

SQUARE DANCE PROGRAM—Joe and Rae Turbovsky, leaders of the Yreka Circle 'N' Square dance club, check over this year's program for the Eleventh Annual Square Dance Jaboree to be held on March 30 and 31 in Yreka.

Arthur Kreisman To Speak At CP Jaycees' Banquet

Central Point—Dr. Arthur Kreisman, Southern Oregon college, will be guest speaker for the Junior Chamber of Commerce distinguished service award banquet to be held in the Crater High cafeteria at 7:30 p.m. March 28.

The D.S.A. is made to an outstanding young man of the community, between the age of 21 and 38.

This year the nominees and the organizations nominating them are: William Brewster, principal at Jewett school, by school district 6C teachers; Don Milligan, assistant fire chief, by the sportsman's club; Don Miller, activities director at Crater, by the Crater PTA; Ernest R. Kennedy Jr., Central Point pharmacist, by the Central Point Jaycees; H. S. Deuel, orchardist, by the Gold Hill Lions

club; and Gay Hallett, president of the Central Point Jaycees, by the American Legion.

Another presentation will be the Senior Citizens award. The Jaycees will also honor their bosses at this banquet. Toastmaster will be Terry Green, Jaycee state vice-president, from Medford.

Tickets may be purchased from any Central Point Jaycee.

City Will Maintain Beach

By MARY KELL
Mail Tribune Correspondent
Gold Hill—The Gold Hill city council took action to make an effort to preserve the beach within the city limits at the swimming hole along the Rogue river near the bridge. Various steps were taken in order that the public may continue to enjoy that scenic area on the banks of southern Oregon's famous river.

The site of the old swimming hole and beach is a favorite to the youngsters and oldsters for swimming, and other outdoor recreation during the spring, summer and

fall months of the year.

In the winter months this area has weathered many storms which have often left the beach in bad shape. However, the city maintenance department upon order by previous councils, has each year cleaned debris and put it in shape for the summer months. It was pointed out that this is actually a recreation area for the townspeople and every effort should be made to keep it that way.

Council action was brought about by different factors: It was reported that persons from outside the city limits have been hauling gravel

from the area without permission, thus leaving large holes on the beach. Several pick-up loads were reported to have been seen leaving the area. Due to this council members voted to authorize the Police Chief, Bill Young to supervise any hauling of gravel from the area.

In order to control the situation it was agreed by council members that only residents within the city limits be given the privilege of taking gravel from the area since they are the ones paying taxes here. The council voted to have a gate installed to block off the beach area and

Regional News

permits to haul any gravel, must be obtained at the city hall from the recorder, Ferd Jones. It is hoped by city officials that the above action will put an end to the gravel problem.

The council turned down a request to operate a gravel business for commercial use. The council was of the opinion this would ruin the swimming and recreation activity in the area for the public, if gravel operations were permitted there.

Since overnight camping in the area is prohibited, blocking off the road to the swimming hole, it is hoped, will end this problem also.

In other action Ferd Jones, city recorder was authorized to be designated as budget clerk for the city.

Police Chief Young was authorized to attend six classes on police school work in conjunction with the League of Oregon Cities to be held during March at Medford.

Rogue River Buys Land For Reservoir

By LAURAINNE LAWS
Mail Tribune Correspondent
Rogue River—A special council meeting was called Tuesday at city hall in the council chambers.

The council agreed to purchase seven and a half acres from Ray H. Powell, Third st., Rogue River, for approximately \$1,500, to be used for the location of another reservoir.

The site purchased is located at the north end of the city. It includes the area of the present reservoir, and the additional property acquired by the city can be used for possible future development of the city. Another reservoir is definitely needed now, and the council indicated it will be built large enough to take care of future growth of Rogue River.

The old reservoir was remodeled in 1951 by Harold Salter. This reservoir has a 150,000 to 200,000 gallon capacity and can serve only about 200 people. The new one is to be built on a knoll and will be at a height to allow better water pressure for all users in the city of Rogue River.

Study Power
A committee was appointed by Mayor John Leyen to study further the matter pertaining to the easements and apply to PP&L concerning electric power for this new project in the area of the new reservoir. The cost of the new project will be further discussed and checked with an estimator.

The next regular council meeting will be Thursday, April 11 at 7:30 p.m. in the city hall, Broadway street, Rogue River.

At another city council meeting, held earlier in the month, a letter was read by city recorder-treasurer Orva Jean Cruise to the council from the State Highway department acknowledging a special request by city for state aid for repair of the streets. If state aid is granted, the work will be done sometime in 1964. This would include from Broadway to Second st., and including Second st. over to the grade school property.

