No. 106

FIRE AT THE GROTTO — Heavy smoke damage and some fire damage were reported as the result of a fire at the Grotto restaurant, 10 North Front st., last night. The fire, reported at 7:32 p.m., broke out in the kitchen when grease on a grill ignited. The entire kitchen was damaged, Medford firemen said, and smoke caused damage to the restaurant itself. In addition, the fire extended up a range vent, igniting the wall and areas between false ceilings on the first and second floors and portions of the attic. Fire damage was held to a six foot square area through to the attic. Firemen had to remove a wall section in an upstairs office, and there was smoke damage to the second floor offices. Three pumper trucks and a ladder, with a crew of 17 men, were used. They returned to the station at 9:15 p.m., then went back to the restaurant at 11:51 p.m. to check some materials that were still smoldering. (Knackstedt Photo)

GOP Governors Hope To Retain Issue on Rights

Republicans Lose First Round Test

Miami Beach —UPI— Republican governors promised today to keep the civil rights dispute before the annual conference of state executives even though they were overwhelmed in the first test on that issue.

Gov. Nelson A. Rockefeller of New York, leader of the campaigns to get the governors' conference to issue a civil rights declaration, tried to lay responsibility directly on President Kennedy for Monday's conference vote to shelve the issue.

The vote came on adoption of a rules change to junk the resolutions committee and abolish the entire resolutions process which has caused increasing controversy in the conference during the past four years. The 33 to 16 vote was almost a straight party line count with a single defector — Democratic Gov. William A. Egan of Alaska sided with the Republicans against the new rule.

To Try New Tactics

Republican governors immediately began searching for parliamentary tactics to force one or more additional roll calls on the civil rights issue. Another party caucus was called for the lunch break today. The revised agenda for the conference called for talk without action on civil rights this afternoon. This debating session was programmed by Gov. Albert D. Rosellini of Washington, conference chairman, in one of the Democratic moves to defuse the civil rights issue.

Rosellini and other Democrats argued that any civil rights resolution adopted by the conference would be meaningless, might cause it to flounder in a Southern Democratic filibuster and even break up the organization.

Morse Criticizes Somali Aid Effort

Washington —UPI— Sen. Wayne Morse (D-Ore.) today criticized a \$7.5 million U.S. aid program to build a port in Somali which will provide a shipping point for farm crops "which do not now exist."

Morse cited American foreign aid to the semi-arid East African republic as a "classic example of the kind of foolishness we have engaged in over the past years."

He noted that \$7.5 million has been devoted to construction of a port at Chisimo on the southern Somali coast. "The reason for building this port," Morse asserted, "is to provide an outlet for exports in the one moderately promising agricultural area of the country."

"However, the problem is not only that the crops do not now exist — the land has not even been rendered fertile as yet."

Egypt Develops First Submarine

Cairo —UPI— Egypt, displaying its military might on the 11th anniversary of the coup that put President Gamal Abdel Nasser in power, today announced it has built its first submarine and will test it within 15 days.

But Nasser's plans for extending the United Arab Republic appeared to be all but finished for the present. He charged in a speech Monday night that Syria, which was to have joined Egypt and Iraq in the new U.A.R. by September, "has been converted into a vast concentration camp."

He said he would never federate with Syria as long as its Baathist party rulers remain in power. He did not mention Iraq, also ruled by the Baathists.

EAST-WEST TEST BAN AGREEMENT REACHED

Musa Appoints Hood River Man To Welfare Post

Acting Governor Makes Selection

Salem —UPI— Temporary Gov. Ben Musa today named Ralph W. Perry Sr., 65, a semi-retired Hood River orchardist, to the State Public Welfare Commission.

It is the first time since Gov. Mark Hatfield has been in office that a substitute governor has made an appointment to a state board or commission.

Musa, president of the Oregon Senate, has full powers when Hatfield is out of state. The senate president said today he recalled that a temporary governor years ago had appointed a circuit judge. Sen. Walter J. Pearson pardoned a murderer who was serving time in the Oregon penitentiary when he was temporary governor in 1960.

Hatfield Not Told

Hatfield, who is in Miami attending the National Governor's Conference, was unaware of today's appointment.

Warne Nunn, Hatfield's administrative assistant said he "wouldn't recognize Perry if he walked in the door."

"I think the governor will be real happy with this appointment," Musa said this morning.

He explained the naming of the new commissioner wasn't aimed at embarrassing Hatfield.

"I just wanted to add to the stature of that commission. I think I'll be complimented for doing a good job," Musa declared.

