No Entrance Fee Charged At Willow Lake

There is now no entrance fee into Willow Lake, resort operator Lloyd Morris stressed today.

He reported that there is considerable misunderstanding on the matter since publication of county plans to provide sanitary facilities in the area.

He mentioned the county plans to alleviate a sanitary problem for bank fishermen in one area by installation of restrooms and water and garbage disposal facilities. Only at such a time as those facilities are ready will a fee be charged and it will be only to those who use the facilities, it was pointed out.

Morris reported that fishing has been good and that Joe Spitzer, Medford, has caught two four-pound rainbow trout still-fishing from a boat.

Rushing chores will fall to halfbacks Jim Shanley, Ben Brown, Joe Sutton, Leroy Phelps and Herman McKinney and fullbacks Dave Powell, Jim Josephson, Duane Cargill and Bruce Snyder.

Casanova, after three weeks of hard-hitting drills, has tentatively named a starting lineup which lists Dick Imwalle and Rich Schwab at end, Lowell Dean (ex-Medford) and Roy Johnson at tackle, Ron Jones and Dave Wilcox at guard, Oliver McKinney at center, Bob Berry at quarterback, Lu Bain and Larry Hill at halfback and Bill Youngmeyer at fullback.

Overdose Said Cause Of Death

Baltimore, Md.—UPI—Baltimore medical examiners announced Wednesday they have concluded from laboratory tests that professional football star Gene (Big Daddy) Lipscomb died "of an overdose of heroin."

Chief Medical Examiner Dr. Russell Fisher, in a statement, said a contributory factor in Lipscomb's death Friday morning was "nonintoxicating amount of alcohol in the blood."

Fisher revealed that his assistant, Dr. Paul Schweda, reported that his analysis found "unchanged heroin at the injection site in Lipscomb's arm, and large amounts of degradation products, mainly morphine in the bile as well as a trace of the same in the urine."

"Based on these toxicology findings, we conclude that death was due to an overdose of heroin, contributed to by a nonintoxicating amount of alcohol in the blood," Dr. Fisher said.
