Willie Mays Sets Two Records in Pacing Victory

Another Record Tied by Giant

Cleveland —UPI— Irrepressible Willie Mays set two All-Star Game records and tied another with his batting and baserunning today in leading the National League to a 5-3 victory over the American League in the 34th All-Star classic.

Mays, of the San Francisco Giants, drove in two runs, stole two bases and scored twice as the National League scored its 16th All-Star victory against 17 defeats before a crowd of 44,160 in Cleveland's Municipal Stadium.

The National League collected only six hits off five pitchers but bunched them effectively. Dick Groat of the St. Louis Cardinals, Ed Bailey of the San Francisco Giants and Ron Santo of the Chicago Cubs each drove in a National League run, in addition to Mays' two.

An error by Bobby Richardson of the New York Yankees in the fifth inning helped score a run that broke a 3-3 tie against Jim Bunning of the Detroit Tigers. Mays drove in that tally with an infield out to tag Bunning with the defeat.

Larry Jackson of the Cubs, the second of five National League pitchers, was the winner.

The Tiger tosser was on the hill in the unlucky fifth when he opened it by walking Tommy Davis. With one out, Yankee second baseman Bobby Richardson failed to hold a force-out toss, and Davis romped on to third and Mays got him in as he grounded out to first base.

It was, in the end, merely one of those games for the record book, especially for Mays.

Wondrous Willie stole two bases to run his all-star record to a total of five; he boosted his total of runs scored to a record of 15; and he came up with his 20th hit to the Stan Musial, appearing in his record 24th and a record 83rd time at-bat, for most all-star hits.

It was Willie, too, who made the best catch of the game when he ran up against the center field fence to nail a long drive by Joe Pepitone in the eighth inning.

He had to be the big gun in what was the National League's 16th win, moving them to within one game of the 17 victories which have been posted by the American, one game having ended in a tie.

The federation will merge Malaysia, an independent member of the British Commonwealth, and Singapore, Sarawak and North Borneo — all remnants of the British empire in the Asia region.

A fifth proposed member, the tiny oil-rich sultanate of Brunei, decided to stay out for the time being. The sultan of Brunei made it plain, however, that with "satisfactory terms" he wants to join.

The signing of the agreement shortly after midnight insured that the federation would become effective as scheduled next Aug. 31.

The union will encompass 10 million people, including Malays, Chinese, Indians and indigenous Borneo stock. Its land area of 129,352 square miles will stretch from the southern tip of Thailand to the Philippine archipelago.

They are Bruce A. Hendrickson, Pendleton, assistant engineer for the Umatilla National Forest, and Kenneth Eversole, Chemung, district ranger for the Winema National Forest.

Two Men Transferred By U. S. Forest Service

Portland —UPI— The U. S. Forest Service today announced the transfer of two men from Oregon forests to the Pacific Northwest regional office here.

They are Bruce A. Hendrickson, Pendleton, assistant engineer for the Umatilla National Forest, and Kenneth Eversole, Chemung, district ranger for the Winema National Forest.

GOLDBERG PROPOSED — President Kennedy urged the nation's railroad companies and union brotherhoods to let Supreme Court Justice Arthur Goldberg arbitrate their dispute in an effort to avert a threatened national rail strike. Here, after the White House meeting, leaders of the unions talk with reporters. From left are Charles

Luna, Brotherhood of Railway Trainmen; B. E. Gilbert, Brotherhood of Locomotive Firemen and Engineers; Roy E. Davidson, Brotherhood of Locomotive Engineers; Neil Speira, Switchmen's Union of North America; and Louis J. Wagner, Railway Conductors and Brakemen. (UPI)

Kennedy Calls on Rails, Unions To Submit To Plan

Wednesday Morning Reply Requested

Washington —UPI— In an extraordinary move, President Kennedy today called on the nation's disputing railroads and unions to let Supreme Court Justice Arthur J. Goldberg arbitrate their long dispute over "featherbedding."

The railroads indicated they would go along with the proposal, as they have with previous government suggestions for heading off a strike threatened for 12:01 a.m. (edt) Thursday. The five unions involved said they would give "every consideration" but implied they were opposed.

The unions have rejected all earlier proposals that arbitration be invoked to settle the long, drawn-out dispute over elimination of what the railroads claim are unneeded jobs.

The President proposed that Goldberg, a former labor secretary and one-time union attorney, be authorized to decide all issues in the complex dispute and make binding recommendations for settlement, according to J. E. Wolfe, chief management negotiator.

Goldberg is the newest member of the Supreme Court. He did not participate in a decision several months ago in which the high tribunal held that the railroads were free to put the controversial new work rules into effect.