Musa recommended Perry for many years and he had recommended Hatfield appoint him after Roy Webster, also of Hood River, resigned from the commission last week.

Webster and Perry are neighbors in Hood River, which is a part of the senate district Musa represents. Both men are orchardists. Perry was a member of the Hood River County Welfare Commission from 1936 until 1956, except for one two-year interval.

Hatfield Remarks On Musa's Action

Miami, Fla. —UPI— Oregon Gov. Mark Hatfield confirmed that the appointment of Ralph W. Perry Sr. to the State Welfare Commission today was made by Acting Gov. Ben Musa without his knowledge.

"I will be interested in learning what critical emergency existed which required Sen. Musa to take such action in violation of a gentleman's agreement which he voluntarily made at the beginning of his term," Hatfield said.

The governor indicated he and Musa had an informal agreement that Musa would make no major decisions while Hatfield was out of the state.

Railroad Promotes Klamath Falls Man

St. Paul, Minn. —UPI— Thomas J. Lamphier has been appointed special assistant to the vice president of Great Northern Railroad, it was announced today.

Lamphier is now superintendent of the Klamath Division of the railroad with headquarters in Klamath Falls, Ore. He also has been selected as a special representative of the Association of American Railroads to visit France for a special study.

Lamphier will be succeeded at Klamath Falls by D. D. Hoag, now superintendent of Seattle's King Street passenger station.

ECLIPSE RECORDED—The eclipse of the sun Saturday afternoon is recorded in this half-moon design created by the shadow of a tree casting its shadow on a rock walkway. The eclipse is seen in the picture of a tree casting its shadow on a leaves. (Knackstedt Photo)

Negroes Reach Agreement on Cambridge Strife

By United Press International

Negro leaders from strife-torn Cambridge, Md., pledged today to halt racial demonstrations indefinitely under a five-point agreement worked out between city officials and Atty. Gen. Robert F. Kennedy.

Kennedy, in Washington, announced settlement of the sometimes violent integration dispute in the Eastern Shore city where National Guardsmen had been sent several times to impose martial law.

The attorney general said the agreement provides for desegregation of the first four grades of school by September; a low-rent public housing project for Negroes; hiring of a Negro in the Cambridge office of Maryland's Department of Job Security.

appointments of a bi-racial committee including four Negroes; and united opposition to a referendum that could change a charter amendment providing for desegregation of public facilities.

Demonstrators Arrested

In New York, police today arrested 73 demonstrators at two construction sites and city officials sought ways to satisfy Negro demands for a larger share of building trade jobs.

Hearings are to open July 31 on charges of discrimination by contractors for city construction projects.

Police arrested 58 men and women pickets on charges of disorderly conduct and resisting arrest today when they lay down in the path of construction vehicles at the Downstate Medical Center in Brooklyn.

Cottage Grove Man Arrested in Idaho

Lewiston, Idaho —UPI— Jude C. Kaus, 29, Cottage Grove, Ore., was held in the county jail in lieu of \$10,000 bond today while awaiting further court action on charges of attempted armed robbery and assault with a deadly weapon.

Kaus was foiled in a holdup attempt at a nightclub near Lewiston Sunday when a musician, Max Durham, Willis, Calif., tried to take Kaus' 22-caliber pistol from him. Durham was shot in the chest during the scuffle, but was reported in satisfactory condition after the bullet was removed Monday night.

Kaus waived preliminary hearing Monday when he was arraigned in justice court here.

55-Acre Blaze Near Shady Cove Being Mopped Up by State

A fire which burned 55 acres of rugged brush land about three miles southeast of Shady Cove was being mopped up this morning by a state forestry department crew of 17 men.

The fire apparently started from an abandoned campfire, forestry department officials said. It burned up a draw from a point near Indian creek and was reported at 2:04 p.m. A 40-man crew brought it under control last night.

A few pine trees were destroyed by the blaze, but otherwise the acreage involved was mostly in brush. Firefighters were hampered by the rugged terrain of the area, which made access difficult.

Crew Is Dispatched

Meanwhile, the 25-man forest service fire suppression crew station at Star Ranger station in the Applegate valley left the Medford airport Monday in a C46 aircraft to aid in fighting a large fire in the Wallowa-Whitman national forest 14 miles northeast of Baker in northeastern Oregon.

This morning, United Press International reported the fire was under control and being mopped up by 285 firefighters. The blaze covered 600 acres of timber and rangeland.

It was the second fire to which the suppression crew has been dispatched. The first was in Utah.

Two other large fires were reported in the Baker area and several smaller ones in other parts of the state, underscoring the increasing fire danger in Oregon, especially east of the Cascades.

