

## Vocational Program Is Presented at Rotary

The weather satellite Tiros, is but one of many new tools used in weather forecasting. Frank E. Lambrecht said in a brief vocational talk Tuesday before the Medford Rotary club.

Three members of the club, Lambrecht, Peter Trim and Clair Schiffman, spoke at a luncheon meeting at the

Rogue Valley Country club. Lambrecht, meteorologist at the U.S. weather bureau station in Medford, discussed the bureau's assignment in the fields of forecasting and observing and pointed out the importance of the services to aviation, logging and forest activities and to business generally.

The geographic location of Medford on the Pacific Coast map and growing south western Oregon and northern California market were the reasons Mid-Coast Distributors selected this city for a new and fast-growing garden tool, seed and fertilizer business, Peter Trim told Rotarians.

### Operates In Area

His firm, operating from Dunsun to Sutherland and the Pacific coast to eastern Oregon, has enabled dealers to avoid heavy shipping costs through regular trucking service to cities in this territory.

"There can be no compromise with mediocrity in memorialization" Clair Schiffman of Memory Gardens Memorial park emphasized his short address climaxing the vocational program.

Cremation is one of the oldest methods of burial, used in early times in India and by the Vikings. Records show that mausoleums were in use as early as 350 B.C., Schiffman said.

### ONLY DOING JOB

Lagos, Nigeria—UPI—K. O. Mbiadiwe, the federal minister of state, was refused tea in the House of Representatives because he could not produce a booklet of tea tickets. A plea from a parliamentary secretary failed to move the waiter. The secretary then paid six pence for the tea and ordered the waiter fired, it was reported Tuesday.

ACCEPTS CHECK—Medford Mayor James Dunlevy (right) is shown here with Crater Lions President Ellis Feinstein at the dedication of the new diving tank at Jackson park Friday. Feinstein presented the city with a check for \$1,545.41, funds raised from the organization's television auction. The entire proceeds of the event were donated toward the cost of the diving tank. Park and Recreation Director Robert Haworth was master of ceremonies at the dedication.

## Roaring Idaho Fires Result in Extreme State of Emergency

Boise, Idaho—UPI—More than 200 lightning-caused fires swept out of control across Idaho's tinder-dry ranges and forests today. The governor proclaimed an extreme state of emergency.

### Honolulu Again Has Newspapers

Honolulu—UPI—Metropolitan newspapers returned to Hawaii this morning for the first time since the start of the June 21 newspaper strike.

The Honolulu Star-Bulletin, an afternoon paper, was expected to follow its rival by only a few hours.

The strike formally ended on Saturday with the signing of a memorandum of agreement covering three-year contracts for the seven striking unions.

The contracts provided for wage increases of \$5 a week and fringe benefits.

equipment in fighting the blazes which ranged from spot fires on isolated ridges to a 14,000-acre inferno on desert hills east of Weiser.

The BLM called in supervisory personnel from neighboring states to relieve men who had been on the firelines more than 24 hours. In all, more than 1,000 firefighters were in the field.

Additionally, aerial tankers took off at dawn to drop chemical retardants on the worst of the fires.

The Boise National Forest dispatcher said there were 91 known fires in that agency's domain but added, "We're certain there are more than that." A spokesman for the BLM said that agency had 24 fires, five of which were under control and seven of which were contained but not yet under control.

**Bulldozers, Planes Used**

More than 300 men, including 42 guardsmen, tackled the biggest of the fires, a 14,000-acre range and brush fire about 15 miles east of Weiser on the Crane Creek drainage. On the ground, men used bulldozers. From the air, planes bombed the blaze with borate.

Another BLM fire blackened about 7,000 acres of desert brush eight miles northwest of Mountain Home. About 180 men were on that fire this morning and the bureau was hopeful of controlling it sometime during the day.

**C119 CRASHES**

Spartanburg, S. C.—UPI—An Air Force C119 "flying boxcar," participating in the nation's largest peacetime war maneuvers, crashed near here Monday. None of the five crewmen was badly hurt. The Air Force and Army are staging joint exercises, Swift Strike III, in the Carolinas. There was no immediate word on what caused the plane to crash.

TAKES UP PHOTOGRAPHY—This bear in Yellowstone Park has taken up photography. A visitor to the park was taking movies of the scenic wonders when Bruin came along, forcing the photographer's retreat. The tables were turned as the bear looked through the view finder at the fleeing photographer. (UPI)

## Engineer Killed As Trains Collide

Springfield, Ill.—UPI—A crewman was killed today when a 140-car Chicago and Northwestern freight train hit the side of a Chicago and Illinois Midland train 11 miles northwest of here.

There were no injuries but the engineer of one of the trains was killed, apparently when he jumped from the engine, officials said. Many of the freight cars were derailed.

Four-fifths of the population of Pakistan are engaged in farming. The staple foods are wheat and rice.

**MEANY FOR MERGER**  
Washington—UPI—AFL-CIO President George Meany has given his support to a merger of the AFL-CIO International Photo Engravers Union and the Independent Amalgamated Lithographers of America Union. Meany said Monday that he would ask the executive council to approve the merger plan at its Aug. 12 meeting.

## ITU Hears Call for Bargaining Support

Long Beach, Calif.—UPI—The chairman of the American Newspaper Publishers Association Tuesday called for "positive support" to restore collective bargaining to its proper place.

Miles P. Patrone told delegates to the 105th national convention of the International Typographical Union that the railroad crisis has become a major cause for attacks on collective bargaining.

He said these attacks raise "the specter of the ugly monster—compulsory arbitration." Patrone, of Chicago, who also heads the association's bargaining committee with unions, said the union can not afford to allow its relationship with employees to deteriorate into a power struggle.

"The continuance of collective bargaining will require determined, constructive and statesmanlike action," he said.

### COURT IN JAIL

Fort Worth, Tex.—UPI—Corporation Court Judge Wright Armstrong, who was hearing the normal complement of drunk charges, held Tuesday's court session in a cell of the city jail. The judge said the city had moved his court to a new location, 12 blocks away from the jail. This was too far, he said, for most of the prisoners to walk. One regular offender remarked of the new procedure: "It sure beats what we had."
