Postal Service History Pamphlet Given to Library

Acting Postmaster Al Bradford has presented the Public Library of Medford and Jackson County with a 44-page pamphlet issued by the Post Office department as part of its centennial celebration of the Paris Conference of 1883.

A new 15-cent airmail stamp was issued this month in honor of Montgomery Blair, Abraham Lincoln's postmaster general, who suggested the conference.

The Paris Conference was the first international conference on postal problems and led to the founding of the Universal Postal Union, which regulates the handling of international mail, Bradford explained.

Although he ran the Post Office department during the Civil War period, Blair was responsible for some of the important mail handling innovations in the country's history. He introduced free delivery of mail in cities, the money order system, and the railway post office to assemble and distribute mail en route.

Bradford said that copies of the Montgomery Blair pamphlet may be obtained from the Superintendent of Documents, U. S. Government Printing office, Washington 25, D.C., for 25 cents a copy.
