

Tornado Tracksters To Engage Roseburg

First dual track meet for Medford high this season is set for Saturday at the Medford stadium.

The Black Tornado will take on the Roseburg Indians. First of the field events will get under way at 1 p.m. First running event is planned for 1:30 p.m.

Both varsity and junior varsity divisions will be contested.

Medford Coach Dean Benson said that because the high school baseball field will be in use by the Medford Jayvees against Prospect, three field events will be staged at Jefferson school at 1 p.m. These are the javelin, the shot put and the discus. Pole vault and high jump will be the opening events at the stadium. First race will be the high hurdles.

An ex-McLoughlin Junior high and Medford High school assistant mentor will bring the Indians to Medford. He is Jack Burg who left Medford to take the head track coach job at Roseburg.

Medford goes into action after a victory in the Rotary meet last week end at Grants Pass. Roseburg contends after a 59 1/2 to 62 1/2 loss to Crater on Saturday.

Roseburg features such performers as Mike Crumican in the mile and half-mile, Al Joelson in the high jump, Tom Dodge in the pole vault and Barry Grant in the 440 and 220-yard dash.

Medford has the likes of Jim Hill and Mike Diebele in the sprints; Steve Toews and Jim Snodgrass in the half-mile; Dennis Brumback in the mile; Hill, Jim Cain and Lloyd Hammons in the broad jump and Hammons and DeWayne Turpin in the pole vault.

Davis Returns

Medford Coach Dean Benson, said that Steve Davis, high jumper who had an appendectomy at the last of March before Medford's first meet, plans to "give it a try" this week. Benson reported Tim Murray will not throw the javelin and discus this week because of a wrenched back.

The coach reported a lot of small ailments among his squad members.

Benson ran both Toews and Snodgrass in the quarter-mile and Toews, Brumback and Snodgrass all three in the half last week but indicated he would not double up his runners this week.

The javelin, discus and shot put cannot be contested in the stadium because of the turf rebuilding project underway.

DISTANCE MAN—Dennis Brumback, above, is a mile and half-mile runner for the Medford high track team which meets Roseburg at the Medford stadium on Saturday afternoon.

Woods, Water, Wildlife

By Hank DeVoss

Opening day of the 1963 trout season began the way a trout season can be expected to begin. The weather was miserable enough to make any success in fishing quite worth while. Anyone who could survive the cold long enough to catch a few fish could also feel that no matter how puny or dark the fish may be it was quite a fish. If he wasn't too numb from the cold to feel anything, that is.

A TYPE

One type of fisherman to be found on opening day is one who must have spent the summer months of the year before trying to catch fish but not succeeding. Let's call him the "Ambitious Annual Angler" and observe some of his features.

1. He's bound and determined to catch his limit, and if he doesn't succeed he's sure the day has been a total loss.

2. Once he catches his first fish he has become an expert, and he is quite sure fishing would be better if the fisherman.

3. When one examines the "phenomenal catch" made by this angler, it appears that he uses a rubber ruler, a sprung spring, and is color-blind. His fish are at least two inches shorter than reported; he can't figure weights of less than a pound; and a "bright" fish really means the fish has more colors than a rainbow and is about to spawn.

4. His idea of a proper outfit for a fishing trip is enough booze to make it seem like he's really having fun. It would be hard to prove he isn't, so why try?

A SPORT

Opening days of fishing seasons make it difficult to concentrate on fishing. If the fish are small it is more fun to take up "people watching" and see if the new year has brought out any new varieties. It's pretty certain that all of the varieties can be found around here.

LEGISLATION

Some of the legislation to be considered by the state legislature during the present session might hold some interest for those sportsmen who are concerned with change.

Senate Joint Resolution 7, which is to create an interim committee to study the wildlife resources in the state, was reported out of the fish and game committee to the House ways and means committee on March 22. No change since.

Senate Bill 49, which is to provide the \$35,000 for the interim committee investigation, has been with the House ways and means committee since March 22. No change.

House Bill 1458, the bill hoping to make deer sacred, has been with the House fish and game committee since Feb. 18. No change.

Senate Bill 283, forbidding the shooting of cow, calf, and spike elk, has been with the Senate fish and game committee since Feb. 20. No change.

House Bill 1650, setting a license fee of \$10 on all boat trailers, has been with the tax committee since Feb. 26. No change.

Too Bad? WHO SAYS? Many years ago the Rogue River coordination board was established as a means of con-

SPORTS

Crater Cindermen Top Bruins 78-44

Central Point - Crater high and field team downed the Ashland Grizzlies 78 to 44 here last night in a rain-drenched meet.

Marks were considered terrific considering the "ankle deep" mud and water with which the athletes had to contend.

Comets won 10 of the 14 first places in piling up their 34-point spread.

Double winners for Crater were Gary Wald in the 100 and 220-yard sprints, John Harris in the shot put and discus and Paul Branson in the low hurdles and broad jump.

