

# Circulation of Propaganda Said Costly to Public

Washington—Sen. Maurice B. Neuberger (D-Ore.) charged today that right-wing organizations are being allowed to circulate "extremist propaganda" at the taxpayers' expense.

Mrs. Neuberger called upon the Internal Revenue Service to make sure tax-exempt organizations do not engage in propaganda activities.

In a letter to IRS Commissioner Mortimer M. Caplin, the Oregon Democrat said the tax-collecting agency had an "obligation and responsibility to exercise much closer surveillance of material distributed by all tax-exempt groups under the guise of education."

Under federal tax laws, income contributed to educational groups is exempt from taxation so long as propaganda is not a "substantial part of its activities."

## Sends Pamphlets

Mrs. Neuberger sent Caplin pamphlets and brochures which she contended represented "an organized effort to spread particular doctrines and are unmistakably propaganda."

Much of the material, she said, attempted to discredit U.S. policies for partisan political reasons and could be justified under constitutional guarantees of free speech and press.

"But this does not mean that the public treasury can be used to aid in circulation of any extremist propaganda whose main purpose is to overturn policies decided by the majority through our democratic processes," Mrs. Neuberger said in the letter.

In a recent speech in Portland, Ore., Mrs. Neuberger charged that taxpayers were "indirectly financing millions of dollars of Birch-type propaganda put out by less well-known but equally vicious organizations."

Material which Mrs. Neuberger said was being financed through tax exemptions included publications of America's Future Inc., The American Good Government Society, The Lifeline Foundation Inc., The Christian Anti-Communism Crusade and the American Council of Christian Laymen.

# License Ordinance Change Favored By Medford Council

An amendment to the amusement machine section of the city's license ordinance was approved by the Medford city council last night after a discussion concerning the difference between machines, pinball machines, and consoles.

The amendment was approved by a vote of 5 to 1, with Councilman Joe Hosick opposing.

Other council action in which the councilmen were divided on their votes was a request to change the zone from Class IA single family to Class II multiple family on the south side of Grandview ave. east of Crater Lake ave.

Residents in the immediate area of the requested change opposed the request citing that it would block the view, downgrade property value, and increase traffic causing a hazard to the children in the area.

**Oppose Zone Change**  
The vote was four against and two for the request. Councilmen opposing the change were William Singler, Robert Cunningham, Hosick, and R. L. Van Sickle. Favoring the

# Foreign Briefs

**TORRENTIAL RAINS CAUSE 18 DEATHS**  
Quito, Ecuador—18—Floods and landslides caused by three days of torrential rain have killed at least 18 persons in the South Ecuadorian province of Loja, it was reported today.

Communications in the area have been disrupted, and it is expected that the casualty toll will mount as reports come in from temporarily-isolated areas.

**U.N. PRESIDENT LEAVES FOR CZECHOSLOVAKIA**  
Warsaw, Poland—18—Muhammad Zafrulla Kahn, president of the United Nations General Assembly, left Warsaw today for Czechoslovakia, the Polish news agency reported.

Zafrulla, who was visiting Poland on an invitation from the Polish foreign ministry, was seen off at the airport by Josef Winiwieski, vice-foreign minister, and other senior officials, the agency said.

**ISRAELI LEADER PLANS APPOINTMENT**  
Jerusalem, Israel—18—Israel's Premier-Designate Levi Eshkol informed his proposed coalition party partners yesterday he plans to name Abba Eban as deputy premier—a new post in the cabinet he is forming.

Eban was education minister in resigned Premier David Ben-Gurion's outgoing cabinet and formerly served as Israel's ambassador to Washington and its chief delegate in the United Nations.

## LIGHTNING STRIKES TWICE

Springfield, Mo.—18—If you tell Emmett Redfern the old adage about lightning never striking twice in the same place, he may tell you what happened on his farm Wednesday. Within an hour, lightning struck two of his barns, some seven miles apart, during a thunderstorm. Both buildings burned to the ground.

He said artificial limits on

# Steels Pace Firm And Fairly Active Market After News

New York—18—Steels paced a firm and fairly active stock market early today.

Strength in the steel group followed news that a general agreement on a new contract has been reached between the steelworkers union and 11 big steel producers. Nearly a dozen steels gained large fractions to a point including U.S. Steel, Bethlehem, Continental, Jones & Laughlin, Lukens, Youngstown and Allegheny Ludlum.

**DOW JONES AVERAGES**  
New York—18—Dow Jones final stock averages: 30 industrials 718.85, off 0.99; 20 railroads 171.80, up 0.55; 15

utilities 140.07, up 0.29; 85 stocks 257.25, up 0.10. Sales yesterday were about 4.97 million shares compared with about 3.97 million Wednesday.

Countryman Plans To Attend Meeting

Tacoma—David R. Countryman, manager of research and engineering for the Douglas Fir Plywood association, has been invited to present a paper on "Engineered Applications of Plywood" before a worldwide conference of experts in Rome next month.

The International Consultation of Plywood and Other Wood-Based Panel Products is sponsored by the Food and Agricultural Organization of the United Nations. Its sessions are scheduled for July 8-19.

Countryman is credited with much of the original research that has made plywood a basic structural material in the United States and increased its use by more than 300 per cent in the last decade. He now directs the operations of the biggest research facility in the timber products industries.

DFPA recently completed a market study of 13 European nations and is preparing plans to test market western plywood overseas. Countryman will meet with engineers on the continent and in the United Kingdom after the meeting in Rome.

# House Speaker Warns of Worst Rise in Property Taxes in State History

Special session is held this fall.

"Maybe this (the pressure for enactment of a new workmen's compensation bill) explains some of the agitation for referral of the income tax bill," Barton said.

He cited as "noteworthy" several things the legislature did not do, and said "we didn't pass the Liberty Amendment, or silly constitutional amendments which would deny the courts jurisdiction in apportionment."

"We didn't take the housewives' trading stamps away from them."

"We didn't tax the churches."

Barton discussed the recent legislative session, and told the publishers "from some of the things I've been reading, I think some record-straightening would be in order."

**Longer Sessions Possible**  
Barton predicted future sessions could be even longer than the record 141 days this year "because the business of this state has become so great."

He said artificial limits on

length would not result in better government.

Barton, a resident of near-by Coquille, outlined in detail the tax program and cited problems faced by lawmakers as they trimmed "fat" from budget requests.

"Legislatures should be known for what they don't do as well as for what they do," Barton said. "One thing this past session did not do was enact a sales tax."

He blasted the excessive lobbying that took place on the workmen's compensation measure which the House defeated, and predicted the bill could come to life again if a

"We didn't deny the right to do business on Sunday."

He added: "Unfortunately, we did not pass on to the people the revised constitution. The House rose to its duty by approving the referral. The Senate refused. More will be heard on this issue."

Barton asked: "What is a legislature for?"

He answered: "This last one started business at 10 a.m. Jan. 14, and was expected to have a \$426 million business operating by 10:30. It took us until June 3, but it was done in good order at a cost of \$405 million instead of the governor's suggested \$426 million."
