

# Yanks Roll on Full Tank; Ford, Pepitone Spark Win

By MARTIN LADER  
UPI Sports Writer

It won't require any kind of medical knowledge to establish that all is well with Whitey Ford's left arm. It's also just as basic to baseball fans that they'll have to find another excuse if they expect the New York Yankees to lose the pennant.

## Ron Fairly Rap Saves LA Dodgers

Pittsburgh—(UPI)—The Los Angeles Dodgers, saved from their fifth straight loss yesterday by Ron Fairly's last-out homer, encounter the second-place Pittsburgh Pirates tonight in the first of a four-game series.

The Pirates have announced Don Schwall, 1-0, the ex-Red Sox hurler, as their starting pitcher. Larry Sherry, 0-1, assumes the injured Sandy Koufax' spot in the pitching rotation and will start for the Dodgers.

The Dodgers were one out away from their fifth consecutive defeat yesterday in Philadelphia when Frank Howard blooped a single and Fairly smashed a home run over the rightfield wall to give the Californians a 3-2 victory.

Art Mahaffey of the Phils was on the verge of gaining what would have been his second victory of his career over the Dodgers.

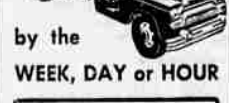

On the other hand, Dodger starter Don Drysdale had 13 straight wins over the Phils before the game. He was lifted for a pinch-hitter in the eighth inning after allowing only four hits.

**BRODIE HURT**  
Palo Alto, Calif. — (UPI)—Quarterback John Brody of the San Francisco Forty Niners lost control of his car on a curve in nearby Menlo Park early today and suffered scalp lacerations and a broken right arm. Brody was taken to the Palo Alto Medical Center here where his condition was reported as satisfactory.

Menlo Park police said the accident occurred about 2:50 a.m. when the professional football player lost control of his car and smashed into a large oak tree. Brody was alone at the time of the accident.

**KNEE SURGERY**  
Eugene — (UPI)—Sophomore tackle Roy Fowles underwent knee surgery Thursday and will be lost to the Oregon football team for the remainder of spring practice.

## Rossetto Heads OCC In Batting

Portland — A new leader climbed to the top of the Oregon Collegiate conference batting race last week end. He's Southern Oregon's Damien Rossetto, who rapped out six hits in 11 times at bat against Portland State, to build a .588 average.

# Woods, Water, Wildlife

By Hank DeVoss

The wilderness bill, S. 4, has been approved by the Senate and sent to the House where it has been referred to the interior and insular affairs committee. The Senate approved the bill 73 to 12, comparable to the 78 to 8 vote it cast in favor of a similar bill in 1961. The Senate action was somewhat unexpected, in that interested persons had been told that consideration of S. 4 on the floor was not likely until after Easter, the Wildlife Management Institute reports.

**AMENDMENTS**  
In approving S. 4, the Senate rejected three amendments that conservationists believe would have been particularly harmful to the establishment and administration of the proposed national wilderness system. They involved an extension of time for mining exploration in wilderness areas and the procedure by which national forest primitive areas would be incorporated into the overall wilderness system. The amendments that were adopted were largely minor in character.

**STEELHEAD RELEASED**  
The game commission is in the midst of its second attempt to build up the summer steelhead run in the Rogue River by means of the streamside rearing pond method. The Medco pond located on the Butte Falls-Prospect road is being drained of its water and at this time has yielded 65,000 yearling summer steelhead that are indicating a yen for the ocean. These fish are being taken to the Butte Falls hatchery and will be marked before their release in the main stem of the Rogue. It is hoped that they will be well on their way before the opening of the river to trout fishermen on May 25.

**FAIR RETURN**  
Last July the commission put 137,000 fry in the pond, and so far it looks as though the survival will have been 50 per cent. There have been no catfish in evidence, a factor that ate up most of the first plant in 1961, and hopes are high that they were finally poisoned out a year ago. If the pond stays clear of catfish and other trout munchers, the commission plans on expanding the program to many more fish and perhaps an increase in pond area.

**RESEARCH PAYS OFF**  
The commission is finding that its research on steelhead of the Alsea river is paying off to the tune of a 90 per cent return of planted fish. If this could be duplicated on the summer steelhead of the Rogue, we would be on our way to a return of some of the good old days. Imagine a summer run of 30,000 steelhead!

**THE KEY**  
The key to the large return of Alsea steelhead appears to be the time of release. Present experiments indicate that when young steelhead are released at the smolting stage they seem more able to sur-
