

SOFT BANGS—Young, sweet and lovely for spring, hairstyle features soft bang, upwep sections caught with rosebuds and back swept down into a small outward flick. For hair grooming, Clairol Condition, a light, white cream.

Loungewear for Leisure Hours

Loungewear leads a fashionable private life for spring. Women can spend their leisure hours in loungedresses, robes and separates that are at-home both in and out of the bedroom.

Natural or shift-shaped loungedresses, in knee to ankle lengths, cover home ground in a flatteringly feminine manner.

The long look, which gained favor in fall and winter, continues for spring in light and airy fabrics, in styles for patio living as well as for sleeping and lounging.

Pared-down loungedresses are preferably printed, in floral, abstract or "conversationalist" motifs. Tent-dress types bloom out in colorful solids and glamorous prints.

"Cover-ups"

Pants and jumper or shift "cover-ups" enable women to be fashionably at ease upstairs, downstairs, all around the house for spring. Long tunic tops and brief bared-midriff styles accompany the pants, which may be any style from slim and tapered to flared bell bottom. Lightly

bloused harem styles are still another choice.

The shapeless robe is a thing of the past. Today's fashionable robes copy coats, narrowing down to favorite spring shapes—sliver slim or in-at-front, free-flowing at the back.

Ready for relaxing are a number of casual toss-ons, inspired by straight, mannish blazer jackets and sweaters.

FOR FEMININITY

Soft shirting, gentle blousing and fluid bias cuts contribute to the shapely, feminine look of spring's new dresses.

COAT PLUS DRESS

The coat takes a dress for an important ensemble look in spring '63. One attractive example is the sleeveless coat with a puffed-sleeved dress.

LADYLIKE SHIRT—Reflecting spring's soft, feminine mood, ladylike white shirt is gored, ruffled and bibbed. Feminine rose-jasmine fragrance lends enchantment to the air. Blouse by Adelaar; Yardley's Bond Street spray mist.

Stylists Report New Season One Of Many "Looks"

Completing and complementing the total look is the aim of hats, shoes and accessories for spring '63. Since there are many looks—all shaped to lines of natural ease and feminine grace—it follows that there is an equal variety in the choice of this season's accents and complements.

For the open-air, casual, country-into-town look, new hat styles headline rounded, rising toques; supple shapes with carefree, slouchy brims; tailored designs with cuff and roller brims. Boldly textured straws and spring felts carry out the theme. All-leather hats and leather trims contribute to the casual mood in an elegant way.

Diversity

Nautical trend of many spring fashions finds its complement in a diversity of sail-or and beret shapes. For

spring's ultra-feminine, romantic fashions, emphasis is on subtle draping of sheer and silky fabrics, in high-rising turbans; on ball-type straw toques and brimmed styles; and on floral hats with curving lines, often angled off the face.

Fashion's skinny, skimpy

Spring Slacks Have Trim, Slim Styling

Trim, slim and comfortable describes the look in new men's slacks for spring. Both belt loop styles and self-supporting models share the fashion spotlight, with pleated and single-pleat styles dividing the honors.

For early spring, lightweight worsted flannels, gabardines and bengalenes set the pace. With warmer weather, look for tropical weights, wash-wears.

shapes, present in great numbers, call for important hats—hats with more bulk and height, but shaped along simple, sophisticated lines. Curvaceous brims and realistic flowers, beautifully united, provide another highlight for the understand look.

Since hair is a hat for many women, millinery designs often concentrate on showing off a coiffure, via off-the-face poses or delectable little whimsies of veils and flowers. Flowers alone, or jewelry, ornament the hair in lieu of a hat. Pins, mar moth earrings, neckline ropes and big wrist bangles accent the understand look.

Pale, powerful whites and pastels make fashion news, and hats both copy and contrast with the pale tones. Rich shades of cocoa enter to accessorize the blazing whites and off-whites.

what's new from GENERAL ELECTRIC

THE GENERAL ELECTRIC AUTOMATIC TOOTHBRUSH

Gives Cleaner Teeth and Gums than You Get Brushing by Hand

Most people do not brush well enough or long enough. General Electric research has answered this problem with the new Automatic Toothbrush, with built-in brushing action that cleans and polishes the teeth as it refreshes the gums. Scientifically selected bristles penetrate between the teeth, reaching difficult places that are usually missed by ordinary hand brushing. At the same time you get healthful care of the gums.

The automatic toothbrush comes in a complete unit including a battery-powered handle—safe, cordless with handy recharging holder; four snap in brushes in personal pastel colors. The whole family will enjoy this method of brushing, especially the children. Quality engineered for long life. Ask your dentist about it.
