Soldier in Berlin Faces Court Trial

Berlin (UPI) — An American Army spokesman said today a military policeman who shot four search lights mounted by the Communists to catch refugees will be tried by court-martial.

He said the non-commissioned officer had been drinking when the incident occurred at the tiny enclave of Steinstuecken last Wednesday.

The name of the soldier was not disclosed immediately. The United States dismissed as propaganda Communist charges — apparently based on the same incident — that American troops fired on East German border guards.

In another incident, a 20-year-old East Berliner dodged 20 machine pistol shots by Communist border guards to escape to the French sector of West Berlin through a railway freight yard.

Funds for Study Of Toads' Calls Irks Congressman

Washington (UPI) — The National Science Foundation and Republican Rep. Richard L. Roudsbush clashed today over the importance of mating calls of Central American toads.

The Indiana congressman started the debate with a letter to voters in his home district. He attacked what he considers last-minute scrambling by government agencies to spend their remaining funds before the end of the fiscal year.

Roudsbush singled out for criticism four programs awarded NSF funds shortly before June 30, end of the fiscal year, including a \$21,200 grant to study toads in Central America.

He said the NSF should "leave the intricacies of why toads respond to toads up to the toads, themselves."

Other expenditures termed "interesting" by the congressman were: —\$103,000 for films of Eskimo culture. —\$5,700 for a study of the diving behavior of the seal.

Hospital Escapee Hides in Vent

Atascadero, Calif. (UPI) — An inmate at Atascadero State hospital hid out in an air vent for nearly a month before being discovered, authorities said in a belated report.
