

Senate To Vote Tuesday on Creation of Wilderness System

Washington—(UPI)—The Senate agreed today to vote Tuesday on its bill to create a national wilderness preservation system.

With Sen. Clinton P. Anderson (D-N.M.) predicting the bill's passage, debate on the measure opened today but most Senate members were committed to attend the opening day baseball game and a short working session was scheduled.

The Senate agreed to meet at 10 a.m. Tuesday and start voting on amendments to the bill one hour later. This assured a vote on passage Tuesday.

Sen. Peter H. Dominick (R-Colo.), who favors a wilderness system to preserve millions of acres in its natural state, said the pending bill would have trouble passing the House.

Dominick, like some other Republicans, challenged the bill's failure to give Congress more control over additions to the wilderness system.

He noted that the report, which was issued last year, had recommended the setting aside of primitive areas as called for in the bill.

The bill ought to pass easily this time," he said. The legislation would immediately place 36 million acres of public lands into a national wilderness preservation system. However, supporters of the bill said 23 million acres would be subject to early review and possible removal from the system.

Sen. George D. Aiken (R-Vt.) told Anderson he would support the bill even though it covers no areas in his state.

The New Mexico Democrat said opponents of the wilderness bill had sought to stall action on it in 1961 on grounds that Congress should await a report by the Outdoor Recreation Resources Review commission.

Canadians Casting Ballots For Members of Parliament

Montreal—(UPI)—Eight million Canadians were expected to vote today in a national election which may prove crucial in U.S.-Canadian relations, particularly in the area of nuclear arms for hemispheric defense.

Members of Parliament will be chosen from 265 districts spread across a country with an area almost as big as Europe and a population no larger than California. The polls opened at 8 a.m. local time and will close at 7 p.m. First results are expected about 3 p.m. (PST).

Under the parliamentary system the new government and its prime minister will be decided by which political party wins the most seats in the House of Commons.

Of the four parties in the running, only two—Prime Minister John Diefenbaker's Conservatives and the Liberals, led by Nobel Peace Prize winner Lester B. Pearson—have enough national support to win. The Liberals, according to the pollsters, are slight favorites.

If, as most pundits predict, neither major party wins a clear majority, the key to the new Parliament, like the last one, will lie with two "splinter" groups, the right-wing Social Credit and the Socialist New Democrats. These minority parties have regional strength, but no real national following.

They held the balance of power last June after an indecisive election which saw the Conservatives fall from a record 208-seat victory in 1958 to a shaky 116-member minority. The Liberals won 100 seats, the Social Credit party captured 30 and the New Democrats won 19.

Relations with the United States, particularly with the Kennedy administration, and the sensitive question of nuclear arms had been in the forefront of the hectic six-week election campaign that ended officially on Saturday.

Liberals Favor Warheads
On nuclear weapons, the extreme positions are represented by the Liberal pledge to "keep our commitments" and obtain U.S. warheads for Canadian forces at home and with NATO in Europe; and by the New Democrats' flat opposition to atomic weapons in any place in any form.

In between are the Conservatives, whose government acquired a nuclear-armed weapons system during the past five years, but appeared reluctant to accept the warheads; and the Social Crediters, whose national leader, Robert N. Thompson, would leave the issue to a non-partisan Commons committee, but whose French-Canadian deputy is opposed to nuclear arms.

This issue has dominated Canadian politics ever since the U.S. State Department issued a statement criticizing Diefenbaker's nuclear policy and setting off the crisis that culminated in defeat of the minority Conservative government and the calling of the election.

Sen. George D. Aiken (R-Vt.) told Anderson he would support the bill even though it covers no areas in his state.

The New Mexico Democrat said opponents of the wilderness bill had sought to stall action on it in 1961 on grounds that Congress should await a report by the Outdoor Recreation Resources Review commission.

Foreign Briefs

DONOVAN DISCUSSING PRISONER RELEASE
Havana—(UPI)—New York Attorney James B. Donovan was reported back in Cuba today for negotiations with Premier Fidel Castro on the release of about 30 United States citizens serving prison sentences here.

A reliable source said Donovan spent the day at a government resort at Varadero Beach east of Havana Sunday, probably talking with Castro.

AVALANCHE KILLS FIVE IN ITALY
Bolzano, Italy—(UPI)—An avalanche thundered into a valley near here today, killing five workers and critically injuring a sixth.

All six men were working on a local tunnel in the Cesen valley, about seven miles from Selva Dei Molini in north-eastern Italy.

