards Should Be Returned

Jackson county voters who received cards mailed Jan. 14 announcing that their names would be removed from the election rolls unless the cards were returned to the county clerk's office, were reminded today that the cards must be in by April 4.

The names were checked off when individuals failed to vote in the last primary and general election.

They will be removed from the list in all instances in which the cards are not returned to show the individuals' desire to continue as voters in Jackson county, the clerk's office said.

## New CD Budget Draws Fire From Ways and Means

Salem—(UPI)—A \$52,974 alternate civil defense budget was submitted to a Ways and Means subcommittee Tuesday and sparked an immediate outburst from subcommittee members.

Sen. Alfred Corbett (D-Portland) charged the new budget "indicates they are still thinking in Victorian terms."

Sen. L. W. Newberry (R-Ashland) commented, "It looks like we asked the wrong people to revise the budget."

The alternate proposal was asked by the subcommittee after it rejected the governor's \$410,675 request for the civil defense agency.

Freeman Holmer, director of the Department of Finance and Administration which prepared the alternate plan, admitted "the Department of Finance does not recommend this."

The proposal would replace the present 18-man civil defense agency with a 3-member staff working out of the governor's office.

It calls for a coordinator, secretary, and communications expert.

Half of the governor's requested \$410,675 budget would have been paid by federal matching funds. Holmer admitted he did not know if the federal government would pick up half of the alternate \$52,974 amount.

"If you don't know, who does?" asked Rep. Beulah Hand (D-Milwaukie) subcommittee chairman.

All persons interested in the problem are invited to attend, according to Councilman Al Bradford, council president, who was one of those named to the sign committee by Mayor James Dunlevy.

Other members of the sign committee are Councilmen Terry Green and Robert Van Sickle, and Walter Higgins and Elwood Hedberg, members of the city planning commission.

The committee was appointed at the Feb. 21 city council meeting after the city council approved an ordinance prohibiting billboards within 270 feet of the centerline of Interstate 5.

### Penalties for Dog Licenses Start March 1

Friday, March 1, will be the last day for dog owners in Jackson county to buy licenses without paying a penalty, County Clerk Marvin Madden reminded dog owners today.

After March 1, licenses which now cost dog owners \$2 and \$3 will cost them \$4 and \$5, Madden said.

## NEWS BRIEFS

**REPORT DUE ON NEWSPAPER STRIKE**  
New York—(UPI)—Both sides in the deadlocked New York newspaper strike report today to Mayor Robert F. Wagner who is expected to announce his next step toward ending the impasse.

**HOPES FOR TEST AGREEMENT PLUNGE**  
Geneva—(UPI)—Premier Nikita Khrushchev's firm warning that no further Soviet concessions will be made sent hopes for an early East-West nuclear test ban agreement plunging sharply today.

**CASTRO HAS FUTURE OF MISERY**  
Houston—(UPI)—Secretary of State Dean Rusk said Tuesday night that the only future Cuban Premier Castro has is one of misery.

**TERRORIST QUESTIONED ABOUT DE GAULLE**  
Paris—(UPI)—French security officials questioned secret army terrorist chief Antoine Argoud today on possible assassination attempts against President Charles de Gaulle.

**COSTS RISE**  
Washington—(UPI)—A 1.2 percent increase in food prices boosted the cost of living by two-tenths of 1 percent during January, the Labor Department reported today.