Chairman of the water committee, Arty Laws, reported on the urgent need for more water meters. He said it would take approximately five dozen meters to replace those

now out of order and meter those who do not have meters. He also reported that the increase in revenue by installing these meters as soon as possible would enable the city to improve on the water facilities.

Foy James, chairman of the street committee, reported on streets that were scarified, graded and rolled recently. He said that they were packing down satisfactory. Permission was granted to purchase culvert tile to be installed at the intersection of Broadway and the newly completed Fifth st. and when completed this street will then be open. Patching is now being done on some streets as weather permits.

Mayor John Leyen reported that ballots will be sent with water bills to give the public a fair opportunity to express their opinions of the purchase of property for a city park. This topic has been a debated issue since the city had to sell the old park near the river to the Highway Department for Interstate 5. A portion of the money received from the property was set aside to be used at a later date for a new city park as soon as a suitable location could be found.

Change Age Limit
Fire Chief Donald Campagna requested changing the city fire ordinance to change the minimum age limit of voluntary fire members from 21 to 18. Discussion was held on how much authority a fire marshal has in dealing with fire hazards of private property.

Fire department chairman, Orvis Reeter told the group that the old Marquette fire truck is now being put back in service and that he would check into the cost of tank and fire hose.

He said there is a possibility of getting used fire hose from the old Magnolia mill, adding that he would check into the matter.

Roy Strickland, chairman of the police committee, mentioned that five stop signs and three speed limit signs were needed. Councilmen authorized purchase of the signs.

Mayor John Leyen reminded councilmen that there will be a cleanup day in Rogue River on Saturday, April 6. He urged residents to place their debris in front of their homes to be picked up.

Several Changes Reported At Phoenix Library

Phoenix—Mrs. Joy Stockstill, librarian at the Phoenix library, reports that during the month of February, various changes in the library took place.

A reading room was provided when the partition, which once separated the library from the city offices, was removed.

A donation of a record stand and paper bound book stand, and also the addition of a new magazine rack, added greatly to the convenience of the patrons.

The total of books on hand Feb. 28, 1963, was 3,430. There were 88 special requests during the month. This shows an increase of 46.93 per cent over February of 1962.

Checked out during the month were 644 juvenile books and 724 adult books.

New registrations for the month of February totaled 12 adults and five juveniles, making a total of 17.

Seat Belt Clinic Set In Eagle Point

Eagle Point—A safety check and seat belt clinic will be conducted in Eagle Point for all automobile owners next Saturday, March 30. The clinic is being sponsored by members of the Eagle Point Junior Chamber of Commerce from 8 a.m. to 6 p.m. on Main st. in front of the county shops.

According to clinic chairman Lloyd Mynatt, the clinic will feature the following 10 point safety car check: horn, lights, both rear and front, turn signals, brakes, steering, tires, rear view mirror, windshield wipers, exhaust system and glass.

Seat belts will also be installed complete for \$5 by the Junior Chamber of Commerce at this time.

GERALD GASTINEAU
Will Attend Session

Eagle Point High's Gerald Gastineau Granted Fellowship

Eagle Point—Gerald Gastineau, who is the modern problems instructor and senior counselor in the Eagle Point High school, has been granted a Coe Foundation fellowship from Willamette university for the 1963 summer session.

The Coe Foundation was created for the purpose of assisting colleges and universities to establish summer institutes in American studies for selected teachers and professors to study history, political science and economics.

Willamette university will advance these objectives by offering an intensive and integrated reexamination of American political, economic and social ideals in institutions.

The program will include lectures, seminars, colloquia, individual research and field study.

Now... Enjoy More Electric Living At PP&L's New Reduced Rates!

New lower electric rates, which went into effect March 22, will bring savings of up to \$14 annually for PP&L residential customers in southern Oregon. Now is your opportunity to enjoy more of the comfort and convenience of modern electric living by adding that new range, clothes dryer, dishwasher or whatever electric appliance you've been wanting.

For example, if you are not among the thousands of customers using fast, clean electric water heating, you can now enjoy this modern service at a saving. The new rates include a block of 540 kilowatt-hours at just 1¢ per KWH. This is of particular benefit to water heating customers, although equally available for any use you may wish. So see the new electric appliances at your dealer's soon.

PP&L's new rates also will offer many advantages for commercial and industrial customers in the southern Oregon area. So as always, from making your coffee and toast in the morning to turning the wheels of the area's payroll industries, you can count on dependable PP&L electricity to serve you best, today and in the years ahead.

You'll like a quick-recovery electric water heater!