MANY BELIEVED DEAD IN COLOMBIA FLASH FLOOD
Bogota, Colombia—(UPI)—Rescue workers sought today to recover the bodies of nearly 40 persons believed drowned by a flash flood in the interior town of Santa Teresa.

Heavy rains caused the river that runs through Santa Teresa to rise suddenly. Its waters surged through the streets of the town Saturday night, destroying more than 25 houses.

'RED DEAN' PREACHES LAST SERMON
Canterbury, England—(UPI)—The 89-year-old "Red Dean" of Canterbury, Dr. Hewlett Johnson, preached his last sermon Canterbury, Dr. Hewlett Johnson, preached his last sermon month.

The Dean, who often has espoused left-wing causes, and delivered controversial sermons in his 31 years in the Canterbury post, confined his final sermon to religious themes.

Legislature Turns To Discussion of Drugs in California
Sacramento—(UPI)—The legislature turned its attention to drugs today.

Before the Senate business and professions committee was a bill by Sen. John A. Murdy (R-Santa Ana) to put the use of the drug chloramphenicol under strict controls.

Widespread Gains Scored by Stocks
New York—(UPI)—Stocks scored widespread, moderate gains today.

Chrysler gained over a point to a new 17-year high in the autos and others in the group were up fair-sized fractions, GM hitting a new record.

College Club Prints Small Newspaper
Ashland—Members of the Southern Oregon college International Relations club have published a small newspaper called the "International Relations Club Perspective."

It was announced by Hugh G. Simpson, director of information. As Southern Oregon college will represent Bolivia at the Model United Nations Conference this year at San Jose State college, a portion of the first edition was devoted to information concerning that country.

McMinnville Girl Miss Wool Runner-Up
San Angelo, Tex.—(UPI)—Mary Ellen Vinton, 23, McMinnville, Ore., was named first runner-up in the Miss Wool of America here Saturday night.

Cheri Slikkern, 18, a student at Bakersfield, Calif., Junior college, was chosen winner of the contest in competition with 20 other beauties from wool-producing states.

Legislature Turns To Discussion of Drugs in California

Sacramento—(UPI)—The legislature turned its attention to drugs today.

Meanwhile, the Senate judiciary committee continued its hearing on dangerous drug legislation sponsored by Gov. Edmund G. Brown and Atty. Gen. Stanley A. Mosk.

Before the Senate business and professions committee was a bill by Sen. John A. Murdy (R-Santa Ana) to put the use of the drug chloramphenicol under strict controls.

Murdy's legislation was almost identical to a bill turned down by the lawmakers in 1961. It asked every pharmacist who sell chloromycetin or any derivative of chloramphenicol to affix a distinctive warning label.

The label would say: "This preparation contains chloramphenicol, a good but dangerous drug. Take only as prescribed by your doctor and do not repeat, except at his direction. Insist on blood studies."

The drug, a powerful antibiotic, is chiefly used against typhoid fever, and its use has been attacked for causing deaths through a bone marrow disease, aplastic anemia.

Billy Graham Gets Medical Release
Honolulu—(UPI)—Billy Graham said he plans to return to his Minneapolis office tomorrow or Wednesday and then start plans for his participation in the 1964 World's Fair at New York.

Doctors decided Sunday that the evangelist was cured of enterocolitis, a gastric-intestinal infection, and could return to work. The illness forced him to remain in a Honolulu hospital during a crusade in Asia. He left the hospital several weeks ago and went to the island of Maui for a rest.

Graham said he will go to Switzerland in early May to perform the marriage ceremony of the wedding of his daughter, Virginia, to a Swiss businessman. He is scheduled to open a major crusade in France about May 10.

My false teeth were killing me...
I tried all the pastes and powders and pads. Same old trouble! Rocking and slipping made my mouth sore and made me irritable. Then I spoke to my dentist... he told me about CUSHION, the soft-flowing plastic that molds to the gums. Now I eat what I want—enjoy what I eat—and my gums feel so good. CUSHION stays soft... that's its secret... and slipping made my mouth sore and made me irritable. Then I spoke to my dentist... he told me about CUSHION, the soft-flowing plastic that molds to the gums. Now I eat what I want—enjoy what I eat—and my gums feel so good. CUSHION stays soft... that's its secret... and slipping made my mouth sore and made me irritable. Then I spoke to my dentist... he told me about CUSHION, the soft-flowing plastic that molds to the gums. Now I eat what I want—enjoy what I eat—and my gums feel so good.
