

Hatfield Again Urges Joint Meeting To Draft Tax Program

Governor's Proposed Special Education Budget Cut by Ways and Means Subcommittee Action

Salem - (UPI) - A \$786,000 reduction in the governor's proposed budget for special education programs was voted Saturday afternoon by the Ways and Means Education Subcommittee.

The cuts, however, were offset by \$1.1 million added earlier to special programs for mentally retarded and physically handicapped children.

The basis for the cuts was a policy decision by the subcommittee that the state should begin to withdraw from special programs.

Rep. Stafford Hansell (R-Hermiston) said the intent should be to stimulate local school districts to take over and carry on the special programs.

The cuts were made in the governor's proposed \$155 million budget for schools and for the Department of Education. Most of that sum is for basic school support, a subject

the committee has not yet touched.

The subcommittee made these decisions on special programs:

Gifted - The proposed \$515,000 program for gifted children in the next biennium was cut by \$15,000. The decision, however, involves phasing out state help over the next three years by giving districts the present \$1.50 per day per gifted child the

first year, \$1 the second year, 50 cents the third, and nothing after that.

Migrant - The proposed \$142,000 for special classes for migrant children was eliminated.

Advanced placement - The proposed \$43,000 for this program was eliminated, but essentials of the program were incorporated into the program for gifted children.

Vocational - Vocational rehabilitation financing was

moved to the welfare department for a \$187,000 saving.

Staff - Six supervisory positions on the state level were cut out for a \$102,800 saving.

Formula - The subcommittee realigned a federal matching formula to save \$81,800.

Study - It vetoed a basic school support fund study to save \$69,200.

Emergency - It deleted a proposed \$75,000 in education emergency funds.

Governor Warns Against Impasse During Last Days

Salem - (UPI) - The legislature is not much farther along with a tax program today than it was at the start of the 1963 session 119 days ago, Gov. Mark Hatfield said today.

Speaking at his weekly news conference, Hatfield repeated his suggestion that members of the House and Senate tax committees get together to draft a program both houses can accept.

The Senate committee currently is considering the House-passed tax program. Senators have expressed dislike of the House package.

Hatfield again warned against letting a tax impasse go to a conference committee for compromise in the session's final days.

Death Penalty, Withholding Tax Vote Due in California

Sacramento - (UPI) - The Legislature prepared today for a week that could include action on two of the most explosive issues of the session - death penalty and withholding taxes.

A bill solidly backed by Gov. Edmund G. Brown proposing a limited 4-year moratorium on the death penalty is expected to come before the Senate Government Efficiency committee, probably Wednesday night.

And Brown's plan for a withholding tax system beginning July 1, 1964, is set for an afternoon hearing of the Assembly Revenue and Taxation committee the same day.

Moot Question

Hatfield noted "it is a moot question what role I play" in connection with a new constitution, other than supporting it, since "it will not come through my desk."

The Governor expressed general approval of a bill for civil commitment of the sexually dangerous, but cautioned it should not be considered a panacea.

As for letting a bill to extend daylight saving time become law without his signature, he said only, "I felt this was the proper way to handle it in light of my experience on daylight saving time."

Expense Pay for Legislators Halts

Salem - (UPI) - Tomorrow is the day the money stops, as far as members of the Oregon legislature are concerned.

Today is the 120th calendar day of the session, the last day lawmakers receive their \$20 a day expense allowance.

There'll be no expense money tomorrow, and legislators are faced with the possibility of serving in one of the longest - if not the longest session in the state's history.

The 1957 session's 128 days is now the record. If this legislature stays in session until Tuesday of next week the record will be tied.

Indications today are that the old record may be bested. With today's allotment, each legislator will have received \$2,400 in living expenses.

Eight Students Get Scholarships

State fee scholarships for 1963-64 have been awarded to eight Jackson county students who are either high school seniors who will attend the University of Oregon this fall or are already enrolled at the university.

High school seniors who will attend the university on the scholarships include Richard Arthur Coulter and Sherren L. Smets, both Medford, and Lauren A. Smith, Jacksonville. University students from Medford who have received scholarships are Jack L. Joyce, Richard J. Lichti, Mieke K. Noble, Judith L. Sims and DeAnne Taylor.

My false teeth were killing me...

I tried all the pastes and powders and pads. Same old trouble! Rocking and slipping made my mouth sore and made me irritable. Then I spoke to my dentist - he told me about CUSHION, the soft-flowing plastic that molds to the gums. Now I eat what I want - enjoy what I eat - and my gums feel so good. CUSHION stays soft... that's its secret... and that was my relief. Mildly medicated to heal gum sores, pleasant minty flavor guards your breath. Ask your druggist for CUSHION. You must be satisfied or you get your money back. Long-lasting supply - only \$1.49.