Meeting Is Short

The White House meeting lasted only a little over 15 minutes. There was no indication whether Kennedy mentioned the possibility of emergency legislation calling for one-shot arbitration of the dispute if the two sides did not agree to his 11th hour proposal.

After the session, union leaders were grim faced. Both sides were asked to advise Kennedy by 10 a. m. (edt) Wednesday — only about 12 hours before the threatened strike — if they would accept.

A union spokesman said the brotherhoods would "give any word from the President serious consideration." But he pointedly reminded reporters: "These organizations have been traditionally opposed to compulsion or to arbitration in lieu of a negotiated settlement."

Goldberg was a long-time top attorney for the AFL-CIO United Steel Workers Union before becoming labor secretary in Kennedy's cabinet. He helped settle many sticky labor disputes before becoming a Supreme Court justice.

Red China Slowed By Soviet Action

London —UPI— Red China's race to explode its first atomic bomb was reported today to have been slowed seriously by the withdrawal from China of Soviet experts and scientists.

Diplomatic reports here said the Russians apparently took with them important "ingredients" when they returned to the Soviet Union.

As a result, they said, the Peking regime has run into considerable technical nuclear difficulties. The first blast had been predicted for some time this year but now may have to be put off for some time to come.

The nuclear issue and Peking's failure to get Moscow's assistance is understood to have played an important role in the deterioration of Sino-Soviet relations.

City's Population Is Estimated at 26,750 on July 1

The population of Medford as of July 1, 1963, has been estimated at 26,750, city officials said today.

The figure will be forwarded to the Oregon state board of census, Portland, for certification. A reply from the agency, with notification of the final, official census figure, is expected some time in August.

The new estimate represents an increase of 3.2 per cent over the city's current certified population of 25,935. The figure was amended on Jan. 1, 1963, from the city's July 1, 1962, estimate of 25,910.

The city's population increase last year was about 3.05 per cent, officials said. Medford has averaged about a 4 per cent annual increase over the last 30 years.

City officials arrived at the current estimate on the basis of information about the number of housing units and water meters in service at the present time. Several annexations to the city also were considered in computing the estimate.

City Manager Robert Duff said the estimate is important since Medford's pro rata share of revenue from gasoline and liquor sales in Oregon is determined on the basis of population.

Duff said he felt the city has shown a "good increase" in population during the last year, particularly as compared with other cities in the state of comparable size.

Federation of Malaysia Formed

London —UPI— An agreement was signed early today for the formation of the Federation of Malaysia, creating a new anti-Communist bastion in Southeast Asia.

The federation will merge Malaysia, an independent member of the British Commonwealth, and Singapore, Sarawak and North Borneo — all remnants of the British empire in the Asia region.

A fifth proposed member, the tiny oil-rich sultanate of Brunei, decided to stay out for the time being. The sultan of Brunei made it plain, however, that with "satisfactory terms" he wants to join.

The signing of the agreement shortly after midnight insured that the federation would become effective as scheduled next Aug. 31.

The union will encompass 10 million people, including Malays, Chinese, Indians and indigenous Borneo stock. Its land area of 129,352 square miles will stretch from the southern tip of Thailand to the Philippine archipelago.

County Court Asks 50-Cent Charge for Overnight Camping

The Jackson county court last night, led by County Commissioner Don Faber, insisted that a 50-cent charge be made starting today for overnight camping in designated areas other than the developed recreation area at Howard Prairie and for use of picnic facilities at Emigrant lake.

Lloyd Morris, Willow Lake concessionaire, charges 50 cents for use of facilities there.

Some of the parks and recreation commission members who oppose the fee charge remarked at the meeting there could be strong public opposition to the additional charges.

Parks Commissioner Dir. Levering, Shady Cove, a new member, suggested the Howard Prairie concessionaire be allowed to charge 50 cents to \$1 for launching and docking boats since the Willow Lake concessionaire does not.

This would make the fee charges more uniform throughout all the county recreation areas, he said.

County Judge Earl M. Miller and Faber said the 50-cent fee was not charged at Howard Prairie on June 21 as directed by the county court due to a misunderstanding with Parks and Recreation Director Neil Ledward and the parks commission.

The fee will help finance area maintenance, particularly trash and garbage cleanup, it was explained.

Parks Commissioner J. F. Eberhart, Ashland, strongly opposed the 50-cent fee at Howard Prairie until picnic tables and outdoor fireplaces are installed.

