

PUT CLOTHES ON ANIMALS — Pickets representing the Society for Indecency to Naked Animals are shown as they marched in front of the White House Tuesday demanding presidential support for a campaign to put clothing on all animals. They said that the First Lady should take the lead in the movement by putting clothes on her horse when she goes riding. At left is Bill Moran and at right is Jeanne Spencer, both of New York City. (UPI)

Hunter Finds Way Out of Forests

Detroit, Ore. — (UPI) — A Washington hunter safely found his way out of the Cascade mountains Wednesday shortly after a search for him began.

Erling Sams of Kelso, Wash., was hunting cougars in the area between Highway 26 and Olallie lake when he became separated from a companion, A. D. Sherill, Escada, Ore.

When Sherill was unable to find Sams, he notified forest rangers and the search was organized.

Trichinosis Feared In Portland Cases

Portland — (UPI) — Nine suspected cases of Trichinosis — a disease resulting from eating insufficiently cooked pork — have been reported in the Portland area.

The State Board of Health said that each of the nine suspected cases had eaten a home-prepared sausage from a common source. Laboratory tests were being made to confirm the cases.

RECEIVES DOG HERO AWARD—Duke, a long tailed mongrel, receives the Research Dog Hero of the Year award Tuesday from Dr. Albert Sarr, member of the University of Oregon Medical school open heart surgery team, as new owner Jeffery Salzwedel, looks on. Both boy and dog underwent open heart surgery. Duke was given heart condition by team as a research project and hence the award. Jeffery was one of first to receive benefits of results of experiment in an operation of Feb. 14. Duke was retired from research and given to Jeffery. (UPI)

Cabbie Could Get Exorbitant Tip

New York — (UPI) — Unless a mystery passenger shows up by the end of the year, an honest Bronx taxicab driver will collect a tip of more than \$989 for a 45-cent ride.

Henry Knester, the cabbie, entered a Bronx police station Wednesday night to turn in a \$1,000 bill. Minutes before, he said he had driven a male passenger on a 45-cent fare. The rider handed him a bill he assumed was a \$10 bill. He made change and drove off.

Shortly thereafter, Knester discovered he had underestimated by two the number of zeroes on the bill, and drove immediately to the station house.

Police said the bill will go to the police property clerk pending the arrival of its owner. If the owner doesn't appear by the end of the year, the cash goes to Knester.

FLOATING CLASSROOM

Stanford, Calif. — (UPI) — Stanford university's "floating classroom" for marine biology, the 125-foot schooner Te Vega, will join more than 20 ships of a dozen different countries in June making an intensive survey of the Indian Ocean, one of the world's least-known seas.

Boy Scout News

Cub Scout Pack 117
The annual Blue and Gold potluck dinner of Walker Cub Scout Pack 117 was recently held with 145 guests present.

The opening flag ceremony was conducted by the Webelos. Invocation was given by the den chief, John Wood.

David Hill was master of ceremonies and introduced special guests: Mr. and Mrs. Hugh Engstrom, neighborhood commissioner; Mr. and Mrs. Ernest Fieguth, PTA president; Mr. and Mrs. Otis Hussey, institutional representative; Roger Kelso, new Webelos leader; Ralph A. Wood, cubmaster; John R. Wood, den chief, and David Hill, committee chairman.

Mrs. Robert Stephenson led the pack in a song and Otis Hussey gave awards to pack leaders. Receiving awards were Mr. and Mrs. Ralph A. Wood, Mrs. Jerry Montgomery, Mr. and Mrs. Jay Chapelle, Robert Pederson, Roger Kelso, John and Jim Wood, Otis Hussey, Mrs. Fred James, Mrs. Gene Litwiller, Mrs. Dewey Spence, Mrs. Jene Stacy, Mrs. Phil Kieton, Mrs. Robert Stephenson, David Hill, and Mr. and Mrs. Ralph A. Wood.

Mrs. Ernest Fieguth presented the pack with two different awards earned during the winter. They were the Go-Round Up for recruiting new cubs and the window display certificate and red ribbon.

Evening Classes Slated at College

Ashland — Southern Oregon college evening classes will begin the week of March 25, Mrs. Mabel W. Winston, registrar, has announced.

Night class enrollment may be made the first night the class meets and no later than the second week of the term. The registrar's office will be open from 6:15 to 7 p.m. each night during the first week of the term in order that students may register. Fees of \$12.50 per credit hour will be charged with a minimum charge being \$25.

