

## Budget Group Plans To Consider Eight Requests in Week

The Jackson county budget committee will meet Monday and Tuesday to consider eight remaining budgets, it was reported Friday.

Remaining budgets are: courthouse expense, miscellaneous general county, surveyor, watermaster, county agent, capitol improvements, county school fund and county historical fund.

Thursday afternoon, the budget committee approved the Jackson county parks and recreation budget at \$103,834, a \$436 decrease over the current budget. It transferred \$18,930 to the road department for development and maintenance of park roads.

### Eliminate Planner

The committee eliminated a county planner, cut the vehicle equipment fund from \$5,000 to \$2,000, allowing for one pickup instead of two; cut the building improvement fund from \$11,500 to \$5,000, reduced grounds maintenance from \$6,000 to \$5,000, and cut technical equipment from \$5,174 to \$1,000.

The committee boosted the land acquisition fund from \$2,000 to \$8,000.

The print shop budget total was approved at \$12,880, down \$6,820 from the current year. Main reason for the overall reduction was that less equipment and fewer supplies are needed this year.

### Budget Approved

Purchasing department budget was approved at \$10,064, down \$523 from the current year with fewer supplies needed for the new fiscal year.

The general fund section of the dog control budget was approved at \$9,446, the same as the current year, to cover operating expenses. The allocation of \$12,000 for gas, oil and equipment repairs was transferred to the road department.

The committee allowed \$1,500 instead of the requested \$2,000 for travel expenses, \$2,000 for a new pickup truck and \$1,146 for two new mobile radio units.

The dog license fund section of the dog control budget was approved at \$18,821, the same as the current year, compared to the \$21,205 requested.

### Road Department Money

The road department budget for the new fiscal year has

been set at \$1,659,062 by the county budget committee, down \$2,757.50, it was reported last week.

Main budget items are bridges, road oiling and paving and equipment. These three items are \$78,000 down from the current year's allocation, chiefly since considerable bridge work was done this year.

The inter-departmental allocation is \$30,195, slightly up from the current \$29,305. This section covers gas, oil and repairs for other departments, but administered by the county road department and work on county parks and recreation area roads.

## Highway Routes Show Increased

Major highway routes in Jackson and Josephine counties had substantial increases in traffic during February, 1963, compared to February, 1962, according to the state highway department.

This increase was noted throughout the state.

The greatest increase was noted on Highway 66 seven miles east of Ashland, where travel was up 23.2 per cent. This was a 32 per cent increase for the first two months this year.

Highway 99 travel two miles south of Talent was up 6.2 per cent over the same month a year ago, and 11.4 per cent for the first two months.

Highway 62 four miles south of Shady Cove showed a traffic increase of 4.3 per cent, and Highway 238, one mile west of Ruch had an increase of 3 per cent.

Highways in Josephine county showed increased traffic on Grave creek rd., seven miles north of Grants Pass up 6.4 per cent and Highway 199, one mile north of the Oregon-California state line .8 per cent. Jump Off Joe county road nine miles north of Grants Pass showed a traffic decrease of 9.6 per cent.

Traffic in Medford on East Main st., east of Geneva st., decreased 1.9 per cent compared to the same month a year earlier, and .2 per cent increase for the first two months.