Have Needed Area

The Howard Prairie concessionaire argued that "it is foolish to develop additional camping outside the developed area when we have needed additional camping space within the developed area for a long time. You are just increasing your maintenance cost needlessly," he said.

The county collects \$1 a night for camping in the developed area and turns the money over to the concessionaire to pay for his maintenance of the area.

Eberhart continued to argue. "The state game commission puts the fish in the lake and the bureau of reclamation provides the water. We have no right to charge for these things."

County Commissioner Edwin Taylor declared, "We are putting out a lot of money at Howard Prairie for no return. We need to charge and the public will get used to paying."

Overcast Hampers Search for Airplane

Eureka, Calif. —UPI— A high overcast over northwestern California today hampered the search for a missing light plane carrying Mr. and Mrs. Peter Vike of Seattle, Wash.

Three aircraft — 10 less than Monday's search effort — took off to look for the single-engine Cessna that disappeared Saturday en route from Ukiah to Crescent City, Calif.

County Court Asks 50-Cent Charge for Overnight Camping

The Jackson county court last night, led by County Commissioner Don Faber, insisted that a 50-cent charge be made starting today for overnight camping in designated areas other than the developed recreation area at Howard Prairie and for use of picnic facilities at Emigrant lake.

Lloyd Morris, Willow Lake concessionaire, charges 50 cents for use of facilities there.

County Commissioner Edwin Taylor declared, "We are putting out a lot of money at Howard Prairie for no return. We need to charge and the public will get used to paying."

Festival Rehearsals To Close for Final Rounds

Ashland —All Oregon Shakespearean Festival rehearsals will be closed to the public Friday, July 12.

The closing measure is because of involved adjustments which must be made before the season opens. The theater's 23rd repertory run gets under way Wednesday, July 24, with the Feast of the Twelve of 1833 in Lillis Park and the first showing of "The Merry Wives of Windsor."

Mining Leases on Clatsop Spit Asked

Salem —UPI— Application for mining leases on 3,000 acres of iron-bearing sand in the Clatsop Spit area south of the Columbia River near Astoria were filed today by the Bunker Hill Co., one of the nation's leading mining and smelting companies.

Lease applications were filed simultaneously with the Oregon State Land Board and the Clatsop county court.

Charles E. Schwab, president of Bunker Hill, which has a large plant at Kellogg, Idaho, said his firm plans to explore the coastal areas to determine their potential for economic production of iron from the sand.

Noting that the iron-bearing sands have been considered to be non-commercial because the deposits are low grade, Schwab reported Bunker Hill plans to apply new metallurgical techniques to the processes for extracting iron.

mechanical problems of some changes and certain manipulation are solved.

Several crew members and department heads are involved with the technical rehearsal phase. It is a slow process, with frequent stops, starts, and repeats, festival officials noted.

On Tuesday, July 16, the first round of dress rehearsals begins on the Ashland stage. The four productions — "The Merry Wives of Windsor," "Romeo and Juliet," "Love's Labour's Lost," and "Henry the Fifth" — will each have an afternoon run-through and a full evening dress rehearsal during the next four days. This round also is closed to all spectators.

On Saturday, July 20, final dress rehearsals will begin.

McMinnville Firm Rejects Union's Negotiation Offer

By United Press International

The Yamhill Plywood Co. at McMinnville has rejected a union offer to resume negotiations while its members go back to work, Business Agent Ted Aaron of Lumber and Sawmill Workers Union Local 3-213 said today.

The union went on strike June 8, but the company resumed full operation 20 days later with nonunion workers.

Aaron said the union offered to remove its pickets and send its men back to work if the company would return to the bargaining table. The offer was made at a meeting arranged by federal negotiators Monday night. The firm employs 55 men.

Montana Workers Quit

Meanwhile, 1,000 Lumber and Sawmill Workers Union members walked off their jobs at St. Regis Paper Co. plants at Libby and Troy, Mont., this morning. The action came after a contract session broke up Monday night.

Earl Hartley, executive secretary of the union, said another 400 will walk off at Klickitat, Wash., "in a day or two" unless some agreement is reached.

The Montana strikers ran the number of workers idled in the dispute to about 21,000.

The LSW was scheduled to meet with Georgia-Pacific Corp. in Portland Wednesday and then hold an executive council meeting Thursday in Portland.

Nyssa —UPI— Payments to growers for the 1962 sugar beet crop delivered at the Amalgamated Sugar Co. plant here are nearing the \$10 million mark, the company said today.

Chinese Suspend Talks in Russia; Awaiting Orders

Moscow —UPI— Red Chinese negotiators have suspended their talks with the Soviet Union temporarily pending fresh instructions from Peking, authoritative Communist sources said today.