All Under Control

All the blazes were reported under control today and mop-up operations were under way.

The Bureau of Land Management said a 1,500-acre fire eight miles northeast of Baker was controlled Monday afternoon. Much of the scorched area was rangeland.

North Yamhill Basin Study Requested

McMinnville —UPI— Farmers and businessmen in the North Yamhill River Basin have announced plans to submit a formal request to the Bureau of Reclamation for a study of the basin.

Salem —UPI— The Capitol Planning Commission decided Monday to take another look at the location of the new state agricultural building.

Negotiators Tackle Other Major Problems

Pact Expected To Be Signed Wednesday

Moscow —UPI— The United States, Russia and Britain today ended historic talks that diplomatic sources said sealed final agreement to end East-West nuclear tests in space, in the atmosphere and underwater.

The major nuclear powers were expected to initial the agreement Wednesday, just as a European Communist leaders convene for a summit conference designed to close Red ranks against Communist China.

Other Discussions

The East-West talks that diplomatic sources said might prove to be one of the major disarmament breakthroughs in the post war period ended at 6:30 a.m. (pdt). The negotiators plunged immediately into additional discussions on other topics that could thaw the cold war.

Presidential trouble-shooter W. Averell Harriman, Britain's Science Minister Lord Hailsham and Soviet Foreign Minister Andrei Gromyko dismissed their advisers and discussed "other matters of mutual interest."

Although Harriman and Hailsham came to Moscow with authority only to work out agreement on a nuclear test ban, the informal discussions which followed their formal bargaining could lead to talks settling additional issues.

Wants Risk Eliminated

President Kennedy was reported to have asked Harriman to sound out the Soviets on Premier Nikita Khrushchev's proposal that East and West exchange observers who would report from strategic areas to cut the risk of surprise attack.

Gromyko also was expected to sound out privately the views of the two key Western Allies on Khrushchev's call for talks that could lead to a full treaty of non-aggression between the Western Alliance and the Communist Warsaw Pact nations.

Diplomatic sources said the possibility of a Berlin settlement also might be discussed, perhaps to be pegged to another Khrushchev proposal that Allied officials serve with Communist forces in East Germany while Soviet officials serve with Allied forces in West Germany.

Major snag to the proposed agreement on a non-aggression pact between the North Atlantic Treaty Organization and the Warsaw Pact nations was the Western fear that it might mean recognition of Communist East Germany.

Portland Housewife To Seek Candidacy

Portland —UPI— Mrs. Ralph Duncan, 33, a Portland housewife, announced Monday she will file for state representative by petition.

GRANT APPROVED

Washington —UPI— The Community Facilities Administration has approved an \$85,000 grant to DuFur, Ore., for a sanitary sewage collection facility to cost \$220,000, it has been announced.

Thornton Rules on Injured Teacher's Pay

Salem —UPI— A school district can deduct the amount an injured teacher received from the state industrial accident commission from his sick leave pay, Atty. Gen. Robert Y. Thornton said in an opinion today.

Thornton said the action could be done under the school board's rule making power.

The opinion was requested by Supt. of Public Instruction Leon P. Miner.

Israeli, UAR Planes Clash Over Desert

Cairo —UPI— Israeli and United Arab Republic fighter planes clashed today over U.A.R. territory above the Sinai Desert and one Israeli plane was shot down, a military spokesman said.

In Jerusalem, an official spokesman claimed it was Israeli territory which was violated by two U.A.R. planes. The spokesman said Israeli fighters chased the U.A.R. planes back across the border, hitting one in a brief dogfight, and then returned safely to their bases.

The U.A.R. spokesman said four Israeli planes infiltrated Egyptian territory over the Sinai, which is the U.A.R. frontier province with Israel and which lies far to the east of Cairo.

Hoffa Jury Tampering Charge Argued in Court

Nashville, Tenn. —UPI— Arguments were scheduled before U.S. District Judge Frank Gray Jr. today on the validity of an indictment charging Teamsters President James R. Hoffa with jury tampering.

This was one of 12 issues raised by the defense in pre-trial motions seeking dismissal of the indictment or a change of venue. Four of the issues were resolved in favor of the government Monday when Gray overruled one of Hoffa's two dismissal motions.

Hoffa and ten others are accused of tampering with the jury which tried the union leader's \$1-million conspiracy trial which ended in a mistrial here last year. All have pleaded innocent.

Other Issues

Among the other issues to be resolved at the pre-trial hearings are whether government representatives are guilty of illegal conduct in the case, whether the defendants should be granted separate trials in another city and whether the defense is entitled to transcripts of grand jury testimony.

