Retail Food Prices To Remain Stable

Washington - (AP) - The Agriculture Department said today retail food prices for the remainder of the year are not expected to change much from prices which prevailed in the first three months of 1963. Meat prices are expected to average lower but higher prices are indicated for citrus fruits, cereal products, sugar, and some vegetables, the department said in a review of the national food situation. Per capita consumption of food products in 1963 is expected to rise above that of last year, the department predicted. Output of food products is expected to rise by somewhat more than the anticipated 1.4 per cent increase in total population.