The sources said there was a recess in the ideological talks following an exchange of documents Monday outlining the positions of Moscow and Peking in the bitter ideological controversy between the world's two Communist giants.

Walkout Denied

According to the Communist sources, the Chinese planned to resume their talks with the Russians Wednesday after getting the new instructions from Peking leaders. The sources denied there had been any Chinese Red walkout.

The same sources said the Soviet and Chinese delegations maintained contact today although there was no formal meeting.

The interruption in the Duff To Meet With State Officials

Medford City Manager Robert Duff will be in Salem Wednesday to confer with state highway department officials on several topics of mutual concern.

Duff said items to be discussed include a proposed transportation study, disposition of a strip of land between Biddle rd. and Interstate 5, and some traffic problems at the intersection of Crater Lake and North Pacific highways.

The city manager said he plans to return to Medford Wednesday evening.

Escapes From Jail Still at Large

Grants Pass —Two men who tunneled their way out of the Josephine county jail early yesterday were still at large this morning.

The Josephine county sheriff's office had wanted bulletins out to all California, Oregon and Washington points for Wesley Earl Sanford, 30, and Kenneth Raymond Barr, 20.

The men escaped from the jail early Monday morning by digging a seven foot long tunnel under the wall and the sidewalk outside.

They were believed to be driving a 1960 Valiant black four-door sedan bearing Illinois license GY-7240, according to George Eckstein, chief criminal deputy. The car belongs to Sanford.

Sanford was being held for authorities from Kings county, California, on a burglary charge, and Barr was charged with a parole violation.

Mrs. Neuberger Would Discuss Smaller Dunes

Washington —UPI— Sen. Maurice B. Neuberger (D-Ore.) indicated Monday she would be willing to discuss possible modification of her bill to establish the Oregon Dunes National Seashore.

Mrs. Neuberger said she would talk with members of the Senate Public Lands Subcommittee after they return from an on-the-spot inspection of the proposed park on the Oregon coast.

However, the Oregon Democrat said pleas by officials of the Pacific Power and Light Co. and the Crown Zellerbach Corp. for further cuts in the size of the proposed park were "not new."

She said the same proposals had been made during hearings on the bill both here and in Oregon.

The final decision, Mrs. Neuberger said, would be in the hands of the Interior Committee. She is not a member of the committee.

Subcommittee members, headed by Chairman Alan Bible (D-Nev.) were expected to return early this week from an inspection tour of the Oregon Dunes and other proposed park areas in the West.

Mrs. Neuberger's bill calls for a park of about 42,000 acres, compared with a 30,000-acre park proposed by Rep. Robert B. Duncan (D-Ore.) in legislation pending in the House. Interior Secretary Stewart L. Udall has recommended a park of about 44,000 acres.

Slayer of Skier Sentenced To Die

Reno, Nev. —UPI— Thomas Lee Bean, 18-year-old Reno High school student, today faced death for the sex slaying of Olympic skier Sonja McCaskie.

A jury of eight men and four women took only 70 minutes Monday to convict the gangling, dark-haired killer of first-degree murder and set the death penalty. He will be formally sentenced by Dist. Judge Grant Bowen next Monday, at which time an execution date will be set.

Bean sat impassively as the verdict was read and each juror then personally polled at the request of defense attorney Harry Anderson.

The body of Miss McCaskie, a 24-year-old Britisher, was found by a policeman last April 5 in her apartment. She had been strangled, raped and dismembered. The torso was found stuffed in a hope chest.

NEWS BRIEFS

KHRUSHCHEV'S OFFER SEEN REAL THING

WASHINGTON —UPI— Sen. Hubert H. Humphrey said today there is a feeling in U.S. government agencies that Soviet Premier Nikita Khrushchev's new nuclear test ban offer is a proposal of "substance" rather than propaganda.

Judges' Retirement Fund Totals \$73,770

Salem —UPI— The Judges Retirement Fund, created by the 1943 legislature, now has \$73,770, compared with \$54,323 a year ago, State Treasurer Howard C. Belton said today.

MILLIONS CUT FROM SPACE BUDGET

WASHINGTON —UPI— The House Space Committee today chopped \$489 million from President Kennedy's new \$5.7 billion civilian space budget, bringing it below what the space agency called a minimum figure.

CONTRIVERSIAL NEWBURGH MANAGER RESIGNS

Newburgh, N.Y. —UPI— Joseph McD. Mitchell, to whom controversy is nothing new, has resigned his post as Newburgh city manager to work for the John Birch Society, hotbed of right-wing conservatism in the nation.
