

HELP ARRIVES - A unit of 500 Russian troops, who came to Skopje, Yugoslavia, after a Yugoslav-Soviet agreement was signed, use drills and tracked vehicles to help clear debris in the earthquake-shattered town.

Proposed Domestic Peace Corps Seen As Help To Needy

Washington - (UPI) - Sen. Harrison A. Williams (D-N.J.) said today President Kennedy's proposed domestic Peace Corps would bring hope to "millions of Americans still living in poverty, deprivation and despair."

Williams made the comments in remarks prepared for the opening round of Senate debate on the administration plan to create a national service corps of volunteers patterned after the successful overseas Peace Corps.

The measure faced the cold reality of sharp opposition from determined foes.

Senate GOP Leader Everett M. Dirksen (Ill.) served notice in advance that he would move to have the measure sent back to a committee pigeon hole. Failing this, Dirksen said, he hoped to muster enough opposition votes to take the bloom off the bill and lessen its chances for approval in a more hostile House.

Sen. John G. Tower (R-Tex.) said he would offer several civil rights amendments to require that the corps be racially integrated, and barring any projects in areas which practice discrimination.

The bill authorizes an initial outlay of \$5 million to start the proposed program and recruit up to 300 volunteers.

Enrollments would expand to 1,000 by June 30 of next year, and eventually reach 5,000 in perhaps three years. The cost would rise as the program expanded.

Corpsmen would receive a minimal living allowance and a monthly stipend of \$75. Volunteers - both youths and

men and women of retired age - would assist such local projects as the care of the elderly and disabled, mentally ill, help in rural and urban slums and on Indian reservations.

Backers argued that corps personnel, working under the supervision of local officials, would provide a "new dimension of service at home."

The goal of the corps will be, "by the efforts of a few, to ignite the energies of many," a committee report explained. "By providing an opportunity for Americans to serve their nation in peace..."

the corps will reemphasize the traditional American precepts of neighborly concern and the value of local solutions to local problems."

Issue Minority Report
In an opposition minority report, Republican Sen. Tower and Len B. Jordan (Idaho) said that supporters made it sound as though a "vote against this bill is tantamount to a vote against Mother's Day."

But Tower and Jordan said the program "would be a waste of taxpayers' money."

"The whole thing is an act, a publicity stunt to draw attention. We can only conclude that the administration in proposing this bill seeks to reap a political harvest of publicity..."

Arms Delegates Exchange Views
Geneva - (UPI) - Delegates to the 17-nation disarmament conference today settled down to a general "exchange of views" and to await the United Nations session next month for the next major move on arms.

The United States and Russia told the conference Monday an effort will be made to follow up the partial nuclear test ban treaty when the U.S., Soviet and British foreign ministers meet at the UN General Assembly opening Sept. 17.

Informed sources said the negotiators here would spend the time until the UN session in an exchange of views on issues of lesser importance.

U.S. negotiator Charles C. Steel and Soviet representative Semyon K. Tsarapkin agreed the time is too short to conclude a study of any key question and reach an agreement on it. The conference resumed after a recess that started before the nuclear agreement was signed Aug. 5.

No formal conference session was scheduled today.

France Possibly Planning Bomb Test
Paris - (UPI) - Reports that French truck convoys loaded with detonator cable are heading into the Sahara Desert inspired speculation today that a new French nuclear test may be imminent.

Neither French nor Algerian government spokesmen were available immediately for comment.

The French have been using a base in the Hoggar Mountains of the southern Sahara to test nuclear devices in an apparent effort to develop a trigger mechanism for a hydrogen bomb. They hope to have an H-bomb ready for testing in the South Pacific by 1968.
