Machinists To Vote On Boeing Contract

Washington—UPI—At President Kennedy's request, machinists union members with the Boeing company will vote May 10 on a proposed contract.

Albert J. Hayes, president of the union, said the vote was scheduled at Kennedy's request following "changes in and clarification of its previous offer" by Boeing.

Hayes released a telegram he received from Kennedy which said:

"The continuation of the dispute between the International Association of Machinists and the Boeing company is of grave national concern. Any interruption of opera-

tions at Boeing facilities at this time would have a serious impact on the defense posture of the nation.

In view of the most recent developments and proposals in these negotiations since the last vote, I urge that the IAM withhold its announced strike action and re-submit this matter to the union membership."