Among classes offered during the spring term will be ceramics, painting, orchestra, chorus ensemble, appreciative aspects of music, business law, stenography, typing, a seminar on problems in education, audio-visual aids, public and professional relations, psychology of adolescence, occupational choice and psychology of careers, psychology of learning, methods and resource materials in arithmetic, methods and research materials in biology, world literature, English composition, reading clinic, first aid, social dance, rocks and minerals, principles of economics, introductory geography, history of western civilization, history of United States, and history of the Far East.

Perfect attendance at all den and pack activities was rewarded with pins. One-year pins were presented Rex Stacy, Kenin and Randal Litwiller, John Delsman, Jim Cady, Mike Spence; and two-year pins to John Spence and three-year to Tim Wood.

The achievement awards were given out by cubmaster, Ralph A. Wood. Winners were Bobcats, John Blurck, Billy Spence, Daniel Haggert, Derek Barker; wolf badges, Bobby Cady, Gordon Mobley, Jerry Montgomery, Bruce Dickerson; wolf and gold arrow, Eric Stephenson, Tommy Wood, Mark Vaughan, Kenny Keeton; silver arrows, Kerry Keeton, Gary Heavilin, Bobby Schenman, Gary Pederson; bear badge, David Ward, David Montgomery; bear, gold and silver arrows, Steve Wilkenson, Rickey Rosentritter, Roger Ponder; gold arrows, Rex Stacy and Richard James.

Towers Would Beam Warning of Attack

By DOUGLAS DILTZ

Clear, Alaska — (UPI) — If the Soviets launched a missile attack against the United States today, it would come from over the Arctic, air defense commanders believe.

That's because the "Polar Route" is within the closest striking distance to the heartland of the United States, they say.

Rockets, armed with nuclear warheads, would come raining down on huge population centers of the U.S. mainland within a few minutes.

Defense commanders point out that in the Alaskan defense frontier there is a mere 49 miles of sea separating this state and Siberia — the closest point between the United States and Russia.

U.S. commanders admit there is no defense against enemy missiles at this time. The best that could be done would be to detect rockets racing across the top of the world and give the U.S. mainland a 15-minute warning.

The United States has devised a defense network of three "watchtowers" across the top of the world. It is called Ballistic Missile

Early Warning System (BMEWS).

Perhaps the most important of these stations is the one located here in the remote Alaskan back country — some 60 miles from Fairbanks. The temperature now ranges 50 to 60 below.

This site is closest of the three "watchtowers" to Russia. Another is at Thule, Greenland, and the third is nearing completion at Fylingdales moor, England. Cost to U.S. taxpayers — \$1 billion.

The primary job of the BMEWS is to provide advance warning of a missile attack. This station, like the others, has a scanning range of 3,000 miles or more over all the Eurasian land mass from which missiles could be launched.

The BMEWS station here has three towering fixed antennas, 400 feet long and 165 feet high, for detection. There also are tracking radars which follow the path of attacking rockets once they are detected by the bigger antennas.

The radar beams from the sites at Clear and Thule — and soon from England — form an electronic warning umbrella by fanning out across the top of the world.

Should a Soviet missile be launched, the alarm would be signaled to the North American Defense Command (NORAD) headquarters in Colorado Springs, Colo. This would give the United States, in terms of time, a warning of a quarter of an hour.

This would be enough to send America's devastating retaliatory power, ICBM's and Strategic Air Command bombers, against the enemy in the early stages of conflict.

The United States has an anti-missile missile, the Nike Zeus, but it is not yet operational.

A Soviet missile attack, in event of a nuclear war, also would come from submarines. But the main attack, military officials believe, would come from over the top of the world.

"This is our most critical area," a defense commander said.

OLCC May Change Price of Wine

Portland — (UPI) — The Oregon Liquor Control commission said Wednesday that it may increase the minimum price of wine.

The commission said a public hearing would be held here April 10. The minimum price of wine now is 39 cents a fifth.

The commission recently increased the retail price of all alcoholic beverages except beer and wine by 15 cents a fifth.

Man Agrees Dog Is Best Friend

Sierra City, Calif. — (UPI) — Alex Ostram, 37, of Sierra City, was in hearty agreement today with the old adage that a man's best friend is his dog.

Ostram told Undersheriff Jim Hill he followed his dog to the edge of the Yuba river and noticed a shiny object sticking out of the water. It was an 8 1/2-ounce gold nugget, worth about \$288.

Hill said the nugget probably was washed down from the Sierra by the early February floods.