Defense attorneys charged Monday that U.S. Dist. Judge William E. Miller, trial judge in the conspiracy case, had made prejudicial statements about the defendants and that special assistants to U.S. Atty. Gen. Robert Kennedy had come here from Washington to do a "hatchet job" on Hoffa.

Attorney Joe Binkley of Nashville charged that Miller found defendant Ewing King, president of Teamsters Local 327 here, guilty in statements

the judge made in declaring a mistrial in the conspiracy case last Dec. 23.

At that time, Miller said he had received evidence that "close labor union associates" of Hoffa attempted to contact and influence members of the jury.

Attorney Z. T. Osborn said that from Miller's statements and actions, the judge intimated that Hoffa was "circum-

Rail Management Asked To Postpone Work Rule Changes

Washington —UPI— Congressional leaders appealed indirectly to management today to sidetrack the threat of a nation-wide rail strike by delaying work rule changes while Congress considers

President Kennedy's peace keeping formula.

The Association of American Railroads voted unanimously this morning to support Kennedy's plan to turn the work rules dispute over to the Interstate Commerce Commission.

A spokesman said in response to questions, however, that the action did not have any bearing on management's decision to put the work rule changes into effect at midnight Monday. The rail unions have threatened a nationwide strike if this occurs.

In their appeal, the congressional leaders indicated they expected the carriers to postpone imposition of the work rules, which eventually would cost 55,000 workers their jobs.

"I assume they will continue the status quo while Congress is acting," Speaker John W. McCormack told newsmen after a breakfast meeting with Kennedy.

Democratic House Leader Carl Albert (Okla.) backed McCormack's view. Both said they were doubtful that Congress could pass legislation to put the Kennedy plan into effect before the work rules deadline. However, they said every effort would be made to get a quick decision.

The leaders shied away from any forecast of when the bill might be approved but Senate Leader Mike Mansfield (D-Mont.) said "prospects look favorable" for passage of the legislation to turn over the dispute to the Interstate Commerce Commission for binding determination.

Kennedy Appoints Automation Group

Washington —UPI— President Kennedy is appointing a commission on automation to search for means of easing the unemployment backwash caused when machines replace men.

The President announced appointment of the commission Monday as part of his message to Congress asking that the Interstate Commerce Commission step into a prime example of the impact automation can have — the railroad work rules dispute.

He said the commission would outline the effects automation is likely to have during the next 10 years and recommend governmental action. The commission "should undertake the most comprehensive review of this complex and many-sided subject ever ventured," Kennedy said.

He gave the commission until the end of next year to complete its study.

Residents Reminded Of Burning Hours

Trash may be burned in the city of Medford only during the hours from daylight to 10 a.m., the Medford fire department reminded residents today.

Burning permits are required unless the burning is done in a barrel with a screened top or an incinerator.

Firemen yesterday extinguished three fires that resulted from burning after hours.

At 12:11 p.m. they went to the rear of the Everett Hardin residence at 402 Clark st. where a 20 foot area of dry grass burned.

At 3:54 p.m. they were called to the S. R. Reese residence at 321 West Jackson st. and at 5:03 p.m. to the M. D. Marken residence at 2740 Elliott ave.

Auto Manufacturer Said Eyeing Coast

Portland —UPI— Republican political candidate Jim Baca-loff said today he has learned that a major automobile manufacturer is planning a \$50 million assembly plant on the West Coast, but high property and inventory taxes may keep it out of Oregon.

TOURNAMENT ENDS

Billings, Mont. —UPI— The Western Intermountain division Contract Bridge Tournament wound up here Monday with nationally-known bridge ace Oswald Jacoby and his partner, Paul Levitt, taking the championship in open pairs competition.

NEWS BRIEFS ITEMS FROM AROUND THE GLOBE

CRIPPLED TANKER TAKEN UNDER TOW

Portsmouth, Va. —UPI— A sea-going tug took the crippled Norwegian tanker Honor under tow today and crept toward the East Coast under the watchful eyes of a Coast Guard cutter. The 527-foot Honor was damaged in a collision Sunday with the American ship San Juan.

HORNE NAMED TO LOAN BANK BOARD

Washington —UPI— President Kennedy Monday named John E. Horne as a member of the Federal Home Loan Bank Board despite some congressional hopes that Horne remain head of the Small Business Administration (SBA).

COMMERCIAL FISHERIES AID APPROVED

Washington —UPI— The Senate Monday approved a \$28,250,000 program to aid states in the development of commercial fisheries.