Gerald Brown won the mile for Ashland and tied with teammate Jack Price in the half. Other Ashland victors were Jim Lamb in the high jump and Tom Huff in the javelin.

For Crater Vern Swanson took the high hurdles, Gary Price the 440-yard run and Greg Faulkner the pole vault. Also victor was the Comet half-mile relay team of Branson, Swanson, Denny Ryonson and Wald.

It was the second dual win for Crater over Ashland. The Comets earlier beat the Grizzlies in a short distance event.

Ashland will be host on Saturday to Douglas with the meet to open at 2 p.m., according to Coach Hiram Crane. Crater Coach Ed Knapp said that he is giving his athletes the week end off to "go fishing."

High hurdles—Swanson, C. Ekwall, A. Armstrong, C. 17.2, 100—Wald, C. Mowry, C. Boyce, A. 10.0.

Shot put—Harris, C. Sorenson, A. Young, C. 43-8 1/2. Discus—Harris, C. Sorenson, A. 100-0. Javelin—Huff, A. Berenssen, C. Summerfield, C. 176-6.

Low hurdles—Branson, C. Ekwall, A. Armstrong, C. 21.5. Broad jump—Branson, C. Taylor, C. Boyce, 21-7.

High jump—G. Brown and Jack Tyler, A. Price, C. 212. Pole vault—Faulkner, C. J. A. P. Brown, 10-6.

Relay—Crater Branson, Swanson, Ryonson, Wald, 1:39.0.

MUD BALL

The Jo Jo Mine, located on Coyote creek, tributary to Wolf creek, tributary to the Rouge, gets the mud ball of the week for continuing operations set April 15, the deadline set by the coordination board. Let's see what teeth, if any, the board has. If it doesn't have any, it's time to let the state sanitary authority step in and shut the mine down hard. It has a right to use the water, but not exclusively.

THE ANGLER'S LOG

The latest report from Gold Beach claims salmon catches that exceed anything seen in the past 15 years. The water is cold up here, but Galice had some action from three salmon yesterday. It won't be long now.

Fish Lake—The lodge reports that fishing is good. About two-thirds of the anglers are getting limits, most of which are brook trout. Size range is from seven to 18 inches. Roads are in good shape, but there's eight inches of snow on the ground.

Howard Prairie—Fishing is still good with black spawners showing in the larger sizes. These fish can be avoided by staying away from the shallow water and the creek mouths. It should be another tremendous season for this lake.

Hyatt Lake—Fish up to 22 inches are coming out. Not too many, but enough to make the trip worth while. It's still cold and the roads aren't too hot either.

Lake of the Woods—Still fishing with eggs is supposed to be the "shaggy touch." It's still too cold, but the fish are reported to be in the 20-inch class.

Squaw Lake—The roads aren't too good, and the fishing is reported as not too hot. There have not been many fishermen as yet and that may be a good reason. I didn't say what for.

Willow Lake—Mostly 10 to 12 inch rainbows. An occasional 17-inch is showing, and the kokanee are running about 15 inches. Roads are in good shape.

THE OPTIMIST'S CORNER

The bureau of reclamation reports that the right motors for the screens on Savage Rapids dam will be in operation soon. The sooner the better.

GOOD LUCK!

MUST HAVE EXAM Stockholm - (UPI) - Ingemar Johansson, former world heavyweight boxing champion, will not be allowed to fight again until he is examined by a neurologist, it was learned today. The decision was made by the professional boxing commission of the Swedish Boxing association.

New York - (UPI) - Peter Snell

of New Zealand, the world record holder for the mile, and countryman Murray Halberg, the 1960 Olympic 5,000-meter champion, will compete in the United States in May and June.

Mrs. Blind President Of Bowlers

Mrs. Gertrude Blind has been elected president of the Medford Woman's Bowling association.

She was elected at the annual spring breakfast meeting last Sunday at Rogue Valley Country club.

Others elected were Eva Sessions, sergeant-at-arms, and Ethel Champion, Del Christianon, Geraldine Gardner, Marge Hennebeck, Eleanor Holbrook, Joyce Jack, Cloie Martin and Esther Mohr (two-year terms) and Elsie Baker, Gwen Brendle, Elaine Brown, Helene Culy, De LeRoy, Bea Matthews, Dorothy Nease and Helen Oakes (one-year terms), all directors.

Remaining in office for a year are Vivian Bateman, vice president, and Vivian Knox, secretary-treasurer.

Bowling attire was modeled at the breakfast by Pat Braack, Elaine Brown, Ginnie Brown, Helene Culy, Billie Davis, Donna Hunter, Madeline Kennedy, Shirley Lewis, Doris Nelson, Roberta Travis and De LeRoy. Music for the show was provided by Bernice Mayhan and commentary by Maxine Janzen. Bowling attire was furnished by Southern Oregon Trophy company, shoes by Burelson's and hair styling by Winnie's salon.

