

Alley Vacation Request Sent Back to Planning Commission

Three lawyers and some six residents were involved in the discussion Friday evening during the city council's session regarding a request for the vacation of the east-west alley from Hawthorne ave. to Genessee st.

The vacation, first petitioned by the property owners in the area, was tabled at the June 20 meeting of the city council when it was discovered that 100 per cent of the property owners had not signed the petition.

The city council referred the matter to the police department for a traffic count, since residents making the vacation request charge that the alley is a hazard to children who use it en route to Hawthorne swimming pool.

Spot Check Made
A spot check of the alley by the police department over a four day period showed that 33 pedestrians, 7 vehicles and 23 bicycles used the alley.

Manville Heist is the lawyer for the petitioners and Frank J. Van Dyke is representing the property owners opposed to the vacation. Medford City Attorney William Mansfield at times disagreed

with both of the other lawyers. The matter was referred back to the planning commission on the motion of the council to vacate all or the east 156 feet of the alley.

Approve Annexation
The city council approved the annexation of 5.4 acres of land east of Murphy rd. opposite Rogue Valley hospital to be zoned Class II multiple family and continued a hearing on a request to annex 4.7 acres of land south of Garfield rd.

The continuance was sought for 90 days pending an agreement with the Medford Irrigation district regarding a ditch. Opposing the postponement was Councilman Joe Hosick.

Frank Earl Ross, 1325 Winchester ave., presented petitions signed by property owners in the 1300 block of Winchester ave. seeking street lighting in that block. The matter was referred to the public works department.

In other action the council: Approved an amendment to the building code to include radio antennas.

Approved applications for operators of pinball and other amusement devices.

Approved segregation of assessment ordinances.

Alley Hearing
Called for a public hearing to vacate the alley in Block 69 and the north 75 feet of the alley in Block 70.

SOMEONE GOOFED
Nola, Northern Rhodesia — Someone in Washington goofed in preparing a U. S. Information service (USIS) display on the United States.

Called for a public hearing on the change of zone from Class IA single family to Class IIIA limited commercial for property located at 801, 851, 895 and 955 Biddle rd.

Approved an amendment to the personnel rules for the fire department to establish the work week for all fire personnel except the fire chief, assistant fire chief and fire marshal at 60 hours a week. This is four hours less than had been in effect since July 1, 1962.

Approved a pay plan amendment to provide for pay rate changes for the building safety director, fire marshal, airport manager, and city manager.

Authorized plans and specifications for the removal of the Hansen and Fields buildings at Sixth and Bartlett sts. on the proposed off-street parking sites.

Authorized plans and specifications for paving Pearl st. from Saling st. to Jackson st. A petition has been received representing 75 per cent of the abutting property owners.

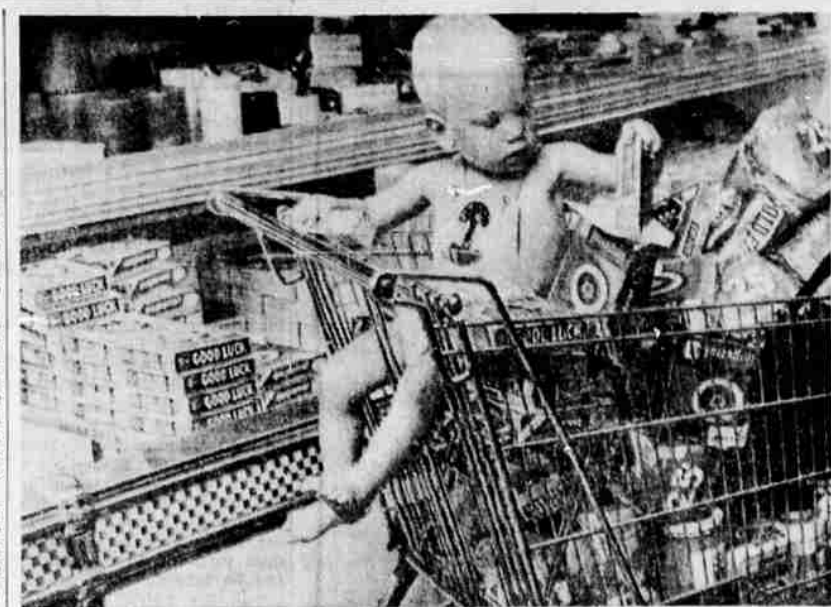

Approved plans and specifications for paving the extension of Royal ave. 176 feet north.

Paving Contract
Awarded the contract for paving Highland dr. between Barnett rd. and Greenwood ave. to M. C. Linger and Sons. This was one of three paving projects advertised, the other two for Siskiyou blvd. extension and Jackson st. Some irregularities were noted in the bid submitted by Virgil O. Anderson, which was the lowest. Linger's bid was the second lowest on the Highland dr. project — the firm did not submit bids on the two other projects which will be re-advertised.

Approved a 25 calendar day extension on the Jackson Park diving pool contract. The extension was necessary due to changes in engineering plans by the city.

Authorized a one year agreement with Rogue Flying service for tie-down service at the municipal airport.

Councilmen absent from the meeting were Jack Edson and Robert L. Baccus.

Unique Training For Handicapped
New York — Dr. Saburo Shochi, who runs a small but enlightened school for handicapped children in Fukuoka, Japan, says fresh air and sunshine play a big part in his plan to give the children their rightful place in society.

After a 40-day observation of institutions in 12 American cities, Shochi said the methods of therapy and instruction he has developed in the last nine years are in many respects more advanced than in the United States.

For example, American schools do most of their work indoors, he said.

"I prefer the outdoors," he told UPI. "I believe the warm air and sunshine can do so much for the children."

In his school for cerebral palsy cases — Shiinomi Gakuen — Shochi has ruled out blackboard instruction and writing with pencil and paper. Children are required to write with their fingers on sand to teach them to use the fingers, improve muscular coordination and reduce frustration over lack of control.

"We also encourage them to write and draw pictures on the ground with small sticks," he said.

Shochi said American hospitals tend to spoil child patients by using too many braces and wheelchairs and by over-protecting them in general.

"It may sound cruel," he said, "but in Fukuoka we train them to the sense of touch. If they can't walk they must crawl. This gives them confidence."

Working Wives Pass 13-Million Mark
Washington — The total number of working wives is approaching 13.5 million, or one-third of all married women with husband present.

New Department of Labor findings about the economic contribution of working wives to family income show that they supply about 35 to 40 per cent of their family's total income when they work full time and about 15 to 20 per cent when they work part time.

Traffic Injury — Drivers of both cars suffered minor injuries when vehicles operated by Eva Jane Merriman, 624 Maple st., Central Point, and Frances Genevieve Bittle, 139 North Columbus ave., Medford, were involved in an accident at Summit and Palm sts., Medford, last week. Mrs. Bittle was cited for failure to yield the right of way, police said.

Children Set Fires — The Medford fire department was called to two fires Friday afternoon they said were set by children. A grass fire at 2039 Madrona lane was started by children, who said they were playing camping. It burned over one half acre of grass. A bush, just outside the retaining wall at the Jackson school grounds on Summit st., was ignited by children. They filled the bush with paper and wood and then lit a match to it. A motorist called the fire department and notified residents of the area who formed a bucket brigade, which had the fire practically out before firemen arrived. Little damage resulted.

Cigarette Fire — The Medford fire department extinguished a grass fire on the Olle Hull property at the intersection of Stewart ave. and Oak Grove rd. about 9:58 p.m. Friday. It was apparently started by a cigarette, tossed out by a motorist, firemen said.
