

**PLAID WALLPAPER**—Bold plaid wallpaper makes a handsome background for a large chest, which holds hi-fi equipment. For continuity in decorating, the plaid is used in the foyer, and on an adjacent living room wall is a companion paper which reproduces a floral motif from the plaid as an over-all pattern. Papers are "Country Plaid" and "Country Rose" by C. W. Stockwell.

**Blue Work Denim Has Dual Role**

Time was when the lady of the house could get through her daily routine with a few

housedresses and aprons. Today, however, there is another consideration — her dual role: as a homemaker with a million hectic chores and, during leisure hours, as an active participant in community life. Her wardrobe, too, requires more attention and must serve a dual function.

**Array of Fabrics Ready For Brides**

There's a wonderful look of luxury in gowns for spring brides: lace, silk organza and lace tulle are the fabrics that lead in the parade down the aisle. Other brides will be accompanied by the sweet harmony of rustling taffetas, beautifully crisp and princess lovely.

Adding to the look of luxury for spring brides is the elegance of fabulous trims. There are re-embroidered Alencon and Chantilly laces, sequins, seed pearls, and glittering bugle beads for that "shining hour."

Bridesmaids choosing gowns for the spring wedding will find a fabulous collection of versatile frocks that are beautifully right for the wedding, and fit most smartly into the wardrobe for other important occasions.

Bridesmaids will look their loveliest too, in early silk organzas, laces, nylon sheers, tricot and chiffon linens. Taffetas, in simply styled, superbly fashioned dresses, are members of the wedding, too.

**Tire Shipments May Reach All-Time High**

Akron, Ohio—(AP)—American motorists' needs for replacement tires are expected to push auto tire shipments to a record 80 million units in 1963, while an additional 36 million will be needed for new cars, according to a fore-

cast by the Goodyear Tire and Rubber Company.

Demand for truck, farm, aircraft and industrial tires is expected to push total tire shipments to 138 million units, also a new high.
