

# First Bonding Claim Filed in National Guard Scandal

## \$2,470 Asked on 'Position Bond' Over Officers

Salem—(UPI)—The first of several claims against bonding companies as the result of the misappropriation of Oregon National Guard funds have been filed by the attorney general's office, it was disclosed Tuesday.

Investigations into National Guard financial operations following the death of Adj. Gen. Alfred Hintz last year led to the discovery of the misappropriations.

Report of the irregularities in the National Guard accounts was made to the Oregon Legislature this year by Secretary of State Howell Appling Jr.

**Result of Findings**

The action against the bonding companies was a result of the findings of Appling's auditors.

The first claim was for \$2,470 and was filed against an insurance company which held a so-called "position bond" over National Guard staff officers authorized to draw checks and claims on state funds, Asst. Atty. Gen. Peter Herman said.

Herman said the bonding company was being asked to replace \$2,470 drawn in false claims for rations in order to provide liquor and other goods for official parties at Camp Clatsop (now Camp Riley) in 1957, 1958 and 1959. The claim filed with the bonding firm said the money apparently was drawn by one or more of four or five high-ranking officers covered by the bond but that it has not been determined which one drew the money.

An auditor's statement filed with the claim quoted one officer as saying the false draft in 1959 was ordered by Hintz.

Atty. Gen. Robert Thornton said the state could claim up to \$5,000 on the personal bond of Hintz and \$5,000 on the blanket policy against the others.

Herman said investigation has shown a shortage in National Guard funds of between \$22,000 and \$23,000.

**Unauthorized Projects**

Auditors said that much of the money had been used for unauthorized projects at Camp Withycombe.

Additional claims will be filed as soon as the state learns whether or not the federal government intends to lay claim against the state for federal surplus property obtained from the Tongue Point Naval Station on an altered requisition, Herman said.

## Soviet, Chinese Envoys Agree To Blast U. S.

Hiroshima, Japan—(UPI)—Feuding Russian and Chinese Communist delegates to a world ban-the-bomb conference here today buried the hatchet long enough to agree on a resolution condemning alleged U.S. "war policy."

## Resolution Faces Tough UN Fight

United Nations—(UPI)—African members of the United Nations faced a tough fight today in an effort to win Security Council approval for a partial economic boycott of South Africa.

The United States, Britain, France and Norway were all reported against the language of parts of a resolution tabled before the council Tuesday by Ghana, Morocco and the Philippines.

Since a resolution must have seven affirmative votes including all five permanent members, Britain, the United States, France, China and the Soviet Union—to win approval by the 11-nation council, some hard bargaining seemed likely.

The Afro-Asian resolution called on the council to approve a boycott of all South African goods and to call on states to stop exporting to South Africa any materials of direct military value. It also called on states to cease "forthwith" the sale and shipment of arms and ammunition to South Africa.

The U.S. has announced it will cease exporting arms to South Africa when current commitments have been honored by the end of the year. Britain and France also were reported in favor of an embargo on arms which might be used by the South African government against Africans.

They planned to read it as a final statement by delegates from 22 countries to the closing session of the ninth annual World Conference against Atomic and Hydrogen Bombs.

**Many Disgusted**

This year's conference, split by arguments between Communist and Socialist delegates as well as intra-Communist quarrels, appears to have disgusted many residents of Hiroshima who feel their city, the first to suffer atomic attack, has been turned into a political arena.

Some of Hiroshima's biggest pacifist organizations have disavowed all connections with the meeting.

"We must point out that as shown by the recent world situation, the most serious threat to world peace comes from the present war policy of the U.S. nuclear group," the resolution said.

**Treaty Not Mentioned**

It did not mention the nuclear test ban treaty signed in Moscow recently. The treaty has been supported by the Russian Communists and condemned by the Red Chinese.

One American delegate here, Russ Nixon of New York City, was a member of the drafting committee. The other U.S. delegate, Mrs. Carol Urner of Portland, Ore., said she would not sign it because it did not reflect the thinking of her organization, the Women's Strike for Peace.

**Residents Reminded Of X-Ray Facility**

The chest x-ray committee of the Jackson County Tuberculosis and Health association has called attention this week to the once-a-month clinic at Sacred Heart hospital, which will be held from 7 to 9 o'clock tonight.

School personnel, especially, are reminded that it takes a week to 10 days to receive a report of the chest films, so they should allow adequate time for this if it is needed for a school health certificate.

