Chicago Mayor Faces Vote Test

Chicago—UPI—Mayor Richard J. Daley's high powered political machine was geared for another test of its strength today when voters elect a mayor for the nation's second largest city.

Daley, seeking a third term as head of the city, was opposed by Benjamin S. Adamowski, a Democrat turned Republican who as state's attorney general charged vote fraud in Cook county during the 1960 presidential election.

Both camps forecast victory. Most political observers predicted a lethargic turnout about only one million of the city's 1,718,760 registered voters—despite 80-degree temperature and sunny skies.

An Adamowski win would rank as one of the biggest political upsets since Harry S. Truman surprised Thomas E. Dewey in the 1948 presidential election. However, Daley's supporters conceded Illinois' top Democrat would see his plurality decreased from his 1955 figure of 447,000.

Political observers said the good voting weather might bring out more Republicans and a present vote apportionment might help.

DENY REPORTS

Madrid—UPI—The Spanish government today denied it had agreed to let France use the Spanish Sahara as an atomic testing ground, as reported in the United Arab Republic. "There is absolutely no truth to such reports," a government spokesman said.

The Russians are hinting that they are about to blast off to the moon just any day now. This means that they're going to beat us to it if we don't get off the ball.