Flag salute opening was led by Janet Smith, Sharon Ann Robinson and Tanna LeRoy of the Tayuska Camp Fire Girls group.

Mrs. Blind and Mrs. Teddie Farrar have left to attend the convention at Memphis, Tenn., of the Woman's International Bowling congress.

Trophies were presented at the breakfast to winners in the recent Medford association tourney. They were:

Teams - Olson-Lawyer Lumber Club, Southern Oregon Tailors, Class B; Zephyrettes, Class C; Doubles—Anna Dale Bohannon and Kay Smith, Class A; Grace Hunter and Eileen Hunte, Class B; Kathryn Cox and Veta Higday, Class C.

Singles - Dottie Veal, Class A; Wilma Logan, Class B; Alta Hancock, Class C.

Scratch all-events - Smith, Class A; Honey Hobbs, Class B; Cox, Class C.

Handicap all - events - Hunting, Class A; Joyce Thornton, Class B; Higday, Class C.

Webfoots Picked Over WSU Cougars

Eugene - (UPI) - Oregon's strong track team, minus a two-man entry in the Mt. San Antonio Relays and two injured javelin throwers are heavy favorites to beat Washington State Saturday in a dual meet at Pullman, Wash.

Coach Bill Bowerman was so confident of a victory that he detached high jumper Paul Stuber and half-miler Ray Van Asten and sent them to Walnut, Calif., to participate in the Mt. San Antonio Relays Saturday.

School record holder John Burns and Les Tipton, Bowerman's two top javelin throwers, are out of that event because of minor injuries suffered last week end.

Fanfare

By DICK JEWETT
Mail Tribune Sports Editor

Don Fair in the Portland Oregonian said that John Burns, ex-Crater high, "almost put his second javelin throw into orbit" last Saturday when he heaved the spear 250 feet 1 inch for University of Oregon against Brigham Young university.

Burns, who threw his career best, broke a school and Hayward field record. He told Jerry Uhrhammer of the Eugene Register - Guard, "I couldn't believe it. . . This happens to other people but not to me. . . I knew I got behind it. . . and it had good flight. I got everything together for once."

Carl Cluff of the Oregon Journal mentioned that Burns' toss put him among the top four collegians this season and that none of his throws was under 218 feet.

HOPE ALL GOES WELL We are happy to see an enlarged Southern division for American Legion junior baseball. We just hope that nothing goes wrong and that all the teams are on hand when league play gets underway.

The couple of additional fees, making a seven team league, should make the race much more interesting.

Ed Bingham, Medford, rolled into top spot in the 180 and under division last week end in the All-Coast Bowling tournament at Vancouver, Wash.

He had scratch games of 279, 222 and 193 for 694 series and his 60 pins handicap total gave him a 754. His 279 scratch tied him for high game.

Furthest Liddell and Tom Hutchison of the Mail Tribune staff, went into second spot in Class C doubles with a 1330 count. Hutchison rolled a 582 game and Liddell a 538 for 1116 scratch total.

ALL-AMERICAN MENTION "Coach and Athlete" magazine has notified Jim Calhoun, St. Mary's high quarterback, that he has received honorable mention on the magazine's prep All - American football selections.

COZY BOOTH At previous track meets we've attended at Grants Pass, we've set up our typewriter on an unsheltered scorer's and announcer's table. At the Rotary meet last Saturday the facilities were different.

Athletic Director Jess Loffer had a cozy frame and plywood booth set up in the infield of the oval. We were under cover and out of the chilling wind.

CRAMPTON AHEAD

San Antonio, Tex. - (UPI) - Bruce Crampton, a 27-year-old bachelor from Sydney, Australia, is on top of his game and means trouble for Arnold Palmer and the rest of the field at the \$30,000 Texas Open golf tournament. The handsome Aussie bared around the Oak Hills Country Club course in 84 strokes Thursday-seven-under-par to take a two-stroke lead at the end of the first round.

Speaking of Vancouver - We understand that Grants Pass has filled its open football date with a team from Vancouver, B. C. Someone has suggested that Medford make inquiry to Hawaii to see if the Black Tornado can fill out its schedule. Grants Pass reportedly already has done this.

MAY ADD TWO MILE Report is that prep track in Oregon may have more distance glamour added next season with the two-mile run possibly added to the list of events. That will make 15 events on the standard track meet slate.

We note 17 events on the college slates now with the addition of the trip jump (hop, step and jump). And, the 330 yard intermediate hurdles seem to have replaced the 220 hurdles in the college meets.

ALL-AMERICAN MENTION "Coach and Athlete" magazine has notified Jim Calhoun, St. Mary's high quarterback, that he has received honorable mention on the magazine's prep All - American football selections.
