

# Land Dedication for Ashland Cemetery Receives Approval

The dedication of a memorial park cemetery in Ashland and the naming of a subdivision were discussed at the principal meeting of the Jackson county planning commission.

After considerable discussion, the commission approved by a vote of 5 to 3 the petition submitted by Ashland Cemetery Inc. to dedicate land north of the Interstate 5 and East Main st. interchange northeast of Ashland.

In presenting the petition to the commission, Subdivision Committee Chairman Gerald Latham explained that under Oregon law the group only had to check whether a residence was within 200 yards of the proposed cemetery. In this case, Latham said, there are no homes within this area and since the property is not zoned the committee recommended approval of the petition.

**Group Opposes Cemetery**  
Opposing the cemetery was a group represented by Sidney Ainsworth, Ashland lawyer, owning property to the north and east of the 78 acres proposed for a cemetery. Speaking for the cemetery group was Gerald Scannell, Ashland lawyer.

Voting in favor of the petition were Latham, V. F. Birdseye, Andrew Hawver, C. W. Duggan, and G. I. Peoples. Opposing it were R. W. Courtright, Edd Rountree and David Lowry.

The other major item on the agenda was the discussion regarding the Sunshine Village name of a subdivision in the Ruch area owned by A. C. Pierce. The similarity between that name and others filed was discussed. The preliminary plat was approved by the commission, but the name was not approved pending opinion by the district attorney.

**Asks Increased Rate**  
Mark Boyden, county surveyor, spoke regarding the checking fee of subdivision plats. The present fee is \$16. He recommended that the amount be raised to \$25, maximum according to state law.

The commission decided to study the request and other changes recommended for incorporation into the present subdivision ordinance and after review by the subdivision committee to hold a public hearing on the changes.

In other action, the commission approved the vacation of several alleys and streets in the Bunker Hill subdivision, the Easy Valley subdivision subject to an agreement with the Kings Highway water district for water supply, and the preliminary plat

# House Group Okays Kennedy's Request For Record Tax Cut

(Continued From Page One)  
Byrd indicated the major hurdle to final action on tax legislation this year is civil rights legislation which faces an almost certain filibuster in the Senate, probably in early September.

Byrd said it would contribute to holding back action on other major measures. He stressed postponement of final tax action until next year was "a certainty."

Tax treatment of dividend income was the most controversial of the few remaining issues which the committee hoped to settle today. The bill then would be ready for final drafting touches next week and expected House passage in September. Whether the Senate will complete action this year remained uncertain.

Kennedy wants a dividend income of stockholders taxed at the same rates that apply to wages and salaries. His proposal, designed to produce \$370 million in new revenue, would leave untouched the existing tax exemption for the first \$50-a-person in dividend income. Despite GOP opposition key Democrats claimed they had the votes to win committee approval of a compromise.

The tax-cutting provisions approved Wednesday would—

—Knock off the tax rolls altogether some 1.5 million individual taxpayers. Their tax-free status, starting in 1964, would result from establishment of a new "minimum standard deduction" which would increase with family size. One result: No one with an annual income of \$900 or less would have to pay U.S. income taxes. The cut-off