The clinic also will be open from 2 to 5 p.m. Thursday, Aug. 8.

Persons wishing chest x-rays are asked to wear clothing with a minimum of buttons and ornamentation on blouses, dresses, and shirts to help insure a satisfactory film. The facility is available to all persons 15 years of age and older.

**Oregon Accidents Take Three Lives**

By United Press International

Three persons died in Oregon traffic accidents Tuesday.

Ethel Frances Cunningham, 36, Madras, was killed late Tuesday night when struck by a cement truck on the Round Butte Dam road eight miles southeast of Madras. Police said she apparently had been slightly injured in an earlier accident when the car in which she was riding struck a utility pole.

Ernest Duwayne Nyman, 18, Newberg, was killed Tuesday night near Six Corners in Washington county when his car went out of control and crashed.

Mervin Andrew Foster, 18, Dufur, was killed and his father injured when their pickup truck left a rural road and overturned in a canyon 15 miles southeast of The Dalles Tuesday.

**School Administrators Working on Integration**

Baltimore, Md.—(UPI)—School administrators, beset by pressures on all fronts, are meeting here in an attempt to work out neighborhood school integration problems to the satisfaction of Negroes and whites.

The dozen or so officials from leading Northern and Midwest cities admit, however, they have a long row to hoe.

**Profit Taking Snaps String of Three Straight Stock Advances**

New York—(UPI)—Stocks bowed to a round of profit taking today, snapping a string of three consecutive advances and sending the list irregularly lower.

Brokers said the break was merely a pause for a consolidation of the recent three-day advance and assured investors that things would turn up once the market had caught its breath.

**DOW JONES AVERAGES**

New York—(UPI)—Dow Jones final stock averages: 30 industrials 703.82, off 3.14; 20 railroads 170.11, up 0.77; 15 utilities 141.25, up 0.37, and 65 stocks 254.05, off 0.23. Sales Wednesday were about 3.78 million shares compared with 3.76 million shares Tuesday.

**Foreign Briefs**

**FORMER FRENCH PREMIER IN GRAVE CONDITION**

Paris—(UPI)—Former French Premier Robert Schuman, 77, was reported today to be still in very grave condition following a stroke.

**TYPHOON HEADING FOR SOUTHERN JAPAN**

Tokyo—(UPI)—Typhoon Bess, with maximum winds of 121 miles an hour, today was reported moving slowly through the Pacific Ocean toward southern Japan. The typhoon warning center at Guam said the typhoon was located 370 miles east northeast of Okinawa at 3 p.m. today and moving northeast at 10 miles an hour.

**20 MEN BURNED IN MEXICO CITY FIRE**

Mexico City—(UPI)—A short-circuit touched off an explosion and flash fire which left 20 men with serious burns and caused an estimated \$100,000 damages at an oil refinery at Ciudad Madero in Tamaulipas state Tuesday, according to press reports here.

# Believers in Krebiozen Resume White House Picketing To Seek Clearance for Drug

Washington—(UPI)—Believers in Krebiozen, the "anti-cancer" serum, resumed their stand before the White House today, hopeful of some sign that President Kennedy would heed their pleas.

Pierre Salinger, the President's press secretary, said late Tuesday he would "look into" the matter.

The American Medical Association has categorically labeled the drug "worthless."

Law requires that "plans for investigational use" be filed with the Food and Drug Administration for every drug under experimental use. Drs. Steven Durovic and Andrew C. Ivy, Chicago, sponsors of Krebiozen, at first complied with this requirement, then withdrew their plan charging the FDA with harassment.

Their action meant that Krebiozen no longer could be sent through interstate commerce. Persons using the drug were faced with the choice of moving to Illinois or abandoning the treatment.

Abut 200 of them, some en route to Chicago and many wearing the symbolic black of mourning, appeared before the White House Tuesday in support of their plea. They also picketed the Health, Education and Welfare department.

They sought an executive order by the President which would guarantee that those now taking the serum could continue to do so until the National Cancer Institute has tested the drug.

Sen. Paul H. Douglas (D-Ill.) has proposed a joint resolution under which Krebiozen shipments to patients now undergoing the serum

would be permitted until an NCI test of the serum is completed. A similar resolution in the House by Rep. Otis G. Pike (D-N.Y.), has about 20 co-sponsors.
