Space Household Chores Described by Researcher

By GAY PAULEY
UPI Women's Editor
New York — (UPI) — Any far-out thinking housewife who expects space living to be without household chores is wishing on a star. There will be dust in space, just as there is dust on the furniture and window sills on the earth-bound home.

And there will be numerous housekeeping chores to keep the space woman busy otherwise.

"Water and air will have to be manufactured. Temperatures will have to be carefully regulated, and waste controlled," is the way Dr. Raymond L. Bisplinghoff, director of the office of research for the National Aeronautics and Space Administration (NASA), outlined some of the arduous duties of tomorrow's housekeeper.

A company which does professional cleaning and care of homes had asked some of the nation's authorities on space travel for comment on housekeeping in the ages ahead.

Space Is Clean
Dr. Bisplinghoff believes the space home will be a cleaner one since "there is no smoke in space. But there will be dust, though not nearly as dense as in the earth's atmosphere."

He said he sees no reason why women can't follow men into space to take up residence. "By 1970," he said, "we will have the life support systems, boosters, all the capabilities needed to launch and maintain a man-orbiting station."

"Scientists will have to provide the space dweller atmosphere and water," the scientist said, in answer to questions from Servicemaster, the cleaning concern.

The interior of the space house would be similar to that of a submarine or ship, since space, weight and volume will be at a premium, in the opinion of Dr. Bisplinghoff. The kitchen for example would look very much like a ship's galley, he said.

Wild Color Schemes
"One important feature for the people inside," he continued, "the house will be

Broadcasts Give Polish Women Aid

New York — (UPI) — Four out of five Polish women under 50 have jobs in industry. Radio Free Europe, which keeps tabs on what goes on behind the Iron Curtain, reports this and the following findings from a survey published in a Warsaw Trade Union newspaper.

The average Polish woman rises at 4:45 a.m., after six and one-half hours sleep. She must shop for milk, make breakfast and get her children ready for school before going to work. She rarely eats breakfast herself. At the factory she needs 40 minutes of her own time to set up her machine, then works an eight-hour day.

After work she spends almost an hour shopping for food at stores where other working women are waiting in lines. She spends another hour walking with the children. Then comes two hours of housework and cooking. In her leisure time she takes 30 minutes to bathe and fix her hair and squeeze in 13 minutes for television.

To help these women, Radio Free Europe broadcasts hints for saving steps in the kitchen, stretching the food supply and making meager earnings go farther.

Brownie Scout Troops Hold Fly-Up Ceremony

Jefferson school gymnasium was the scene for a Fly-up ceremony for Brownie Troops 80 and 124, on May 21. The program opened with the presentation of colors by members of Girl Scout Troop 29, Debbie Wisner, Cheryl Cole, Laurie Perry, Paula Greer, Jane Linklinder and Nancy Smith. Following the pledge of allegiance, a welcome was given to the guests by Mrs. Jay Allen, Oakdale Neighborhood chairman.

Mrs. Allen also thanked Kenneth Hulbert, principal of the gymnasium; Mrs. Otis Swisher, piano accompanist; Sue Fox, who had helped the Brownies with their songs and who portrayed the fairy, and Marianne Fox for help in lighting the candles. She also thanked Mrs. Lindsay Vinsel for special help in preparing the program.

Troop leaders introduced were Mrs. Myra Cole, Troop 29; Mrs. Ray Hubbell, Troop 80; and Mrs. Gordon Shelton, Troop 124. A special guest was Mrs. Thomas Vance, district chairman.

Troop 29 greeted the Brownie flyups by singing the "Hello" song and the Brownies answered with "Make New Friends". Mrs. John Pruitt, assistant leader of Troop 80, was introduced by Mrs. Hubbell and told the Brownie story which heralded the appearance of the fairy.

Mrs. Shelton led the girls in giving the Girl Scout slogan and motto; the recitation of each Girl Scout law was led by a Brownie, who first lit one of the 10 candles representing each law. The candlelighters were Lynn Swisher, Janet Morton, Heidi Miller, Debbie Dodge, Eileen Pruitt, Donna Hubbell, Angela Hosick, Suzanne Green, Debbie Binegar, and Janet Allen.

Upon giving the Girl Scout promise and singing, "When You Make a Promise," the fly-ups were given their wings by their leaders, crossed over the bridge where they were tapped by the fairy's wand, and joined their sister Girl Scouts of Troop 29, who pinned on their Girl Scout pins.

After singing "Girl Scouts Together" and the "Johnny Appleseed" song, refreshments were served.

The program ended with the singing of Taps.

Committee members of Troop 80 are Mrs. Allen, Mrs. C. G. Fox, Jr., and Mrs. R. L. Peebler. Committee members of Troop 124 are Mrs. Swisher and Mrs. H. L. Roberts.
