Requests Exceed Funds Sought for Oregon Program

Salem—Dr. Leon P. Minear, state superintendent of public instruction, said the Oregon Program Advisory committee has recommended a curtailment of requests for grant funds from every school and college participating in the Oregon Program because the total requests exceeded the available funds by more than \$400,000.

Oregon Program activities are designed for the improvement of instruction and teacher education.

The state department of education staff is conferring with each school and college during the week of April 8 to develop agreements on final details of proposals. This will serve as the basis for specific recommendations which Dr. Minear will make to the state board of education for official approval April 16 when the Board meets in Salem.

Members of the State Advisory committee, which has been in session for the past several days in Salem, include Dr. Gerald Wallace, superintendent of Benton County School district 509J at Corvallis; Dr. Melvin W. Barnes, superintendent of Multnomah County School District 1 at Portland; Dr. Paul B. Jacobson, dean, school of education, University of Oregon, Eugene; director of teacher education, Oregon College of Education, Monmouth; Dr. Willard Bear, assistant superintendent of public instruction; and Dr. Allen Lee, administrative assistant to the superintendent.

The districts and colleges participating in the program are Beaverton, Beilhe, Coos Bay, Corvallis, Dallas, David Douglas, Eastern Oregon college, Eugene, La Grande, Oswego, Lewis and Clark, Linfield, McMinnville, Medford, Milwaukie School District UH5, Newberg, Oregon College of Education, Oregon State university, Pendleton, Portland, Roseburg, Salem, Southern Oregon college, Springfield, Stayton, University of Oregon. Also included are a State-Marshall "flexible scheduling" project at Marshall High school in Portland, and a State-New Technology project.

Rogue River Spring Concert Scheduled
Rogue River - The Rogue River elementary school will present its Spring Concert at the Rogue River High school gym at 8 p.m. Friday, April 12.

The seventh and eighth grade choruses from Rogue River and Evans Valley, along with the advanced bands from both schools, will present several selections. The concert will be a repeat of a concert given last Friday at Evans Valley.

The band, of about 50 members and the chorus of about 100 voices, will be under the direction of Bill Osmer, music instructor at Evans Valley, and Ken Brew, music director for the Rogue River schools.

The chorus will sing several sacred and spiritual numbers in keeping with the Easter season.

All beginning band students also will present several numbers.

VA Program Needs Changes of Address

According to the administrator of veterans affairs, the biggest block to the smooth operation of the Veterans administration program seems to be the tendency of the American veteran to change his place of residence.

More than half of all the veterans in the United States were living in a different house in 1960 than in 1955, according to a study recently released by the bureau of the census.

In addition, one veteran in every ten was living in a different state.

This shift in location would pose no problem to VA processes if the veteran would notify promptly the VA or their former postmasters of their new address.

Unfortunately large numbers of them never do, and as a result, VA pension, compensation, or insurance checks are undeliverable and are returned to the Treasury disbursing office.

If the following month's check is also returned, no further monthly mailings may be made. Thus the veteran has unintentionally cut off his own VA payments, until he later makes his whereabouts known.

During January, 1963, the records at the VA Data Processing center, Hines, Ill., show that 67,268 veterans changed their addresses. Some of them notified VA or their former postmasters but 24,509 checks were returned for lack of delivery information.

This oversight often works hardship, especially when the checks are intended for widows with small children who rely upon them as their main source of income.

Annual Meeting of Purchasers Slated

Thornton added that all persons attending the meeting are urged to participate in the discussions and exchange of views.
