Grange News

Central Point Grange

The Central Point Grange hall was the scene for the final Pomona visitation meeting, recently, when members of the Granges of the county met and the awards and prize money were presented to the winning Granges.

Officers of the Lake Creek and Central Point Granges performed the opening and closing ritual. Guests were Roscoe Roberts, overseer of the Oregon State Grange; and Ted Sims, deputy of the State Grange.

Pomona Master Melvin Lattie, and the masters of the following Granges were presented: Harold Van Hoy, Live Oak; Cliff Moore, Eagle Point; Ernest Radomske, Sams Valley; Wayne Marshall, Lake Creek; Lloyd Whiteside, Phoenix; Edmund Ramsay, Upper Applegate; and Virgil Wilkes, Griffin Creek Grange.

Master James Cornutt presided during the business session of the Central Point Grange. A letter of thanks from Conny Varner for the 4-H scholarship she received was read by the secretary.

Lattie presented the Pomona Lecturer Victor Croxton who had arranged the program.

Lloyd Whiteside of the Phoenix Grange won the prize for the "tall tale" conducted among Grange masters.

Traveling plaques were presented to the five Granges winning this contest. First prize for attendance at the visitations was awarded to Eagle Point Grange; second to Live Oak Grange; third to Phoenix; fourth to Central Point; and fifth to Roxy Ann Grange.

Since the National Grange will meet in Portland in November plans are being made to give the Pomona and State degrees.

Jackson county Grangers were urged to avail themselves of the opportunity to take the seventh degree at the National Grange.

Roscoe Roberts, state overseer, expressed his appreciation of the interest shown in the visitation program, and stated the average attendance had been 213.

Lattie announced the Pomona meeting to be held at Butte Falls Grange on Saturday, July 27.

The Central Point HEC club will hold a picnic July 24 at the home of the Walter Ricks on Beall lane. All members of the Grange are invited.

DEFICIENCIES

Zinc and iron deficiencies have been detected in some Colorado feedstuffs. Feeding trace mineralized salt is one way to make sure these soil deficiencies don't "carry over" to western livestock.

FACTS ABOUT FREEDOM

WILL IT HIT THE TARGET?
IN THE REVOLUTIONARY WAR GETTING THE SHOT ON THE TARGET WAS LARGELY A HIT OR MISS AFFAIR WITH THE RANGE TO THE TARGET BEING JUDGED BY A SOLDIER WITH A KEEN EYE.

IN WORLD WAR II RADAR WAS USED TO FIND TARGET RANGES BUT THE BIG RADAR SCREENS PROVED TO BE TOO VULNERABLE ON A BATTLEFIELD.
