Newspaper Advertising Scores More Sales than Other Media

The nation's local advertisers invested \$2.7 billion in newspapers last year. That's six times as much as they spent in radio, nine times as much as in TV, three times as much in newspapers as in all other major media combined!

Herman C. Nolen, president of McKesson & Robbins, Inc., puts it this way: "We at McKesson feel that if you place an advertisement in a newspaper the result is—something happens. You get action."

If you want action, if you want results—use the daily newspaper.
