

Artists-in-Residence Announced by Oregon

Eugene—Four eminent men in four fields of contemporary art have been announced as artists-in-residence for the University of Oregon's 1963 Summer Academy of Contemporary Arts.

The eight-week summer program, the fifth annual Academy held by the university as a part of the summer session, has been arranged in four two-week programs, each focusing on the main trends and significant work since World War II as interpreted by a practicing artist of acknowledged reputation.

Mel Powell, director of Yale University's Electronic Music Studio, will represent the field of music on the summer program. He will be in residence at the university from June 18 through June 27.

Theater Scene Design
 Howard Bay, a leading figure in scene design for the

theater, will be at the university July 1 through July 11 to share with his classes his creative experiences in the theater.

Ad Reinhardt, who is both an artist and author, will conduct the July 15 to July 25 sessions on contemporary art. An artist of established reputation, Reinhardt has been a painter for 25 years.

Herbert Gold of New York is the successful young author who will conduct the July 22 to Aug. 1 course in literature. Gold is the author of six novels, a book of essays, and collections of short stories.

Public Performance
 At the conclusion of each artist's residency, he will be featured in a public performance of his own specialty.

Enrollment in the Academy may be for the entire eight-week program or for selected courses. A student may enroll at the beginning of the summer session or at the beginning of each two-week course. The courses are open to both students registered for credit or to auditors.

Academy fees for university credit or audit are \$25 for each two-week session. Visitors may attend any session for a \$5 fee per two-week session.

All of the artists-in-residence have achieved national recognition in their fields of specialization. Three have held Guggenheim Fellowships, and all have been honored by awards.

The lounge taxi passengers the half mile from the terminal to the parked planes in club-car comfort, sheltered from weather and the noise and fumes of the jetport.

IT'S YOUR LAW

Respect for Law Makes Democracy Live

Editor's note: The following article has been prepared as a public service by the Oregon State Bar. It is not intended as legal advice. Persons having a legal problem should consult with an attorney.

Write A Letter To Your Heirs
 You should, of course, leave a will, so that your wishes for those you care for may be carried out after your death. Our courts will then see to it that your wishes are put into effect.

But a lawyer who has been reading these columns called in the other day to suggest that a will is not enough. You should leave as well a letter to your wife, husband, children, executor, or close friend. In it, give facts and advice about your affairs to help your heirs.

Your last letter should

answer some of these questions:
 Where is your will? In a safety deposit box? At your office? Or tucked away some place for safe keeping? You might have hidden it so that nobody can find it. It might be destroyed by accident. Your will is no good unless it can be found.

Who is your executor—the person or institution you want to carry out your will? With whom do you deal at the bank? To whom do you look for sound business advice?

Where do you bank? Some persons have a savings account in one bank and checking accounts in others. Where are your safety deposit boxes? Do you keep important papers in other places? List these places.

Note these subjects: old age and survivors' insurance, pen-
